Pullan, B. Baillie, 2013-07-29 Cities have emerged as the epicentres for many of today's ethno national and religious conflicts This book brings together key themes that dominate our current attention including emerging areas of contestation in rapidly changing and modernising cities and the effects of extreme and/or enduring conflicts upon ordinary civilian life **Immigrant Adaptation in Multi-Ethnic Societies** Eric Fong, Lan-Hung Nora Chiang, Nancy Denton, 2013-03-05 As a result of international immigration ethnic diversity has increased rapidly in many countries not only in major cities but also in smaller cities This trend is not limited to the traditional immigrant receiving countries such as the United States and Canada but occurs also in many other countries where doors are gradually opening to immigration especially in Asia This combination of a growing immigrant population and ethnic diversity has fostered a more complex immigrant integration process This book addresses the subject at the city ecological level inter group level and individual level It contributes to the understanding of immigrant adaptation in a multi ethnic context brings Asian perspectives into the discussion of immigration and race and ethnic relations and will serve as a basis for future study of immigrant adaptation in a multi ethnic context **A Postcolonial People** Nasreen Ali, Salman Sayyid, 2006 This is a critical survey of contemporary South Asian Britain The book combines analysis with empirically rich studies to map out the diversity of the British Asian way of life The contributors provide insights information on the Asian British experience in its socio economic cultural dimensions *The Arab Public Sphere in Israel* Amal Jamal, 2009-10-16 In this pathbreaking study Amal Jamal analyzes the consumption of media by Arab citizens of Israel as a type of communicative behavior and a form of political action Drawing on extensive public opinion survey data he describes perceptions and use of media ranging from Arabic Israeli newspapers to satellite television broadcasts from throughout the Middle East By

participating in this semi autonomous Arab public sphere the average Arab citizen can connect with a wider Arab world beyond the boundaries of the Israeli state Jamal shows how media aid the community s ability to resist the state s domination protect its Palestinian national identity and promote its civic status **Under Construction** Freek Colombijn,2013-11-29

Freek Colombijn examines the social changes in Indonesian cities during the process of decolonization That process had major repercussions for urban society These social changes are studied from the angle of urban space in general and the provision of housing in particular This provides fresh insight into how people experienced decolonization The author challenges the idea that a shift from ethnic to class differences was the overriding social change during decolonization He argues instead that class differences had already formed the predominant dividing lines in colonial urban society Colombijn also focuses on the shifting balance of power between the main agents in the urban arena Through the use of hitherto unused historical sources the book presents a wealth of new data about the Indonesian city and the decolonization process Published in cooperation with the Netherlands Institute of War Documentation NIOD Originally published with imprint KITLV ISBN 9789067182911 **Trespassers?** Willow S Lung-Amam,2017-05-16 Beyond the gilded gates of Google little has been

written about the suburban communities of Silicon Valley Over the past several decades the region s booming tech economy spurred rapid population growth increased racial diversity and prompted an influx of immigration especially among highly skilled and educated migrants from China Taiwan and India At the same time the response to these newcomers among long time neighbors and city officials revealed complex attitudes in even the most well heeled and diverse communities Trespassers takes an intimate look at the everyday life and politics inside Silicon Valley against a backdrop of these dramatic demographic shifts At the broadest level it raises questions about the rights of diverse populations to their own piece of the suburban American Dream It follows one community over several decades as it transforms from a sleepy rural town to a global gateway and one of the nation s largest Asian American majority cities There it highlights the passionate efforts of Asian Americans to make Silicon Valley their home by investing in local schools neighborhoods and shopping centers It also provides a textured tale of the tensions that emerge over this suburb s changing environment With vivid storytelling Trespassers uncovers suburbia as an increasingly important place for immigrants and minorities to register their claims for equality and inclusion *The Global Silicon Valley Home* Shenglin Chang,2006 The Global Silicon Valley Home takes a close look at how residents Taiwanese American high tech engineer families of the jet set wired to the Net trans Pacific commuter culture have invented new ways of thinking about how their homes and landscapes reflect their personal identities ways that enable them to make sense of living life within two places at once
