Seth Koven

Startling Revelations:

Slumming Seth Koven, 2006-07-24 In the 1880s fashionable Londoners left their elegant homes and clubs in Mayfair and Belgravia and crowded into omnibuses bound for midnight tours of the slums of East London A new word burst into popular usage to describe these descents into the precincts of poverty to see how the poor lived slumming In this captivating book Seth Koven paints a vivid portrait of the practitioners of slumming and their world who they were why they went what they claimed to have found how it changed them and how slumming in turn powerfully shaped both Victorian and twentieth century understandings of poverty and social welfare gender relations and sexuality The slums of late Victorian London became synonymous with all that was wrong with industrial capitalist society But for philanthropic men and women eager to free themselves from the starched conventions of bourgeois respectability and domesticity slums were also places of personal liberation and experimentation Slumming allowed them to act on their irresistible attraction of repulsion for the poor and permitted them with society's approval to get dirty and express their own dirty desires for intimacy with slum dwellers and sometimes with one another Slumming elucidates the histories of a wide range of preoccupations about poverty and urban life altruism and sexuality that remain central in Anglo American culture including the ethics of undercover investigative reporting the connections between cross class sympathy and same sex desire and the intermingling of the wish to rescue the poor with the impulse to eroticize and sexually exploit them By revealing the extent to which politics and erotics social and sexual categories overflowed their boundaries and transformed one another Koven recaptures the ethical dilemmas that men and women confronted and continue to confront in trying to love thy neighbor as thyself

Interpreting The Rules of Revelation Mark Alan Norris, 2017-09-15 Interpreting the Rules of Revelation presents the inductive literal Bible study approach to the New Testament prophet John's Book of Revelation Based on the foundation of biblical hermeneutics Norris purposes to give readers the literal skills to develop their own views on this fascinating subject The prophetic message of the Hebrew prophets the pre mid and post Rapture positions and the Second Coming of Christ are all presented with Pat Marvenko Smith's illustrative Revelation Productions art as the Bible reads not in between the lines

The Temperance Program Thomas Franklin Hubbard, 1915 **Geology and Revelation** Gerald Molloy, 1870 **Revelation** Gerald O'Collins, 2016 Since the late 1980s the theme of God's self revelation has been treated only briefly in Christian theology at times simply ignored and often confused with biblical inspiration Revelation Towards a Christian Theology of God's Self Revelation lays out its basic characteristics and begins by distinguishing between revelation in the primary sense a living encounter with God's self disclosure and in the secondary sense statements of faith derived from that encounter or propositional revelation It considers revelation as transforming and informing as being sacramental or mediated through words and deeds as communicated through an endless variety of means and mediators as related to but distinct from biblical inspiration and truth and as reaching those of other faiths or of no faith at all Gerald O Collins skilfully distinguishes between

past or foundational revelation present or dependent revelation and future or eschatological revelation He expounds with ecumenical sensitivity the complex relationship between tradition and scripture O Collins moves into controversial areas by insisting that the divine self revelation takes place only when received by human faith and that outside revelation there is no salvation extra revelationem nulla salus This volume offers a coherent account of God s self revelation which can serve as a basis for all that follows in theology and for dialogue with those who follow other living faiths or none at all O Collins extends and enriches what he has proposed in earlier books and articles about the characteristics of God s self revelation

Pseudo-Science and Society in 19th-Century America Arthur Wrobel, 2021-10-21 Progressive nineteenth century Americans believed firmly that human perfection could be achieved with the aid of modern science To many the science of that turbulent age appeared to offer bright new answers to life s age old questions Such a climate not surprisingly fostered the growth of what we now view as pseudo sciences disciplines delicately balancing a dubious inductive methodology with moral and spiritual concerns disseminated with a combination of aggressive entrepreneurship and sheer entertainment Such sciences as mesmerism spiritualism homoeopathy hydropathy and phrenology were warmly received not only by the uninformed and credulous but also by the respectable and educated Rationalistic egalitarian and utilitarian they struck familiar and reassuring chords in American ears and gave credence to the message of reformers that health and happiness are accessible to all As the contributors to this volume show the diffusion and practice of these pseudo sciences intertwined with all the major medical cultural religious and philosophical revolutions in nineteenth century America Hydropathy and particularly homoeopathy for example enjoyed sufficient respectability for a time to challenge orthodox medicine The claims of mesmerists and spiritualists appeared to offer hope for a new moral social order Daring flights of pseudo scientific thought even ventured into such areas as art and human sexuality And all the pseudo sciences resonated with the communitarian and women s rights movements This important exploration of the major nineteenth century pseudo sciences provides fresh perspectives on the American society of that era and on the history of the orthodox sciences a number of which grew out of the fertile soil plowed by the pseudo scientists **The Occult Review** , 1921 Judicial Dis-Appointments Mitchel de S. -O. -l'E. Lasser, 2020-10-11 In 2009 and 2010 the European Court of Justice and the European Court of Human Rights underwent significant reforms to their respective judicial appointments processes Though very different judicial institutions they adopted very similar and rather remarkable reforms each would now make use of an expert panel of judicial notables to vet the candidates proposed to sit in Luxembourg or Strasbourg Once established these two vetting panels then followed with actions no less extraordinary they each immediately took to rejecting a sizable percentage of the judicial candidates proposed by the Member State governments What had happened Why would the Member States of the European Union and of the Council of Europe which had established judicial appointments processes that all but ensured themselves the unfettered power to designate their preferred judges to the European courts and who had zealously maintained and exercised that

power over the course of some fifty years suddenly decide to undermine their own capacity to continue to do so This book sets out to solve this mystery Its point of departure is that it would be a mistake to view the 2009 2010 establishment of the two vetting panels in isolation from other European judicial developments Though these acts of institutional creation are certainly the most notable recent developments they actually represent but the crowning achievement of a process of European judicial appointments reform that has been running unremittingly since the 1990 s This longstanding and tenacious movement has actually triggered a broad set of interrelated debates and reforms encompassing not only judicial appointments per se but also a much wider set of issues including judicial independence judicial quality judicial councils the separation of powers judicial gender equity and more

Concepts of Islam Naeem Abdullah, 2011-03-01 Concepts of Islam is firstly an honest and sincere effort to show the beauty and grandeur of what has been given to mankind in both the universal message that Muhammad received in the form of divine revelation The Holy Quran and the way that the prophet Muhammad lived his personal life his Sunni It is to be noted that in no way could one manuscript capture all of the beauty and splendor of the Glorious Quran or the repertory life of the prophet Muhammad

Neural Mechanisms of Startle Behavior Robert C. Eaton, 2013-11-11 In the past fifteen years there has been considerable interest in neural circuits that initiate behavior patterns For many types of behaviors this involves decision making circuits whose primary elements are neither purely sensory nor motor but represent a higher order of neural processing Of the large number of studies on such systems analyses of startle circuits compose a major portion and have been carried out on systems found throughout the animal kingdom Startle has been an important model because of the reliability of the behavioral act for laboratory study and the accessibility of the underlying neural circuitry However probably because of the breadth of the subject this material has never been reviewed in a comprehensive way that presents the elements common to startle circuits in the different animal systems in which they occur This book presents a diversity of approaches based on a broad background of animal groups ranging from the earliest nervous systems in cnidarians to the most recently evolved and advanced

in mammals The behaviors themselves are all short latency fast motor acts when considered on the time scale of the organism and involve avoidance or evasion although in some cases we do not yet completely understand their natural role These behaviors occur in response to stimuli that have sudden or unexpected onset 'Every Mother's Son is Guilty' Chris Owen, 2016 This is a marvellous contribution by Chris Owen to the understanding of the role the Western Australian police force played in the colonial expansion into the Kimberley district of Western Australia Senator Patrick Dodson Yawuru Elder Chris Owen provides a compelling account of policing in the Kimberley district from 1882 when police were established in the district until 1905 when Dr Walter Roth's controversial Royal Commission into the treatment of Aboriginal people was released Owen's achievement is to take elements of all the pre-existing historiography and test them against a rigorous archival investigation In doing so a fuller understanding of the complex social economic and political changes occurring in Western Australia during the period are exposed The policing of Aboriginal people changed from one of protection under law to one of punishment and control The subsequent violence of colonial settlement and the associated policing and criminal justice system that developed often of questionable legality was what Royal Commissioner Roth termed a brutal and outrageous state of affairs Every Mother's Son is Guilty is a significant contribution to Australian and colonial criminal justice history Subject History Aboriginal Studies Criminal Justice policing *Congressional Record* United States. Congress, 1968 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789-1824 the Register of Debates in Congress 1824-1837 and the Congressional Globe 1833-1873
