Soviet Strategy For Nuclear War:

Soviet Strategy for Nuclear War Joseph D. Douglass, Amoretta M. Hoeber, 1979 Soviet Strategy in the Nuclear Age Raymond L. Garthoff, 1962 **Soviet Strategy** John Baylis, Gerald Segal, 2021-01-26 This book first published in 1981 is an analysis of the Soviet Union's military strategy taking in both sides of the hawks and doves views of the USSR's intentions. It examines the Soviet approach to nuclear war defence and deterrence in the nuclear age and the calculation of risk in the use of the military instrument. One of the main themes running through the chapters is that although the Soviet Union clearly does not view military issues in the same way as does the West, their approach is not necessarily aggressive and dangerous in all respects. **Soviet Strategy and the New Military Thinking** Derek Leebaert, Timothy Dickinson, 1992 This book first published in 1991 analyses the unprecedented changes as well as the troubling continuities that characterized Soviet military thinking during the early 1990s. *Soviet Military Strategy in Europe* Joseph D. Douglass, 2013-10-22 Soviet Military Strategy in Europe focuses on the development form and content implications for international relations and goal of Soviet military plan in Europe. The book first discusses the foundation of Soviet military thought and revolution in Soviet military affairs including basic concepts of the Marxist Leninist ideology, Soviet study of military affairs, nuclear revolution and scientific and technical revolution. The publication also concentrates on Soviet study of laws and principles of military art and forces and primary operational concepts. Topics include laws of the first order, naval and air operations, nuclear strike and conventional war considerations. The manuscript ponders on command and control as well as combat modeling, survivability, coordination, centralization and attack of NATO command and control. The book also reviews the issues of Soviet military strategy toward Europe and special Soviet problems. Topics include role of nuclear weapons, chemical warfare, options escalation to intercontinental war, NATO nuclear threat, nuclear weapon stockpile and superiority and war initiation. The publication is a dependable reference for readers interested in the Soviet military scheme in Europe. *Soviet Strategy Toward Western Europe* Edwina Moreton, Gerald Segal, 2021-01-26 This book first published in 1984 carefully examines the political debate surrounding nuclear weapons and superpower policies in Cold War Western Europe. It seeks to analyse a distinctly European view in Soviet policy as opposed to a superpower view. It examines Soviet domestic and foreign policy, economic and military practice with the aim of understanding and countering the Soviet threat to Western Europe. *A Strategy For Terminating A Nuclear War* Clark C. Abt, 2021-11-28 Avoiding a nuclear war or ending one if avoidance fails is an important but relatively unexplored aspect of nuclear doctrine. Dr. Abt examines the feasibility of antagonists agreeing to exclude their open cities from nuclear targeting and to replace strategic bombardment with retaliatory invasion to create less of a hair-trigger deterrent. Critical net assessments by U.S. strategists and the effects of such a strategy on the Soviet Union and on U.S. allies are considered along with problems implementation might pose. The author contends that both deterrence and the potential for limiting damage are strengthened by pre-war plans for a nuclear ceasefire and stalemate short of

holocaust **The Defense Policies of Nations** Douglas J. Murray, Paul R. Viotti, 1994 Now in its third edition The Defense Policies of Nations has been thoroughly updated to take into account the dramatic developments of recent years the dissolution of the Soviet Union the resurgence of East Asian powers the emergence of newly independent nations in Eastern Europe the continuing instability of the Middle East and the growing importance of third world nations in global security matters For those dealing with national defense issues on a daily basis or even for those interested in the subject because of its current relevance The Defense Policy of Nations is must reading Gen Theodore J Conway Military Review American Academy of Political and Social Science The Soviet View of U.S. Strategic Doctrine Jonathan Samuel Lockwood, 1983-01-01 Soviet perceptions of American strategic doctrine have influenced then use of military power in foreign policy An understanding of how those perceptions are being derived at and of their specific contents is therefore essential to any reflection on direction that American defense policy should take Particularly in the field of arms control and disarmament Soviet perceptions carry severe implications for U S proposals as well as general behavior Lockwood bases his examination on Soviet sources such as newspapers periodicals radio broadcasts and books He establishes that Soviet analysts tend to project their own notions of clear strategy onto U S doctrine and intentions Starting from the premise that the Soviets mean what they say Lockwood is able to give a historical account of Soviet perceptions starting from massive retaliation up to and including Presidential Directive 59 In his final chapter the author gives possible policy strategies to successfully counteract the Soviet military policy *Soviet Strategy for Global Nuclear War* Joseph D. Douglass, Amoretta M. Hoeber, 1979
