[Six Figures in School Hours](#) Kate Toon, 2023-06-27. Most parents don't want to build a global empire or make a gazillion dollars a year. They just want to earn a decent income and have time to read their kids a bedtime story without having a meltdown in the process. Yes, we know running a business can be rewarding. However, it can also seep into every life, crack, eat up your energy, and leave you exhausted, stressed, and snapping at your small humans. In *Six Figures in School Hours*, award-winning digital marketing coach and business mentor Kate Toon shares practical and doable tips for parents to run a successful business, make serious money, and not burn themselves to a frazzle in the process. First, you will examine your business goals and measure your progress, then discover passive income ideas and ways to involve the family in your business life in an enjoyable way, finally find out how to turn that six-figure profit dial up or down depending on the compromises you're willing to make. *Six Figures in School Hours* is a smart, honest business self-help book that gives you the skills, tools, and confidence to never again need to choose between a successful business and a happy family life.

[Flat Fee Freelancer](#) Stephen Poynter, 2020-10-19. It's time to take the free out of freelancing. However, many brilliant ideas, diligent hours of work, or good connections you have, it won't mean a thing if you aren't charging enough. How do I know? I'm Stephen Poynter, and I've worked a number of both corporate and entrepreneurial jobs, including in wealth management consulting, digital marketing, vacation rental management, and other pursuits ranging from even candy vending machines to audiobook narrating. And I've seen enough to know there are a lot of people with great potential that end up selling themselves short in the vibrant gig economy. That's what I'd like to help change. In this book, I'll show you why billing an hourly rate similar to what you would make as an employee is about as sure a path to extinction as there is, and why, in fact, you should probably charge at least 3 times more. Why hours don't even matter in the first place. How to convince both yourself and your clients of the true value of your labor. How to structure project fees that reflect your results rather than your time, and that help you stay alive and sane in the process. If you are going to be part of the freelance economy, I want you to do it well. The flexibility, autonomy, creative potential, and financial reward are there if you know how to do it right. Pick up your copy of this guide now to get the best tips I've learned on this journey. I trust it will help you not only survive but thrive as a freelancer.
