Skills Of Argument:

The Skills of Argument Deanna Kuhn, 1991-07-26 The Skills of Argument presents a comprehensive empirical study of informal reasoning as argument involving subjects across the life span Subjects ranging in age from adolescence to late adulthood were asked to describe their views on social problems that people have occasion to think and talk about in everyday life such as crime and unemployment In addition to providing supporting evidence for their theories subjects were asked to contemplate alternative theories and counterarguments and to evaluate new evidence on the topics This is the first major study of informal reasoning across the life span Highlighting the importance of argumentative reasoning in everyday thought the book offers a theoretical framework for conceptualizing and studying thinking as argument The findings address issues of major importance to cognitive and developmental psychologists as well as educators concerned with improving the quality of people's thinking The work is also relevant to philosophers political scientists and linguists interested in informal reasoning and argumentative discourse

Educational Technologies for Teaching Argumentation Skills Niels Pinkwart, Bruce M. McLaren, 2012 Considerable efforts have been made in developing and assessing educational technology to support and teach argumentation These efforts have culminated in the form of techniques which include Intelligent Tutoring Systems and Computer Supported Collaborative Learning Many of these techniques have been shown to be effective for specific argumentation domains At the same time the general design problem of how to support a learner's acquisition of argumentation skills through computer aided tools has not yet been perfected This e book presents a collection of current approaches in educational technologies for argumentation Technological approaches underlying successful argumentation systems are presented along with their relation to the success of these tools
