**Small Groups and Social Interaction** Herbert H. Blumberg,1983 **Social Interaction Systems** Robert Bales,2017-09-08 Social Interaction Systems is the culmination of a half century of work in the field of social psychology by Robert Freed Bales a pioneer at the Department of Social Relations at Harvard University Led by Talcott Parsons Gordon W Allport Henry A Murray and Clyde M Kluckhohn the Harvard Project was intended to establish an integrative framework for social psychology one based on the interaction process augmented by value content analysis Bales sees this approach as a personal involvement that goes far beyond the classical experimental approach to the study of groups Bales developed SYMLOG which stands for systematic multiple level observation of groups The SYMLOG Consulting Group approach was worldwide as well as interactive It created a data bank that made possible a search for general laws of human interaction far beyond anything thus far known In his daringsearch for universal features Bales redefines the fundamental boundaries of the field and in so doing establishes criteria for the behavior and values of leaders and followers Bales offers a new field theory an appreciation of the multiple contexts in which people live Bales does not aim to eradicate differences but to understand them In this sense the values inherent in any interaction situation permit the psychologist to appreciate the sources of polarization as they actually exist between conservative and liberal individualistic and authoritarian libertarian and communitarian Bales repeatedly emphasizes that the mental processes of individuals and their social interactions take place in systematic contexts which can be measured Hence they permit explanation and prediction of behavior in a more exact way than in past traditions Bales has offered a pioneering work that has the potential to move us into a new theoretical epoch no less than a new century His work holds out the promise of synthesis and support for psychologists sociologists and all who work with groups and organizations of all kinds

[Encyclopedia of Social Work](#) ,1965 **Social Interaction** Muzafer Sherif,2017-07-05 Reflecting the many contributions of Muzafer Sherif to social psychology during the past thirty years this volume presents selections from among Sherif s most widely known essays and provides a systematic overview of his evolving interests concepts methods and research findings Twenty five essays are divided into five sections according to content the theoretical and methodological problems at the heart of Sherif s work the experimental model for interaction

process and products problems of self and reference groups concepts attitudes and ego involvements and contributions to problems of in group and intergroup relations through experimental and field research Though the selections range over a broad spectrum each is characterized by the precise and incisive work techniques Sherif devised as well as by its intrinsic relevance to significant issues Sherif writes to clarify theory to define conceptual tools and to use tools and theory to demonstrate the substantive results of his researches Each research finding is added to its predecessors as the author advances to his goal of a social psychology that is consistent as it moves from the most basic psychological processes to the complexities of individual involvement in collective activity
