Slavery in the Twentieth Century Suzanne Miers, 2003 Miers has written extensively about the slave trade of days past Here she looks at the period from 1919 to 2000 during which she says the definition of slavery was stretched to cover so many practices that the term became almost meaningless many of those practices were generally condemned internationally and contemporary forms of slavery became more widespread and pernicious She highlights both the campaign against the abuses by non government organizations and the efforts by governments to avoid action and evade criticism

International Cooperation in the Early

Twentieth Century Daniel Gorman, 2017-09-21 The early 20th century world experienced a growth in international cooperation Yet the dominant historical view of the period has long been one of national military and social divisions rather than connections International Cooperation in the Early Twentieth Century revises this historical consensus by providing a more focused and detailed analysis of the many ways in which people interacted with each other across borders in the early decades of the 20th century It devotes particular attention to private and non governmental actors Daniel Gorman focuses on international cooperation international social movements various forms of cultural internationalism imperial and anti imperial internationalism and the growth of cosmopolitan ideas The book incorporates a non Western focus alongside the transatlantic core of early 20th century internationalism It interweaves analyses of international anti colonial networks ideas emanating from non Western sites of influence such as Japan China and Turkey the emergence of networks of international indigenous peoples in resistance to a state centric international system and diaspora and transnational ethno cultural religious identity networks

The Internationalisation of the 'Native Labour' Question in Portuguese Late Colonialism, 1945-1962 José Pedro Monteiro, 2022-11-22 This volume addresses the ways the native labour question in the Portuguese late colonial empire in Africa became a recurrent topic of international and transnational debate and regulation after the Second World War As other European colonial empires were tentatively transforming their labour and social policies in the aftermath of the war the Portuguese Empire in Africa resisted significant changes in this domain preserving a strict dual labour regime As a result a growing number of individuals networks and institutions abroad engaged with labour and social realities in Portuguese African colonies giving origin to a series of instances of denunciation of labour related abuses Portuguese authorities responded to these initiatives by selectively engaging with international norms languages and mechanisms However as global decolonisation gained momentum international and transnational events and processes would significantly constrain Portuguese imperial and colonial decision making procedures with the aim of retaining the empire Therefore the native labour question became in its own right a crucial political and diplomatic element of the broader struggles over the meaning of Portuguese imperial legitimacy As this volume argues these historical processes are critical to properly understanding the history of Portuguese late colonialism and its protracted trajectory of decolonisation
