Soviet Perceptions Of The Us Congress:

Soviet Perceptions Of The U.S. Congress Robert T Huber,2019-06-04 The study of Soviet attitudes towards the role of Congress in U S foreign policy concerns an area of Soviet foreign policy considerations that has received little attention by Western scholars and that offers valuable new insights for the study of Soviet foreign policy and U S Soviet relations As such this initial treading onto empirical virgin lands has required the thoughtful meticulous and in many instances indispensable guidance and support of a number of individuals

Soviet Perceptions Of The Oil Factor In U.s. Foreign Policy Herbert L. Sawyer,2019-06-21 America s energy position and that of the West in general is vulnerable The major source of that vulnerability is the potential that oil supplies from the Gulf1 could be interrupted for an extended period The fact that during the first quarter of 1983 U S crude oil imports dropped to 2 8 million barrels a day mbd from 4 mbd during the same quarter in 19822 a very substantial decrease of thirty percent from what was already a relatively low level is less comforting than it appears In spite of this decrease in demand U S reserve stocks could be eliminated by an increased demand for oil stemming from a vigorous economic recovery in the the West If in the context of such a recovery the members of the Organization of Petroleum Exporting Countries OPEC could overcome their current disagreements and introduce some discipline regarding production levels they might be able to reestablish a tight supply situation in the world oil market Moreover even if such developments do not take place there is always the chance of a major upheaval in the Middle East Gulf region given the volatility of the area that could be disruptive enough to cause a substantial reduction in oil supplies In this context it must be recognized that America s energy vulnerability is inseparable from that of the West in general because of the fungability of oil

Unarmed Forces Matthew Evangelista,2018-08-06 Throughout the Cold War people worldwide feared that the U S and Soviet governments could not prevent a nuclear showdown Citizens from both East bloc and Western countries among them prominent scientists and physicians formed networks to promote ideas and policies that would lessen this danger Two of their organizations the Pugwash movement and the International Physicians for the Prevention of Nuclear War won Nobel Peace Prizes Still many observers believe that their influence was negligible and that the Reagan administration deserves sole credit for ending the Cold War The first book to explore the

impact these activists had on the Soviet side of the Iron Curtain Unarmed Forces demonstrates the importance of their efforts on behalf of arms control and disarmament Matthew Evangelista examines the work of transnational peace movements throughout the Khrushchev Brezhnev and Gorbachev eras and into the first years of Boris Yeltsin's leadership Drawing on extensive research in Russian archives and on interviews with Russian and Western activists and policymakers he investigates the sources of Soviet policy on nuclear testing strategic defense and conventional forces Evangelista concludes that transnational actors at times played a crucial role in influencing Soviet policy specifically in encouraging moderate as opposed to hard line responses for they supplied both information and ideas to that closed society Evangelista's findings challenge widely accepted views about the peaceful resolution of the Cold War By revealing the connection between a state's domestic structure and its susceptibility to the influence of transnational groups Unarmed Forces will also stimulate thinking about the broader issue of how government policy is shaped Air University Review ,1978 **Fiscal Year ...**
