Congress. House. Committee on International Relations. Subcommittee on International Terrorism, Nonproliferation, and Human Rights, 2004 Arabs and Muslims in the Media Evelyn Alsultany, 2012-08-20 After 9/11 there was an increase in both the incidence of hate crimes and government policies that targeted Arabs and Muslims and the proliferation of sympathetic portrayals of Arabs and Muslims in the U.S. media Arabs and Muslims in the Media examines this paradox and investigates the increase of sympathetic images of the enemy during the War on Terror Evelyn Alsultany explains that a new standard in racial and cultural representations emerged out of the multicultural movement of the 1990s that involves balancing a negative representation with a positive one what she refers to as simplified complex representations This has meant that if the storyline of a TV drama or film represents an Arab or Muslim as a terrorist then the storyline also includes a positive representation of an Arab Muslim Arab American or Muslim American to offset the potential stereotype Analyzing how TV dramas such as West Wing The Practice 24 Threat Matrix The Agency Navy NCIS and Sleeper Cell news reporting and non profit advertising have represented Arabs Muslims Arab Americans and Muslim Americans during the War on Terror this book demonstrates how more diverse representations do not in themselves solve the problem of racial stereotyping and how even seemingly positive images can produce meanings that can justify exclusion and inequality *Jihadism, Online Discourses and Representations* Rüdiger Lohlker, 2013 Jihadi online media try to mobilize recruit and disseminate the

Strategic Intelligence-Community Security Partnerships

Maiwa'azi Dandaura-Samu, 2017-10-24 This book examines the need to bridge strategic intelligence and community collaboration It explores intelligence collection analysis and operations as they relate to conflicts that can be solved through community collaboration Its argument sits at the nexus of intelligence collection operations and academic research supporting the use of analytical frameworks process theories critical thinking and pragmatic approaches in intelligence data analysis to provide a seamless end product for effective decision making by policy makers business and military strategists The book insists that public opinion matters in the sense that leaders must shape it using collected intelligence and not wait for things to just happen For any intelligence community collaboration to succeed intelligence agencies must succeed in framing and setting public opinion The book also sheds light on competitive intelligence arguing that turbulent times and

threatening environments necessitate that corporate organizations engage in competitive intelligence the same way security organizations and agencies constantly shift and change paradigms They must be innovative create new labor practices and use self motivating management approaches and dynamic imaginative models to invent new strategic intelligence tactics and resolutions for optimal performance and productivity ,
