Soviet Paradox External Expansion And Internal Decline:

The Soviet Paradox Seweryn Bialer, 1986 The Capitalist Transformation of State Socialism David Lane, 2013-11-20

David Lane outlines succinctly yet comprehensively the development and transformation of state socialism. While focussing on Russia and the countries of Eastern Europe, he also engages in a discussion of the Chinese path. In response to the changing social structure and external demands, he outlines different scenarios of reform. He contends that European state socialism did not collapse but was consciously dismantled. He brings out the West's decisive support of the reform process and Gorbachev's significant role in tipping the balance of political forces in favour of an emergent ascendant class. In the post-socialist period, he details developments in the economy and politics. He distinguishes different political and economic trajectories of countries of the former USSR, the New Member States of the European Union, and China, and he notes the attempts to promote further change through coloured revolutions. The book provides a detailed account not only of the unequal impact of transformation on social inequality, which has given rise to a privileged business and political class, but also how far the changes have fulfilled the promise of democracy, promotion of wealth creation, and human development. Finally, in the context of globalisation, the author considers possible future political and economic developments for Russia and China. Throughout, the author, a leading expert in the field, brings to bear his deep knowledge of socialist countries, draws on his research on the former Soviet Union, and visits to nearly all the former state socialist countries, including China.

1991-92 NA, 2016-12-29. The classic reference work that provides annually updated information on the countries of the world. *Ideologies in Conflict* Chris S. Adams, Jr., 2001-07. The author characterizes this book as a docu-story. As such, it is an exceptionally well-researched and skillfully written chronology of the history of Russia, the Soviet Union, and the Cold War. The work is unusual and unique. It is unusual because, unlike most books of an historical nature, it is free-flowing and not tightly structured. It is unique because it is written with considerable input from the author's personal experiences, interwoven with perceptions and anecdotal observations. The work is assertive: I have no doubt that there was Cold War. I fought in it. The Author: Candid. Stalin is an unconscionable dictator, but I liked the little son of a bitch. Truman: Provocative. Truman is worthless. Stalin and Challenging: Why not set a goal just between the two of us? Let's find a practical way to solve our critical issues. Reagan and we can set a specific agenda for how to straighten out Soviet-American relations. Gorbachev: Finally, it is Cautionary. The world has become in many respects a safer place. Unfortunately, it is also still a dangerous place, fraught with uncertainty. Commander in Chief: US Strategic Command and The missile force is in the same state of readiness as ten years ago. My men and my missiles are always ready. General of the Army: Igor Sergeev. Republic of Russia.
