Smart Pre Int Wb Intl:

Proceedings of 4th International Conference on Artificial Intelligence and Smart Energy S. Manoharan,Alexandru Tugui,Zubair Baig,2024-06-07 This book presents a comprehensive collection of research chapters focusing on innovative solutions to energy and sustainability challenges It reflects the collaborative efforts of researchers worldwide showcasing novel approaches to complex problems Topics discussed range from securing cyber physical systems to revolutionizing healthcare with AI and robotics emphasizing sustainable research The book emphasizes smart and sustainable energy solutions highlighting advancements in solar panel efficiency fault analysis and fuzzy controlled converters for grid tied photovoltaic systems Additionally it explores AI s transformative potential in water solutions agriculture and renewable energy technologies across domains like smart cities transportation and healthcare The insights shared aim to inspire further research foster discussions and drive real world impact toward a resilient inclusive and sustainable future Discusses issues and offers sustainable solutions to meet the challenges faced by today s economy and industry Presents recent research in the sustainable transformation of engineering and technological systems Serves as a valuable resource for both academic researchers and industry practitioners interested in Artificial Intelligence AI and smart energy sectors **First European Conference on Smart Structures and Materials, Proceedings of the INT Conference held in Glasgow, 12-14 May 1992** B. Culshaw,Peter T. Gardiner,A. McDonach,European Optical Society,Society of Photo-optical Instrumentation Engineers,Institute of Physics (Great Britain),1992-01-01 First European Conference on Smart Structures and Materials provides a detailed review of developments and applications in the exciting area of smart structures and materials Topics covered include polymer chemistry materials research advanced sensor technology signal processing and innovative approaches to control and actuation These invited contributed and poster papers are written by many of the leading international researchers in this rapidly developing area This book will be invaluable reading for researchers in all aspects of smart materials and structures a subject encompassing aerospace technology civil and mechanical engineering biomedicine and component manufacture **Smart City and Informatization** Guojun Wang,Abdulmotaleb El Saddik,Xuejia Lai,Gregorio Martinez Perez,Kim-Kwang Raymond Choo,2019-11-05 This book constitutes the refereed proceedings of the 7th International Conference on Smart City and Informatization iSCI 2019 held in Guangzhou China in November 2019 The volume presents 52 full papers which were carefully reviewed and selected from 139 submissions The papers are organized in topical sections on Internet of Things IoT and smart sensing urban computing and big data smart society informatization technologies cloud edge fog computing for smart city applications for smart city informatization assistive engineering and information technology cyberspace security blockchain and applications International Index to Periodicals ,1929
Intelligent Sustainable Systems Atulya K. Nagar,Dharm Singh Jat,Gabriela Marín-Raventós,Durgesh Kumar Mishra,2022-01-03 This book provides insights of World Conference on Smart Trends in Systems Security and Sustainability

WS4 2021 which is divided into different sections such as Smart IT Infrastructure for Sustainable Society Smart Management prospective for Sustainable Society Smart Secure Systems for Next Generation Technologies Smart Trends for Computational Graphics and Image Modeling and Smart Trends for Biomedical and Health Informatics The proceedings is presented in two volumes The book is helpful for active researchers and practitioners in the field *5th European Conference of the International Federation for Medical and Biological Engineering 14 - 18 September 2011, Budapest, Hungary* Ákos Jobbágy, 2012-02-02 This volume presents the 5th European Conference of the International Federation for Medical and Biological Engineering EMBEC held in Budapest 14 18 September 2011 The scientific discussion on the conference and in this conference proceedings include the following issues Signal Image Processing ICT Clinical Engineering and Applications Biomechanics and Fluid Biomechanics Biomaterials and Tissue Repair Innovations and Nanotechnology Modeling and Simulation Education and Professional **International Index to Periodicals**, 1952 An author and subject index to publications in fields of anthropology archaeology and classical studies economics folklore geography history language and literature music philosophy political science religion and theology sociology and theatre arts **Artificial Intelligence and Heuristics for Smart Energy Efficiency in Smart Cities** Mustapha Hatti, 2021-11-24 This book emphasizes the role of micro grid systems and connected networks for the strategic storage of energy through the use of information and communication techniques big data the cloud and meta heuristics to support the greed for artificial intelligence techniques in data and the implementation of global strategies to meet the challenges of the city in the broad sense The intelligent management of renewable energy in the context of the energy transition requires the use of techniques and tools based on artificial intelligence AI to overcome the challenges of the intermittence of resources and the cost of energy The advent of the smart city makes an increased call for the integration of artificial intelligence and heuristics to meet the challenge of the increasing migration of populations to the city in order to ensure food energy and environmental security of the citizen of the city and his well being This book is intended for policymakers academics practitioners and students Several real cases are exposed throughout the book to illustrate the concepts and methods of the networks and systems presented This book proposes the development of new technological innovations mainly ICT the concept of Smart City appears as a means of achieving more efficient and sustainable cities The overall goal of the book is to develop a comprehensive framework to help public and private stakeholders make informed decisions on smart city investment strategies and develop skills for assessment and prioritization including resolution of difficulties with deployment and reproducibility International Business: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources, 2016-03-17 Business transactions and partnerships across borders have become easier than ever due to globalization and global digital connectivity As part of this shift in the business sphere managers executives and strategists across industries must acclimate themselves with the challenges and opportunities for conducting business globally

Smart Nanomaterials in Biomedical Applications Jin-Chul Kim, Madhusudhan Alle, Azamal Husen, 2022-01-19 With the start of 2020 the wrath of pandemic challenged the scientific community to develop more advanced drug delivery approaches for biomedical applications endowing conventional drugs with additional therapeutic benefits and minimum side effects Although significant advancements have been done in the field of drug delivery there is a need to focus towards strategizing novel and improved drug delivery systems that should be convenient and cost effective to the patients and simultaneously they should also provide financial benefits to pharmaceutical companies Controlled drug delivery technology offers ample opportunities and scope for improvising the therapeutic efficacy of drugs via optimizing the drug release rate and time For this endeavour smart nanomaterials have served as remarkable candidates for biomedical applications owing to their ground breaking properties and design The development of such nanomaterials requires a broad knowledge related to their physio chemical properties molecular structure mechanisms by which the nanomaterials interact with the cells and methods by which drugs are released at the site of action This knowledge must also be allied with the knowledge of signaling crosstalk mechanisms that are modulated by the nanomaterial drugs composite It can be anticipated that these emerging drug delivery technologies can facilitate the world to successfully encounter such pandemic outbursts in the future in a cost effective and time effective manner The chapters in this book deal with the advanced technologies and approaches that can benefit advanced students researchers and industry experts in developing smart and intelligent nanomaterials for future biomedical applications and development manufacturing and commercialization for controlled and targeted drug delivery
