Hope as Atmosphere Xu Wang, 2022-07-11 In this thesis the phenomenon of fundamental hope is understood as atmosphere As a metaphor hope as atmosphere finds a new expression of hope other than the light metaphor that dominates the discourse of hope Hope is not only the light that illuminates the dark moments of life but also more fundamentally in the air it lies in the sphere in between and saturates each life experience and every living moment As an existential reality hope as atmosphere reveals our hopeful way of atmospheric co existence Communal love constitutes the ground of this hopeful co existence it keeps the hopeful co existence constantly refreshed and open guaranteeing more possibilities of hope On the basis of communal love hopeful co existence shows its ontological meaning as a way towards life The thesis of hope as atmosphere finds resonance and expression not only in Christian trinitarianly based understanding of hope but also in the most central doctrine of co humanity in Confucianism

Sociology of Hope Adrian Scribano, 2025-07-01 This book explores the sociology of hope It presents an overview of the state of the art of hope in sociology and proposes a new basic theory of hope linked to the classical theoretical traditions of sociology to the perspective of its founding women and to the reconstruction of the contributions of the theories of revolution utopia social change and collective action In an attempt to understand the sociology of hope as a critical theory and a science of life this book proposes the central elements in theoretical and epistemic terms for establishing connections between ethics aesthetics politics of knowledge and their current strong modifications in the study of society As such the book will appeal to scholars and students interested in emotions particularly from the disciplines of sociology anthropology political science and psychology

Hope and Trust in Times of Global Despair and Mistrust Robert Petkovjek, Bojan Jalec, 2023-10-06 Hope and trust are key problems of the present world and should therefore be at the centre of interest of science and society Climate change pandemics dangerous global and social polarization people s distrust of politics and institutions social isolation and the rise

of mental problems in developed countries of material prosperity are problems that we will only be able to cope with if we know how to cultivate hope and trust The authors deal with them from various aspects of the humanities philosophy theology religious studies intellectual history cognitive science psychology and psychotherapy This gives the book an interdisciplinary character Hope in Hopeless Times John Holloway, 2022-10-20 Hope lies in our richness in the joy of our collective creativity But that richness exists in the peculiar form of money The fact that we relate to one another through money causes tremendous social pain and destruction and is dragging us through pandemics and war towards extinction Richness against money this battle will decide the future of humanity If we cannot emancipate richness from money capital profit there is probably no hope Money seems invincible but the constant expansion of debt shows that its rule is fragile The fictitious expansion of money through debt is driven by fear fear of us fear of the rabble Money contains but richness overflows In this final part of his ground breaking trilogy John Holloway expertly fuses anti capitalism and anti identitarianism and brings hope into the critique of political economy and revolutionary theory challenging us to find hope within ourselves and channel it into a dignified revolutionary rage **Hope Against Hope** Leonard Bowman, 2001-04-29 A conflict of hope is causing tensions in Church and society Hope Against Hope describes two common forms of hope Apocalyptic hope stresses conflict and looks forward to Doomsday Cosmic hope stresses reconciliation and looks forward to universal harmony Reflecting on this conflict Hope Against Hope draws on the Bible and on everyday wisdom to highlight the strengths and deficiencies of both common forms of hope Then it leads toward a good hope that balances the good in both and goes beyond them to their root This way focuses on the great surprise of the New Testament the resurrection Then it finds the power of the resurrection at work surprisingly in the simplest human relationships From that simple insight comes a promising direction for the future and a clear moral compass *From Misery to Hope* Joe Egan, 2010 How can one believe in a God of love amid all the evil and suffering found in the world How does one do theology after Auschwitz while vast numbers of people still have to endure violent oppression every day This book seeks to address such questions from a standpoint informed by life in Africa which in the face of extraordinary difficulties bears witness to Gospel hope by demonstrating forgiveness in action and promoting reconciliation The work unfolds in two parts In the first part a description of the misery that characterises much of life in Africa in the recent past opens up to a theological consideration of the underlying causes and of God's response to them In the second part the joy which is so characteristic of life in Africa even in places of immense suffering sets the scene for detailed reflections on liturgy memory forgiveness and hope *The Logic of Incarnation* Neal DeRoo, Brian Lightbody, 2009-01-01 With his Logic of Incarnation James K A Smith has provided a compelling critique of the universalizing tendencies in some strands of postmodern philosophy of religion A truly postmodern account of religion must take seriously the preference for particularity first evidenced in the Christian account of the incarnation of God Moving beyond the urge to universalize which characterizes modern thought Smith argues that it is only by taking seriously particular differences

historical religious and doctrinal that we can be authentically religious and authentically postmodern Smith remains hugely influential in both academic discourse and church movements This book is the first organized attempt to bring both of these aspects of Smith s work into conversation with each other and with him With articles from an internationally respected group of philosophers theologians pastors and laypeople the entire range of Smith s considerable influence is represented here Discussing questions of embodiment eschatology inter religious dialogue dogma and difference this book opens all the most relevant issues in postmodern religious life to a unique and penetrating critique **Keeping Hope Alive** Dermot A. Lane, 2005-01-26 Today more and more people are asking questions about human social and cosmic destiny Does the universe have a purpose What is the point of historical existence What happens at death What can we hope for Is it possible to talk meaningfully about another world In *Keeping Hope Alive* Dermot A Lane addresses these and other questions The author sets out to develop a theology of hope rooted in both human experience and the Christian tradition In discussing Christian belief Lane pays particular attention to the death and resurrection of Christ as both the pivotal eschatological event and the fundamental ground of Christian hope At the same time he deals with contemporary human experience addressing questions arising from the Marxist critique of Christianity the nuclear threat the ecological crisis and the apparent emptiness of much post modern thinking Dermot Lane confronts difficult issues such as death heaven hell purgatory resurrection reincarnation and the possibility of universal salvation with realism and honesty The end result is a new theological synthesis that takes account of recent developments in anthropology feminism and cosmology This carefully crafted book will be of value to all who are asking searching questions about the meaning of living and dying
