Situating Sound And Rhythm:

Sound Worlds from the Body to the City Ariane Wilson, 2019-03-13 This volume reveals the extent to which aural perception influences our spatial awareness Spanning various fields and practices from psychology to geography and from zoology to urban planning it covers a range of environments in which sounds contribute to forming our sense of space and place The contributions gathered here lead from the mother's womb through the habitats of insects and owls to the resonating bodies of buildings and the city to artistic endeavours that aim to consciously reveal the spatiality of sound In this progression the book demonstrates the profoundly constitutive role of hearing and listening at all stages of our biological and social development as well as the epistemological phenomenological and emotional importance of sound in relation to our construction of space As such it will appeal not only to architects town planners and artists but also to the growing community of scientists and scholars intrigued by sonic issues Differing from both quantitative acoustics and sound design its approach opens new perspectives on the sonic dimension and aural understanding of our environment by tracing analogies between a diversity of spaces formed when sound interacts with listening as a mode of attention

The Art of Theatrical Sound Design Victoria Deiorio, 2018-09-20 Emphasising the artistry behind the decisions made by theatrical sound designers this guide is for anyone seeking to understand the nature of sound and how to apply it to the stage Through tried and tested advice and lessons in practical application The Art of Theatrical Sound Design allows developing artists to apply psychology physiology sociology anthropology and all aspects of sound phenomenology to theatrical sound design Structured in three parts the book explores theoretically how human beings perceive the vibration of sound offers exercises to develop support for storytelling by creating an emotional journey for the audience considers how to collaborate and communicate as a theatre artist and discusses how to create a cohesive sound design for the stage

Geographies of Rhythm Tim Edensor, 2016-04-15 In Rhythmanalysis Henri Lefebvre put forward his ideas on the relationship between time and space particularly how rhythms characterize space Here leading geographers advance and expand on Lefebvre's theories examining how they intersect with current theoretical and political concerns within the social sciences In terms of geography rhythmanalysis highlights tensions between repetition and innovation between the need for consistency and the need for disruption These tensions reveal the ways in which social time is managed to ensure a measure of stability through the instantiation of temporal norms whilst at the same time showing how this is often challenged In looking at the rhythms of geographies and drawing upon a wide range of geographical contexts this book explores the ordering of different rhythms according to four main themes rhythms of nature rhythms of everyday life rhythms of mobility and the official and routine rhythms which superimpose themselves on the multiple rhythms of the body

Sound / image Sarah Cardwell, Jonathan Bignell, Lucy Fife Donaldson, 2022-04-26 An exciting new strand in The Television Series the Moments in Television collections celebrate the power and artistry of television whilst interrogating key critical concepts in television scholarship

Each Moments book is organised around a provocative binary theme Sound image reassesses the synergy between televisual images and sounds and music as a key creative interaction warranting closer attention Through close scrutiny of visual and sonic elements the book s chosen programmes are persuasively illuminated in new ways The book explores an eclectic range of TV fictions dramatic and comedic Contributors from diverse perspectives come together to expand and enrich the kind of close analysis most commonly found in television aesthetics Sustained detailed programme analyses are sensitively framed within historical technological institutional cultural creative and art historical contexts

Sonic Interventions Sylvia Mieszkowski,Joy Smith,Marijke de Valck,2015-07-14 Sonic Interventions makes a compelling case for the importance of sound in theorizing literature subjectivity and culture Sound is usually understood as our second sense and as our belief in a visually dominated culture prevails remains of secondary interest Western cultures are considered to be predominantly visual while other societies are thought to place more importance on the acoustic dimension This volume questions these assumptions by examining how sound differs from and acts in relationship to the visual It moves beyond theoretical dichotomies between the visual and the sonic the oral and literature and instead investigates sonic interventions in their often multi faceted forms The case studies deal with political appropriations of music and sounds they explore the poetic use of the sonic in novels and plays they develop theoretical concepts out of sonic phenomena and pertain to identity formation and the practice of mixing in hip hop opera and dancehall sessions Ultimately the book brings to the fore what roles sound may play for the formation of gendered identity for the stabilization or questioning of race as a social category and the conception of place Their intricate interventions beckon critical attention and offer rich material for cultural analysis

Essays on Psychogeography and the City as Performance John C Green,2024-01-26 With 70% of the world s population expected to live in urban environments by 2050 cities are poised to become the most significant spaces to shape personal and communal identity As contemporary cities become event destinations a dialogue is emerging between the performing arts and the urban context and social fabric

Inspired by the principles of Psychogeography this collection of essays highlights the performative aspects of cities as landscapes of creative inspiration where curiosity imagination playfulness and the energy of the street combine with contemporary performance practices to create immersive public art experiences Written by an international cohort of scholar artists these essays offer arts practitioners urban specialists and general readers a practical guide to experiencing the cityscape as the Artscape

Sustaining Black Music and Culture during COVID-19 Niya Pickett Miller,2021-09-30
Sustaining Black Music and Culture during COVID 19 Verzuz and Club Quarantine argues that Instagram is a premier digital leisure space to celebrate and promote Black American culture and identity particularly evidenced during the early days of the COVID 19 pandemic as the United States grappled with mandated shelter in place orders Club Quarantine CQ and Verzuz emerged as highly successful Black music listening events streamed on Instagram Live collectively ushering Black techno culture through a once in a generation pandemic and beyond Contributors to this collection explore the communicative and cultural significance of these events as respite from social isolation and as a rearticulated space for Black cultural engagement in the midst of the COVID 19 pandemic and increased racial tensions in the United States

Categorizing Sound David Brackett,2016-07-19 Categorizing Sound addresses the relationship between categories of music and categories of people in other words how do particular ways of organizing sound become integral parts of whom we perceive ourselves to be and of how we feel connected to some people and disconnected from others After an introduction that discusses the key theoretical concepts to be deployed Categorizing Sound presents a series of case studies that range from foreign music race music and old time music in the 1920s up through country and rhythm and blues in the 1980s Each chapter focuses not so much on the musical contents of these genres as on the process of gentrification through which these categories are produced Provided by publisher

Indian Books in Print ,2003 From Jim Crow to Jay-Z Miles White,2011-11-01 This multilayered study of the representation of black masculinity in musical and cultural performance takes aim at the reduction of African American male culture to stereotypes of deviance misogyny and excess Broadening the significance of hip hop culture by linking it to other expressive forms within popular culture Miles White examines how these representations have both encouraged the demonization of young black males in the United States and abroad and contributed to the construction of their identities From Jim Crow to Jay Z traces black male representations to chattel slavery and American minstrelsy as early examples of fetishization and commodification of black male subjectivity Continuing with diverse discussions including black action films heavyweight prizefighting Elvis Presley s performance of blackness and white rappers such as Vanilla Ice and Eminem White establishes a sophisticated framework for interpreting and critiquing black masculinity in hip hop music and culture Arguing that black music has undeniably shaped American popular culture and that hip hop tropes have exerted a defining influence on young male aspirations and behavior White draws a critical link between the body musical sound and the construction of identity

this book an attempt is made to gauge the distance between aesthetics nurtured by tradition and aesthetics demanded by external and varying climates of emotional response It is hoped that the book would cater to the needs of the lovers of music performing artistes and aspirants endeavoring to climb the ladder Improvisation and Music Education Ajay Heble, Mark Laver, 2016-02-19 This book offers compelling new perspectives on the revolutionary potential of improvisation pedagogy Bringing together contributions from leading musicians scholars and teachers from around the world the volume articulates how improvisation can breathe new life into old curricula how it can help teachers and students to communicate more effectively how it can break down damaging ideological boundaries between classrooms and communities and how it can help students become more thoughtful engaged and activist global citizens In the last two decades a growing number of music educators music education researchers musicologists cultural theorists creative practitioners and ethnomusicologists have suggested that a greater emphasis on improvisation in music performance history and theory classes offers enormous potential for pedagogical enrichment This book will help educators realize that potential by exploring improvisation along a variety of trajectories Essays offer readers both theoretical explorations of improvisation and music education from a wide array of vantage points and practical explanations of how the theory can be implemented in real situations in communities and classrooms It will therefore be of interest to teachers and students in numerous modes of pedagogy and fields of study as well as students and faculty in the academic fields of music education jazz studies ethnomusicology musicology cultural studies and popular culture studies Situated Listening Stephanie Loveless, Tullis Rennie, Morten Søndergaard, Freya Zinovieff, 2025-06-04 Grounded in a conviction that how we listen matters deeply in the context of ongoing social political and ecological crises Situated Listening Attending to the Unheard sets forth a collection of methodologies and creative proposals for listening advancing the framework of situated listening as both a theoretical concept and a methodological practice that investigates relationships between the listening body and the politics of place space and culture Drawing from an array of scholarship that engages sound studies broadly this 15 chapter book is written entirely collaboratively and from a multidisciplinary perspective Each section includes scores for situated listening which take the form of diagrams instructions exercises images and meditations The scores offer alternate modes of sharing the central ideas of the associated chapters inviting the reader to shift from theory into practice This book contributes to decolonial feminist anti racist and anti capitalist scholarship in the field of sound studies by centering listening as a relational practice This book brings together a roster of accomplished international contributors making it essential supplementary reading for advanced undergraduates and researchers in sound studies It will be of interest to faculty and students in the fields of Sound Studies Music Feminist Science and Technology Studies Urban Design and Sound Art *Translation and Style in the Old Greek Psalter* Jennifer Brown Jones, 2021-11-15 While some describe the Greek Psalter as a slavish or interlinear translation with dreadfully poor poetry how would its original audience have described it Positioning the translation within the developing corpus of Jewish

Greek literature Jones analyzes the Psalter's style based on the textual models and literary strategies available to its translator She demonstrates that the translator both respects the integrity of his source and displays a sensitivity to his translation's performative aspects By adopting recognizable and acceptable Jewish Greek literary conventions the translator ultimately creates a text that can function independently and be read aloud or performed in the Jewish Greek community

The Routledge Companion to Global Film Music in the Early Sound Era Jeremy Barham, 2024-01-31 In a major expansion of the conversation on music and film history The Routledge Companion to Global Film Music in the Early Sound Era draws together a wide ranging collection of scholarship on music in global cinema during the transition from silent to sound films the late 1920s to the 1940s Moving beyond the traditional focus on Hollywood this Companion considers the vast range of cinema and music created in often overlooked regions throughout the rest of the world providing crucial global context to film music history An extensive editorial Introduction and 50 chapters from an array of international experts connect the music and sound of these films to regional and transnational issues culturally historically and aesthetically across five parts Western Europe and Scandinavia Central and Eastern Europe North Africa The Middle East Asia and Australasia Latin America Soviet Russia Filling a major gap in the literature The Routledge Companion to Global Film Music in the Early Sound Era offers an essential reference for scholars of music film studies and cultural history [The Sound of Vultures' Wings](#) Jeffrey W. Cupchik, 2024-02-01 The Sound of Vultures Wings offers the first in depth exploration of the music of the Tibetan Chöd tradition which is based on the liturgical song poems of the twelfth century Tibetan female ascetic Machik Labdrön 1055-1153 Chöd is a musical meditative Vajrayana method for cutting off the root of suffering namely egoic identification with the body or the belief that the I is the locus of the self Chöd is regarded by many Tibetan Lamas as one of the most effective Buddhist practices for spiritual and social transformation Jeffrey W Cupchik details the significance of the complex interwoven performative aspects of this meditative ritual and explains how its practice can bring about experiences of insight and inner transformation In doing so he undoes the notion of meditation as exclusively an experience of silence and stillness **What is Rhythmanalysis?** Dawn Lyon, 2018-11-15 This book is available as open access through the

Bloomsbury Open Access programme and is available on www.bloomsburycollections.com In recent years there has been growing interest in Henri Lefebvre's posthumously published volume Rhythmanalysis For Lefebvre and subsequent scholars rhythmanalysis is a research strategy which offers a means of thinking space and time together in the study of everyday life and this remains its strength and appeal What is Rhythmanalysis addresses the task of how to do rhythmanalysis It discusses the history and development of rhythmanalysis from Lefebvre to the present day in a range of fields including cultural history and studies of place work and nature For Lefebvre it is necessary to be grasped by a rhythm at a bodily level in order to grasp it And yet we also need critical distance to fully understand it Rhythmanalysis is therefore both corporeal and conceptual This book considers how the body is directly deployed as a research tool in rhythmanalytical research as well as

how audio visual methods can get at rhythm beyond the capacity of the senses to perceive it In particular the book includes detailed discussion of research on different forms of mobility from driving to dancing and on the social life of markets from finance to fish Dawn Lyon highlights the gains limitations and lively potential of rhythmanalysis for spatially temporally and sensually attuned practices of research This engaging text will be of interest to students and researchers in sociology criminology socio legal studies geography urban studies architecture anthropology economics and cultural studies *The Sound of Writing* Christopher Cannon, Steven Justice, 2023-11-14 This work provides an interdisciplinary and historical exploration of various techniques leveraging writing in order to capture sound Collectively the essays in this work focus on questions of language and expression as much as the method and theory of both sound and writing
