that you re laughing so poorly When you take self portraits do you always laugh unnaturally in the photo So don t you like to
share your smiles or photos with everyone There are many muscles in the face as there are in the body The activity of
speaking and smiling makes use of only a small fraction of the muscles in the face not more than about 30 percent The
muscles that are not in use begin to wane and fade away especially as one begins to age The truth of the matter is that a
good smile makes one look years younger than his or her age because there is more use made of the muscles and for a longer
period of time This increases blood flow around the parts that make up the face to keep that part healthy and youthful
However there are special techniques that can be used both to get the facial expression that is required and to improve smile
quality The training makes the muscles flexible and not rigid to make the smile natural and less of plastic Some of these
techniques are as follows to increasing smile quality **A Smiling Face** Eleanor Frances Lattimore,1973 **The Secrets**
