**Calypso** Timothy Dodge,2019-03-15 Starting in 1945 and continuing for the next twenty years dozens of African American  
 rhythm and blues artists made records that incorporated West Indian calypso Some of these recordings were remakes or  
 adaptations of existing calypsos but many were original compositions Several such as Stone Cold Dead in de Market by Ella  
 Fitzgerald and Louis Jordan or If You Wanna Be Happy by Jimmy Soul became major hits in both the rhythm and blues and  
 pop music charts While most remained obscurities the fact that over 170 such recordings were made during this time period  
 suggests that there was sustained interest in calypso among rhythm and blues artists and record companies during this era  
 Rhythm and Blues Goes Calypso explores this phenomenon starting with a brief history of calypso music as it developed in its  
 land of origin Trinidad and Tobago the music s arrival in the United States a brief history of the development of rhythm and  
 blues and a detailed description and analysis of the adaptation of calypso by African American R B artists between 1945 and  
 1965 This book also makes musical and cultural connections between the West Indian immigrant community and the broader  
 African American community that produced this musical hybrid While the number of such recordings was small compared to  
 the total number of rhythm and blues recordings calypso was a persistent and sometimes major component of early rhythm  
 and blues for at least two decades and deserves recognition as part of the history of African American popular music

**Story, Story: From Smooth to Cool** Clement London, 2003-08-18 This book of stories is prepared as object lessons for middle level readers and young adults In times like these fraught with impediments that often cloud the ability to exercise genuine logical decisions young people need strong leadership guides that would facilitate their search for participating in their world Often the guile from persons who present themselves as paragons of virtue is packaged in not so obvious garb that encourages deception These three stories dramatize the fact that different guises may similarly deceive Therefore from the various story characters one may discern the influences wrought and how such may eventually affect the behaviors of others From the story about the Tortoise one may learn how intentions that may initially may appear honest or well intentioned may eventually turn sour because of subsequent abuse of power or the taking of the human spirit for granted In the story about Mr Gabilan and Papa Mongoose one should observe the dynamics of responsibility and of the extent to which that may lead The guile pursued should help the reader to note how one may unintentionally perform an act of doing something foolish Finally Donkey Strategy may demonstrate such crucial emotion as faith determination and hope as well as the effort to overcome difficulties through persistence and honest grounding which develops to one becoming cool

**Guyana Memories** Dr. Hanif Gulmahamad, 2011-12-19 This book contains 15 stories and 48 poems Four of the stories are works of fiction Some of the stories for example Life on a sugar plantation in colonial Guyana contain a lot of information of historical significance that has previously been unrecorded and could well be lost in the passage of time I was born in 1945 on Springlands Sugar Estate where we lived in a small cottage in the estate compound behind and west of the District Commissioners Office building The story about life on a British colonial sugar plantation is drawn from personal experience and it is told in the voice of someone who actually lived that life The story entitled Going to America represents today's reality of Guyanese who have left leaving or trying to leave Guyana The expatriate Guyanese community particularly in North America should certainly be able to relate to that experience Many of my compatriots were forced to undergo a second traumatic deracination for economic and political reasons lack of opportunity in the homeland no jobs no viable future and other reasons when they emigrated to Britain United States of America Canada the West Indies and other places The ancestors of Afro Guyanese were dragged out of Africa and brought to the New World as slaves The forefathers of Indo Guyanese were lured to British Guiana by deception and false promises and became bound coolies trapped in a form of indentured servitude that some regard as another form of slavery The second Guyanese uprooting and displacement though done largely voluntarily was no less disruptive frightening emotionally turbulent and difficult than the first one either from Africa or India Life for these people in a new land very often in hostile climatic conditions quite unlike the tropical conditions in the homeland was difficult harrowing stressful tumultuous psychologically traumatic and distressing for new emigrants The history of the Guyanese people is written in blood sweat tears suffering and misery The children of the new Guyanese

diaspora will subsequently have their own story to tell about life in an alien land It has been said that it is easy for the poor to escape from a poor nation but it is not so easy for them to escape poverty in a rich nation Emigrants particularly those of an older generation who are set in their ways often experience extreme difficulties acculturating and assimilating into a different society and adjusting to an alien way of life They are often relegated to a shadowy existence in the marginalized immigrant community standing on the periphery of an alien culture looking in and experiencing loneliness hopelessness helplessness and lacking a sense of belonging Refer to the poem in this book entitled Living in a place where you were not born for some insights on this issue Stories such as Hunting birds with slingshots in Guyana Making and flying kites in Guyana Catching mullet at No 73 waterside Notorious fowl thieves of the village and When you really know it was Christmas time can elicit strong nostalgia and sentimental memories of youthful experiences so pleasurable and engrossing that it could cause you to yearn for a past life that was simple care free full of wonderful remembrances and recollections When I think of the wonderful life I once lived at Clonbrook I am a young lad all over again and I am happy Those who lived that life and had fond memories of it should certainly share these stories with their children and grandchildren Make these stories more real and fascinating by adding your own memories and experiences as you read them to your descendants After all everybody has a story to tell There are forty eight poems in this compilation that are sure to evoke emotions and nostalgia Many deal with subject matters pertaining to the Corentyne The reason for that is simple I was born and raised in the Upper Corentyne and I hold lots of treasured an

**Dark Laboratory** Tao Leigh Goffe, 2025-01-21 A groundbreaking investigation of the Caribbean as both an idyll in the American imagination and a dark laboratory of Western experimentation revealing secrets to racial and environmental progress that impact how we live today Dark Laboratory is a gargantuan soulful work It obliterates most of what I thought I knew about the Caribbean s utility to Western Wealth Kiese Laymon New York Times bestselling author of Heavy In 1492 Christopher Columbus arrived on the Caribbean Island of Guanahan to find an Edenic scene that was soon mythologized But behind the myth of paradise the Caribbean and its people would come to pay the price of relentless Western exploitation and abuse In Dark Laboratory Dr Tao Leigh Goffe embarks on a historical journey to chart the forces that have shaped these islands the legacy of slavery indentured labor and the forced toil of Chinese and enslaved Black people who mined the islands bounty including guano which at the time was more valuable than gold for the benefit of European powers and at the expense of the islands sacred ecologies Braiding together family history cultural reportage and social studies Goffe radically transforms how we conceive of Blackness the natural world colonialism and the climate crisis and in doing so she deftly dismantles the many layers of entrenched imperialist thinking that shroud our established understanding of the human and environmental conditions to reveal the cause and effect of a global catastrophe Dark Laboratory forces a reckoning with the received forms of knowledge that have led us astray Through the lens of the Caribbean both guide and warning of the man made disasters that continue to plague our world Goffe closely situates the

origins of racism and climate catastrophe within a colonial context And in redressing these twin apocalypses Dark Laboratory becomes a record of the violence that continues to shape the Caribbean today But it is also a declaration of hope offering solutions toward a better future based on knowledge gleaned from island ecosystems and an impassioned urgent testament to the human capacity for change and renewal *A View From Mount Diablo* Ralph Thompson, John Lennard, 2009-01-01 In *View from Mount Diablo* Class and racial privilege and the resentments they provoke underscore both turmoil in wider society and the relationships at the heart of the narrative between Adam Cole a dreamy white boy driven by personal tragedy to crusading journalism squint eyed Nellie Simpson once a servant then a political enforcer and stuttering Nathan gardener and groom turned cocaine baron Beyond this trio is a dazzling array of real and fictitious characters The annotated edition by John Lennard Professor of British and American Literature at UWI Mona in Kingston allows the full scope of the verse novel to emerge for readers unfamiliar with Jamaican history since the 1930s *Working Juju* Andrea Shaw Nevins, 2019 *Working Juju* examines how fantastical and unreal modes are deployed in portrayals of the Caribbean in popular and literary culture as well as in the visual arts The Caribbean has historically been constructed as a region mantled by the fantastic Andrea Shaw Nevins analyzes such imaginings of the Caribbean and interrogates the freighting of Caribbean infused spaces with characteristics that register as fantastical These fantastical traits may be described as magical supernatural uncanny paranormal mystical and speculative The book asks throughout What are the discursive threads that run through texts featuring the Caribbean fantastic In *Working Juju* Nevins teases out the multilayered and often obscured connections among texts such as the *Pirates of the Caribbean* film series planter and historian Edward Long's *History of Jamaica* and Grenadian sci fi writer Tobias Buckell's *Xenowealth* series set in the future Caribbean Fantastical representations of the region generally occupy one of two spaces In the first the Caribbean fantastic facilitates an imagining of the colonial experience and its aftermath as one in which the region and its representatives exercise agency and in which the humanity of the region's inhabitants is asserted Alternately the fantastic is sometimes situated as a signifier of the irrational and uncivilized The thread that unites portrayals of the fantastic Caribbean in the latter kind of works is that they tend to locate Caribbean belief systems as powerful even at times inadvertently in contradiction to the text's ideological posture Nevins shows how the singular Caribbean identity that emerges in these text is at odds with the complex historical narratives of actual Caribbean countries and colonies **Merchant Vessels of the United States**, 1977 *Merchant Vessels of the United States...* United States. Coast Guard, 1977 *Science Fiction, New Space Opera, and Neoliberal Globalism* Jerome Winter, 2016-11-15 One of the few points critics and readers can agree upon when discussing the fiction popularly known as New Space Opera a recent subgenre movement of science fiction is its canny engagement with contemporary cultural politics in the age of globalisation This book avers that the complex political allegories of New Space Opera respond to the recent cultural phenomenon known as neoliberalism which entails the championing of the deregulation and privatisation of social services

and programmes in the service of global free market expansion Providing close readings of the evolving New Space Opera canon and cultural histories and theoretical contexts of neoliberalism as a regnant ideology of our times this book conceptualises a means to appreciate this thriving movement of popular literature
