A Radical's Books Michael Cyril William Hunter,1999 The library owned by Samuel Jeake of Rye nonconformist and local activist was one of the most remarkable of its time It is of particular importance in that relatively little information has hitherto been available about the ownership of books in the English provinces or the reading habits of intellectuals who like Jeake were outside London and university circles from which most surviving libraries have come down to us The collection of some 1500 volumes includes an extraordinary assemblage of radical pamphlets from the English Revolution alongside works of theology literature scholarship and science Other books reflect astrological and magical interests and the collection also includes a medical library Jeake s library catalogue published here gives much information about titles that are now lost about the penetration of foreign books into provincial England and about book prices The introduction places Jeake s collection in context and makes a significant contribution to the history of the book in the early modern period appendices list surviving volumes from the library and give a complete list of the Jeake manuscripts now in Rye Museum MICHAEL HUNTER is Professor of History at Birkbeck College University of London GILES MANDELBROTE is a Curator British Collections 1501 1800 at the British Library RICHARD OVENDEN is Deputy Head Rare Books Division of the National Library of Scotland NIGEL SMITH is Reader in English at the University of Oxford

Crime, Broad­sides and Social Change, 1800-1850 Kate Bates,2020-02-18

This book explores the form function and meaning of crime and execution broadsides printed in nineteenth century Britain By presenting a detailed discourse analysis of 650 broadsides printed across Britain between the years 1800 1850 this book provides a unique and alternative interpretation as to their narratives of crime This criminological interpretation is based upon the social theories of Emile Durkheim who recognised the higher utility of crime and punishment as being one of social integration and the preservation of moral boundaries The central aim of this book is to show that broadsides relating to crime and punishment served as a form of moral communication for the masses and that they are examples of how the working class once attempted to bolster a sense of stability and community during the transitional years of the early nineteenth century by effectively representing both a consolidation and celebration of their core values and beliefs

Print Culture, Agency, and Regionality in the Hand Press Period Rachel Stenner, Kaley Kramer, Adam James Smith, 2022-04-06 Print Culture Agency and Regionality in the Hand Press Period illuminates the diverse ways that people in the British regional print trades exerted their agency through interventions in regional and national politics as well as their civic commercial and cultural contributions Works printed in regional communities were a crucial part of developing narratives of local industrial technological and ideological progression By moving away from understanding of print cultures outside of London as provincial however this book argues for a new understanding of region as part of a network of places emphasising opportunities for collaboration and creation that demonstrate the key role of regions within larger communities extending from the nation to the emerging sense of globality in this period Through investigations of the men and women of the print trades outside of London this collection casts new light on the strategies of self representation evident in the work of regional print cultures as well as their contributions to individual regional identities and national narratives

Medieval Texts in Context Graham D. Caie, Denis Renevey, 2008-04-01 This collection of essays by leading experts in manuscript studies sheds new light on ways to approach medieval texts in their manuscript context Each contribution provides groundbreaking insight into the field of medieval

textual culture demonstrating the various interconnections between medieval material and literary traditions The contributors work aids reconstruction of the period s writing practices as contextual factors surrounding the texts provide clues to the manuscript experience Topics such as scribal practice and textual providence glosses rubrics page lay out and even page ruling are addressed in a manner illustrative and suggestive of textual practice of the time while the volume further considers the interface between the manuscript and early textual communities Looking at medieval inventories of books no longer extant and addressing questions such as ownership reading practices and textual production Medieval Texts in Context addresses the fundamental interpretative issue of how scribe editors worked with an eye to their intended audience An understanding of the world inhabited by the scribal community is made use of to illuminate the rationale behind the manufacture of devotional texts The combination of approaches to the medieval vernacular manuscript presented in this volume is unique marking a major innovative contribution to manuscript studies

The Cambridge History of the Book in Britain: 1100-1400 Richard Gameson, Nigel J. Morgan, Lotte Hellinga, Rodney M. Thomson, Joseph Burney Trapp, John Barnard, David McKitterick, Maureen Bell, Michael F. Suarez, Michael L. Turner, Ian R. Willison, 1999 The history of the book offers a distinctive form of access to the ways in which human beings have sought to give meaning to their own and others lives Our knowledge of the past derives mainly from texts Landscape architecture sculpture painting and the decorative arts have their stories to tell and may themselves be construed as texts but oral tradition manuscripts printed books and those other forms of inscription and incision such as maps music and graphic images have a power to report even more directly on human experience and the events and thoughts which shaped it The seven volumes of the History of the Book in Britain will help explain how these texts were created why they took the forms they did their relations with other media and what influence they had on the minds and actions of those who heard read or viewed them Its range too in time place and the great diversity of the conditions of text production including reception challenges any attempt to define its limits and give an account adequate to its complexity It addresses whether by period country genre or technology widely disparate fields of enquiry each of which demands and attracts its own forms of scholarship The Cambridge History of the Book in Britain seeks to represent much of that variety The volumes investigate the creation material production dissemination and reception of texts effectively plotting the intellectual history of Britain Publisher description

Melion, 2023-12-28 Customised Books in Early Modern Europe and the Americas 1400 1700 examines the form function and meaning of alterations made by users to the physical structure of their book through insertion or interpolation subtraction or deletion adjustments in the ordering of folios or quires amendments of image or text Although our primary interest is in printed books and print series bound like books we also consider selected manuscripts since meaningful alterations made to incunabula and early printed books often followed the patterns such changes took in late fourteenth and fifteenth century codices Throughout Customised Books the

emphasis falls on the hermeneutic functions of the modifications made by makers and users to their manuscripts and books
