Ethnicity and the Dementias Gwen Yeo, Dolores Gallagher-Thompson, 2013-05-13 In recent years the literature on the topic of ethnic and racial issues in

Alzheimer's disease and other dementias has increased dramatically. At the same time the need for cultural competence in all of geriatric care including dementia care is increasingly being acknowledged. Researchers and providers are beginning to recognize the impending ethnogeriatric imperative as the number of elders from diverse ethnic and cultural backgrounds continues to rise. Ethnicity and the Dementias offers invaluable background information in this area while also examining how those suffering from dementia and their family members respond or adapt to the challenges that follow. Thoroughly updated and revised from the first edition the book features contributions from leading clinicians and researchers on the epidemiology of dementias by ethnic population, new information on the assessment of diverse populations and updates and inclusions of new populations in the management of dementia and working with families. The book is ideal for practitioners, researchers and policy makers in search of the most current ethnogeriatric findings. Unfinished Business Nandini

Vijayaraghavan, 2023-01-23 Unfinished Business is a chronicle of contemporary Indian corporate history narrated through the professional trajectories of four high profile businessmen: Anil Ambani, Naresh Goyal, V G Siddhartha and Vijay Mallya. By no means unique in their proclivity for debt and penchant for politics, these four men belonged to a rarefied club of entrepreneurs who could raise a sizeable quantum of financing with ease despite their businesses not generating adequate cash flows and/or possessing sufficient collateral. So what competitive advantages did this guild of Indian entrepreneurs have? What caused their enterprises to struggle while other similar organizations whose CEOs shared these attributes survived and even flourished? How did the Indian business ecosystem, regulatory norms, lenders, underwriting practices and investor due diligence influence the organizations helmed by this quartet? Following these four entrepreneurs' careers and professional decisions, Unfinished Business throws light on the evolution of Indian capitalism during the first two decades of the twenty-first century set against the backdrop of a dynamic political, regulatory and business climate in India. And with great insight, clarity and analysis, Nandini Vijayaraghavan explores the takeaways for entrepreneurs, regulators, lenders and investors in this compelling, illuminating read.
