Soviet Interests in the Third World Robert Cassen, 1985 Research papers on the role of USSR international relations and foreign policy in developing countries discusses development aid military aid economic relations trade relations incl Arms North South dialogue relations with China and South Asia Africa and Latin America considers links between CMEA countries of Eastern Europe and Middle East Arab country includes case studies of relations with Angola Yemen India Mozambique Syrian Arab Republic and Viet Nam and development policy in Soviet Central Asia References statistical tables U. S. *Containment Policy and the Conflict in Indochina* William Duiker, 1994-07-01 From the end of World War II down to the dissolution of the Soviet Union the primary objective of U S foreign policy has been to prevent the expansion of communism Indeed that objective was directly embodied in the so called strategy of containment a global approach to the pursuit of U S national security interests that was first adumbrated by George F Kennan in 1947 and later became the guiding force in U S foreign policy At first the concept of containment was applied primarily to Europe It was there that the threat to U S interests from international communism directed from Moscow was first perceived in the form of Soviet efforts to dominate the nations of Eastern Europe and extend Soviet influence into the eastern Mediterranean and the Middle East Other areas of the world Asia Africa and Latin America were considered to be less threatened by forces hostile to the free world or more peripheral to U S foreign policy concerns At least that was the view initially proclaimed by George Kennan himself who identified five areas in the world as vital to the United States North America Great Britain Central Europe the USSR and Japan Only the latter was located in Asia By the end of the decade however the focus of U S containment strategy was extended to include East and Southeast Asia primarily because of the increasing likelihood of a communist victory in the Chinese Civil War which in the minds of some U S policymakers would be tantamount to giving the Soviet Union a dominant position on the Asian mainland Added to the growing threat in China was the increasingly unstable situation in Southeast Asia where the long arc of colonies that had been established by the imperialist powers during the last half of the nineteenth century was gradually but inexorably being replaced by independent states The emergence of such colonial territories into independence was generally viewed as a welcome prospect by foreign policy observers in Washington but when combined with the impending victory of communist forces in China it raised the unsettling possibility that the entire region might be brought within the reach of the Kremlin **The Soviet Union In The Third World** Carol R Saivetz, 2019-07-09 This book examines the crucial role that Soviet policy toward the Third World played in Soviet efforts to influence the development of the international system in competition with the United States It traces the evolution of Soviet policy toward the Third World The Soviet Bloc And The Third World Brigitte Schulz, William W. Hansen, Robin A Remington, Istvan Dobozi, 2019-07-11 This volume deals with the nature of the relationship between the countries of Eastern Europe and the Soviet Union and those of the Third World offering some background to the decline in the Soviet Union s international position both politically

and economically *The Soviet Union in the Third World* Joseph G. Whelan, Michael J. Dixon, 1986 Bog med n je analyse af Sovjets st tte til den tredie verden st ttens art og omfang samt om Sovjets politiske og strategiske hensigter med st tten samt om dens betydning for og indflydelse p USA s sikkerhedspolitik **Moscow And The Third World Under Gorbachev** W. Raymond Duncan, 2019-04-02 This book explores the scope of Moscow s new thinking in its Third World context highlighted by the USSR s surprising withdrawal from Afghanistan in 1988 It reviews the foreign policy record Gorbachev inherited and assesses his economic and strategic priorities in the diplomatic arena **Rich Country Interests and Third World Development** Robert Cassen, Richard Jolly, John W. Sewell, Robert Wood, 2025-04-01 First published in 1982 Rich Country Interests and Third World Development adds breadth and specificity to the exploration of the interests in Third World development of eleven rich countries the United States Canada Japan Australia the United Kingdom the Federal Republic of Germany The Netherlands Denmark Sweden Norway and France The authors analyze a spectrum of Northern economic political and security interests in development in the South They also examine how national experiences political traditions humanistic values and changing attitudes have influenced perceptions of and relationships with Third World countries over three decades of dramatic change in the North South environment This book helps lay a foundation for negotiated solutions to North South issues by offering a greater appreciation of differences as well as commonalities in interests both among and within industrial and developing countries An overview chapter points to issues broader than those raised in the country studies and addresses a critical question On what terms is it in the interests of the North and South to pursue and fashion interdependence between them in the 1980s **Gorbachev's Third World Dilemmas** Kurt M. Campbell, S. Neil Macfarlane, 2022-12-28 Gorbachev s Third World Dilemmas 1989 examines the strategic political and ideological criteria which shaped Soviet policies toward the developing world Organized around particular themes and issues it pays attention to both theoretical fundamentals in Soviet doctrine and to Soviet actions in specific regions The topics range widely and include the Soviet conception of regional security Soviet arms transfers and military aid to the developing world the developing world in Soviet military thinking the USSR and crisis in the Caribbean Soviet policy towards Southern Africa notably Angola and Mozambique and Soviet policy towards Southwest Africa It looks at the activist foreign policy that Gorbachev inherited and explores the elements of change and continuity that Gorbachev and the Soviets faced *Proceedings of the Annual Student Conference on United States Affairs* Student Conference on United States Affairs. The End of the Cold War and The Third World Artemy Kalinovsky, Sergey Radchenko, 2011-04-19 This book brings together recent research on the end of the Cold War in the Third World and engages with ongoing debates about regional conflicts the role of great powers in the developing world and the role of international actors in conflict resolution Most of the recent scholarship on the end of the Cold War has focused on Europe or bilateral US Soviet relations By contrast relatively little has been written on the end of the Cold War in the Third World in Asia Africa and Latin America How did the

great transformation of the world in the late 1980s affect regional conflicts and client relationships Who won and who lost in the Third World and why do so many Cold War era problems remain unresolved This book brings to light for the first time evidence from newly declassified archives in Russia the United States Eastern Europe as well as from private collections recent memoirs and interviews with key participants It goes further than anything published so far in systematically explaining both from the perspectives of the superpowers and the Third World countries what the end of bipolarity meant not only for the underdeveloped periphery so long enmeshed in ideological socio political and military conflicts sponsored by Washington Moscow or Beijing but also for the broader patterns of international relations This book will be of much interest to students of the Cold War war and conflict studies third world and development studies international history and IR in general
