Studies In The Russian Historical Song:

Studies in the Russian Historical Song Carl Stief, 1981 Russian Folk Lyrics Roberta Reeder, 1993-02-22 Propp's essay in *Russian Folk Lyrics* extends beyond the formalistic analysis of folklore outlined in his classic *The Morphology of the Folktale*. In this study newly translated by Roberta Reeder Propp considers the Russian folk lyric in the social and historical context in which it was produced. Reeder supplements Propp's theoretical presentation with a comprehensive anthology of examples. Some songs were imitated by or appear in the works of Russia's major writers such as Pushkin and Nekrasov. Here we find the customs of Russian peasant life expressed through the ritual of song. Whether the songs are about love, labor, or children's games, whether they are sad, humorous, or satiric in tone, Russian folk lyrics are rich in metaphor and symbolic meaning. In addition to the editor's notes to the text and songs, Reeder supplies a bibliography of Propp's sources as well as an extensive selected bibliography.

The Image of Ivan the Terrible in Russian Folklore Maureen Perrie, 2002-04-11 A study of Ivan the Terrible's depiction in Russian folklore and the controversies surrounding it.

The Singer and the Scribe Philip E. Bennett, Richard Firth Green, 2004 *The Singer and the Scribe* brings together studies of the European ballad from the Middle Ages to the twentieth century by major authorities in the field and is of interest to students of European literature, popular traditions, and folksong. It offers an original view of the development of the ballad by focusing on the interplay and interdependence of written and oral transmission, including studies of modern singers and their repertoires and of the role of the audience in generating a literary product which continues to live in performance. While using specific case studies, the contributors systematically extend their reflections on the ballad as song and as poetry to draw broader conclusions. Covering the Hispanic world, including the Sephardic tradition, Scandinavia, The Netherlands, Greece, Russia, England, and Scotland, the essays also demonstrate the interconnections of a European tradition beyond national boundaries.

The Cambridge History of Russian Literature Charles Moser, 1992-04-30 An updated edition of this comprehensive narrative history, first published in 1989, incorporating a new chapter on the latest developments in Russian literature and additional bibliographical information. The individual chapters are by well-known specialists and provide chronological coverage from the medieval period, giving particular attention to the nineteenth and twentieth centuries, and including extensive discussion of works written outside the Soviet Union. The book is accessible to students and non-specialists as well as to scholars of literature and provides a wealth of information.

Readings in Russian Civilization Volume I Thomas Riha, 2009-02-15 This new and enlarged version of *Readings in Russian Civilization* is the result of fairly extensive revisions. There are now 72 instead of 64 items; 20 of the selections are new. The first volume has undergone the least change, with 3 new items, of which 2 appear in English for the first time. In the second volume, there are 6 new items, all of them appearing in English for the first time. The third volume has undergone the greatest revision, with 11 new items, of which 6 are newly translated from the Russian. It is the editor's hope that items left out in the new edition will not be sorely missed and that the

new selections will turn out to be useful and illuminating The aim throughout has been to cover areas of knowledge and periods which had been neglected in the first edition and to include topics which are important in the study of the Russian past and present The bibliographical headnotes have been enlarged with the result that there are now approximately twice as many entries as in the old edition New citations include not only works which have appeared since 1963 but also older books and articles which have come to the editor's attention From the Editor's Preface a judicious combination of seminal works and more recent commentaries that achieves the editor's purpose of stimulating curiosity and developing a point of view C Bickford O'Brien The Russian Review These three volumes cover quite well the main periods of Russian civilization The choice of the articles and other material is made by a competent and unbiased scholar Ivan A Lopatin Professor of Asian and Slavic Studies University of Southern California
