Translating Petrarch in early modern Britain Marie-Alice Belle, Riccardo Raimondo, Francesco Venturi, 2025-08-05
Translating Petrarch in early modern Britain gathers twelve essays by international scholars focusing on the translation of Petrarch's vernacular verse *Canzoniere* and *Triumphs* into English from the Tudor age to the mid seventeenth century and beyond. Approaching translation as an interpretive process but also a mode of literary emulation and cultural engagement with Petrarch's prestigious precedent, the collection explores the complex and interconnected trajectories of both poetic works in English and Scottish literary milieux. While situating each translation in its distinct historical material and literary context, the essays trace the reception of Petrarch's works in early modern Britain through the combined processes of linguistic and metric innovation, literary imitation, musical adaptation, and cultural and material domestication. The collection sheds light on the origins and development of early modern English Petrarchism as part of wider transnational and indeed translational European literary culture.

Pastoral Drama and Healing in Early Modern Italy Federico Schneider, 2016-05-13
Pastoral Drama and Healing in Early Modern Italy represents the first full length study to confront seriously the well rehearsed analogy of the pastoral poet as healer. Usually associated with the edifying function of the Renaissance pastoral, this analogy if engaged more profoundly raises a number of questions that remain unanswered to this day. How does the pastoral heal? How exactly do the inner workings of the text cater to the healing? What socio cultural conventions make the healing possible? What are the major problems that pastoral poetry as mimesis must overcome to make its healing morally legitimate? In the wake of Derrida's seminal work on the Platonic *pharmakon* which has in turn led recent criticism to formulate a much more concrete understanding of the theater drug analogy, the stringent approach to the therapeutic function of the Renaissance pastoral offered in this work provides a valuable critical tool to unpack the complexity contained within a little understood cliché.

The Site of Petrarchism William J. Kennedy, 2004-12-01
Drawing upon poststructuralist theories of nationalism and national identity developed by such writers as Etienne Balibar, Emmanuel Levinas, Julia Kristeva, Antonio Negri, and Slavoj Žižek, noted Renaissance scholar William J. Kennedy argues that the Petrarchan sonnet serves as a site for early modern expressions of national sentiment in Italy, France, England, Spain, and Germany. Kennedy pursues this argument through historical research into Renaissance commentaries on Petrarch's poetry and critical studies of such poets as Lorenzo de' Medici, Joachim du Bellay, and the Pléiade brigade, Philip and Mary Sidney, and Mary Wroth. Kennedy begins with a survey of Petrarch's poetry and its citation in Italy, explaining how major commentators tried to present Petrarch as a spokesperson for competing versions of national identity. He then shows how Petrarch's model helped define social class, political power, and national identity in mid sixteenth century France, particularly in the nationalistic sonnet cycles of Joachim du Bellay. Finally, Kennedy discusses how Philip Sidney and his sister Mary and niece Mary Wroth reworked Petrarch's model to secure their family's involvement in forging a national policy under Elizabeth I and

The Endless Periphery Stephen J. Campbell, 2019-11-26 While the masterpieces of the Italian Renaissance are usually associated with Italy's historical seats of power some of the era's most characteristic works are to be found in places other than Florence Rome and Venice They are the product of the diversity of regions and cultures that makes up the country In *Endless Periphery* Stephen J. Campbell examines a range of iconic works in order to unlock a rich series of local references in Renaissance art that include regional rulers patron saints and miracles demonstrating for example that the works of Titian spoke to beholders differently in Naples Brescia or Milan than in his native Venice More than a series of regional microhistories *Endless Periphery* tracks the geographic mobility of Italian Renaissance art and artists revealing a series of exchanges between artists and their patrons as well as the power dynamics that fueled these exchanges A counter history of one of the greatest epochs of art production this richly illustrated book will bring new insight to our understanding of classic works of Italian art

Figurations of France Marcus Keller, 2011-04-22 In Figurations of France Literary Nation Building in Times of Crisis 1550-1650 Marcus Keller explores the often indirect and subtle ways in which key texts of early modern French literature from Joachim Du Bellay's *Difense et illustration de la langue fran aise* to Corneille's *Le Cid* contribute to the fiction of France as a nation Through his fresh take on these and other classics he shows that they not only create the French as an imaginary community but also provide venues for an incisive critique of the political and cultural construct that underpins the modern nation state Current theories of nationhood in particular the concepts of the nation form and fictive ethnicity tienné Balibar inform the close readings of Du Bellay's *Difense* Ronsard's *Discours d'Aubign*'s *Tragiques* Montaigne's *Essays* Malherbe's odes and Corneille's *Le Cid* and Horace They reveal the imaginary power and unifying force of early modern figurations of France that come to bear in this heterogeneous corpus of French literature with texts ranging from manifesto and epic poem to essay and tragedy Situating each author and text in their particular historical context the study suggests that the literary invention of France in the sixteenth and seventeenth centuries is as abundant as it is conceptually innovative Du Bellay for example develops an idea of France by portraying the French language as a pruned and grafted tree while d'Aubign proposes to think of the French as a nuclear but fatherless family Blood functions as a highly charged metaphor of nationhood in all texts Opening up new perspectives on these canonical works the focus on literary nation building also puts them into unexpected and thought provoking relationships to each other Figurations of France deliberately crosses the fictive boundary between the sixteenth and the seventeenth centuries and argues that in terms of imaginary nation building the contours that delineate the early modern period and separate it from what we call the modern era quickly begin to dissolve Ultimately the book makes the case for early modern literature as a creative and critical discourse able to nourish and nuance our thinking about the nation as the postmodern nation state is increasingly called into question by the economical political and cultural effects of globalization Published by University of Delaware Press Distributed worldwide by Rutgers University Press

The Perfect Genre. Drama and Painting in Renaissance Italy

Kristin Phillips-Court, 2016-12-05 Proposing an original and important re conceptualization of Italian Renaissance drama Kristin Phillips Court here explores how the intertextuality of major works of Italian dramatic literature is not only poetic but also figurative She argues that not only did the painterly gaze so prevalent in fifteenth and sixteenth century devotional art portraiture and visual allegory inform humanistic theories practices and themes it also led prominent Italian intellectuals to write visually evocative works of dramatic literature whose topical plots and structures provide only a fraction of their cultural significance Through a combination of interpretive literary criticism art historical analysis and cultural and intellectual historiography Phillips Court offers detailed readings of individual plays juxtaposed with specific developments and achievements in the realm of painting Revealing more than historical connections between artists and poets such as Tasso and Giorgione Mantegna and Trissino Michelangelo and Caro or Bruno and Caravaggio the author locates the history of Renaissance art and drama securely within the history of ideas She provides us with a story about the emergence and eventual disintegration of Italian Renaissance drama as a rigorously philosophical and empirical form Considering rhetorical philosophical ethical religious political ideological and aesthetic dimensions of each of the plays she treats Kristin Phillips Court draws our attention to the intermedial conversation between the theater and painting in a culture famously dominated by art Her integrated analysis of visual and dramatic works brings to light how the lines and verses of the text reveal an ongoing dialogue with visual art that was far richer and more intellectually engaged than we might reconstruct from stage diagrams and painted backdrops
