ship combat and support for the armies of Gen U S Grant and Gen William T Sherman Mr. Lincoln's Brown Water **Navy** Gary D. Joiner, 2007 The Union inland navy that became the Mississippi Squadron is one of the greatest yet least studied aspects of the Civil War Without it however the war in the West may not have been won and the war in the East might have lasted much longer and perhaps ended differently. The men who formed and commanded this large fighting force have with few exceptions not been as thoroughly studied as their army counterparts. The vessels they created were highly specialized craft which operated in the narrow confines of the Western rivers in places that could not otherwise receive fire support Ironclads and gunboats protected army forces and convoyed much needed supplies to far flung Federal forces They patrolled thousands of miles of rivers and fought battles that were every bit as harrowing as land engagements yet inside iron monsters that created stifling heat with little ventilation This book is about the intrepid men who fought under these conditions and the highly improvised boats in which they fought The tactics their commanders developed were the basis for many later naval operations Of equal importance were lessons learned about what not to do The flag officers and admirals of the Mississippi Squadron wrote the rules for modern riverine warfare *Naval Weapons Systems and the Contemporary* Law of War James J. Busuttil, 1998 This book provides the first comprehensive critical analysis of the regulation of naval weapons during armed conflict It examines the experience this century with the use of naval mines submarines and anti-ship missiles the three main naval weapons The sources of international law relevant to an assessment of the law that is the extant conventions state practice military manuals war crimes prosecutions and the opinions of publicists are each extensively examined so that a clear picture of the law emerges The book examines the impact of agreements drawn up in peacetime on wartime conduct and focuses on the growth of law through customary practice While stating the law as it is today it also provides suggestions for the practical development of the law *Understanding Modern Warfare* David Jordan, James D. Kiras, David J. Lonsdale, Ian Speller, Christopher Tuck, C. Dale Walton, 2016-07-14 A fully revised and updated new edition of this leading introduction to the theory and conduct of warfare in the twentieth and twenty first centuries The book combines analysis of key concepts theory and military doctrine with reference to relevant examples from history and integrates the land sea and air environments Civil War Naval Chronology, 1861-1865 United States. Thomas Campbell, 2011-04-11 No body of water was more vital to the Confederacy s efforts in the Civil War than the Mississippi River and its tributaries Though the Confederate Congress declared the Mississippi free and open to all states north and south the Union launched plans for an effective blockade of the 1700 miles of Southern coastline coupled with a strong naval and army thrust down the Mississippi Valley from Cairo Illinois to the Gulf of Mexico To defend the river and to prevent Union forces from advancing the South would require a strong naval force There was only one problem with the strategy The Confederacy had no navy On February 25 1861 Confederate president Jefferson Davis nominated Stephen R Mallory to be secretary of the newly formed Confederate States Navy Mallory faced significant obstacles no shipyards few skilled craftsmen and machinists and a lack of production facilities to process raw materials Mallory was able to overcome the many shortcomings to build a formidable navy but the efforts in the Mississippi theater were hamstrung by a disjointed command structure and interservice bickering Despite these problems the Confederate Navy contested the Union forces at every turn The history of Confederate naval forces on the western waters is a story of desperation intrigue ineptitude and humiliating defeats interspersed with moments of courage innovation resourcefulness and a few hard earned victories

resorted to unorthodox forms of warfare to combat enemy forces Perhaps the most energetic and effective torpedo corps and secret service company organized during the American Civil War the Singer Secret Service Corps led by Texan inventor and entrepreneur Edgar Collins Singer developed and deployed submarines underwater weaponry and explosive devices The group's main government financed activity which eventually led to other destructive inventions such as the Hunley submarine and behind enemy line railroad sabotage was the manufacture and deployment of an underwater contact mine During the two years the Singer group operated several Union gunboats troop transports supply trains and even the famous ironclad monitor Tecumseh fell prey to its inventions In Confederate Saboteurs Building the Hunley and Other Secret Weapons of the Civil War submarine expert and nautical historian Mark K Ragan presents the untold story of the Singer corps Poring through previously unpublished archival documents Ragan also examines the complex personalities and relationships behind the Confederacy s use of torpedoes and submarines The Vicksburg Campaign, 1863 Chris Mackowski, 2025-04-30 A fully illustrated account of the Vicksburg Campaign including modern color photography and covering the river war inland battles seige operations and more The 14 month campaign to regain the control of Mississippi River by capturing Vicksburg Mississippi stands as the prime example of how the Civil War would be fought and won The Federal government's policy of blockading the southern ports and controlling the inland waterways would only be successful with total control of the country's largest river Technological advances created by the war itself and used by progressive thinking Federal and Confederate commanders ensured that this vital Southern supply and logistics base would be the focal point of the war on the western waters Ulysses S Grant who had risen to fame as one of the North's prominent heroes early in the war boldly concluded that Vicksburg would be the next nut to crack in the Federal policy for control of the Mississippi River Understanding that only a strong relationship with US Navy could ensure the success of Vicksburg's surrender Grant found a man as bold and daring as himself in David Dixon Porter and his Mississippi Squadron of ironclad gunboats and fleet of vessels These two commanders and their trusted subordinates would frustrate John C Pemberton s attempts to defend Mississippi and eastern Louisiana for the Confederacy A lack of experience in commanding such an important assignment limited resources poor staffing and a Confederate government consumed with the war in the east ensured Pemberton s position would be insurmountable as the Confederacy s tenuous hold on the Mississippi River began to fall apart
