Soviet Realities Culture And Politics From Stalin To Gorbachev:

Informer 001 Д@Ñ□Д,Д¹ Д□Ñ□Ñ□Д¶Д½Д,Д²Д¾Д²,1997-01-01 Informer 001 is the first exhaustive secret independent study of the Morozov affair and is Yuri Druzhnikov's search for the truth about his life death and the perpetuation of his legacy Druzhnikov examined documents visited museums and interviewed virtually everyone who knew Morozov during his short lifetime In book after book he discovered inconsistencies in every fact from where Morozov was born to how old he was at the time of his death Photographs of the hero when compared turned out to be of different people Historical archives contained no documents of Morozov Memorial museums displayed no personal relics instead they contained pictures books and newspaper clippings Attempts by Druzhnikov to interview living witnesses were met with resistance he was even followed constantly The subject of Pavlik Morozov was officially untouchable *Politics, Paradigms, and Intelligence Failures* Ofira Seliktar,2015-05-20 Washington's failure to foresee the collapse of its superpower rival ranks high in the pantheon of predictive failures The question of who got what right or wrong has been intertwined with the deeper issue of who won the Cold War Like the disputes over who lost China and Iran this debate has been fought out along ideological and partisan lines with conservatives claiming credit for the Evil Empire's demise and liberals arguing that the causes were internal to the Soviet Union The intelligence community has come in for harsh criticism for overestimating Soviet strength and overlooking the symptoms of crisis the discipline of Sovietology has dissolved into acrimonious irrelevance Drawing on declassified documents interviews and careful analysis of contemporaneous literature this book offers the first systematic analysis of this predictive failure at the paradigmatic foreign policy and intelligence levels Although it is focused on the Soviet case it offers lessons that are both timely and necessary *A History Of Russia Volume 2* Walter G. Moss,2004-10-01 Moss has significantly revised his text and bibliography in this second edition to reflect new research findings and controversies on numerous subjects He has also brought the history up to date by revising the post Soviet material which now covers events from the end of 1991 up to the present day This new edition retains the features of the successful first edition that have made it a popular choice in universities and colleges throughout the US Canada and around the world

The Soviet Transition Ottorino Cappelli,Rita di Leo,Stephen White,2014-04-08 Of course we watched it all on television day by day as the Evil Empire transmuted into the Circus Bear but seeing it and knowing what to think about it are not the same Scholars from eastern and western Europe and North America help out in 14 papers from an April 1992 conference in Naples Hannah Arendt's Response to the Crisis of Her Times Anthony Court,2008 Intellectuals and Apparatchiks ,

Intellectuals and Apparatchiks Kevin O'Connor,2008-08-01 This book traces the origins and activities of an alliance of conservative Communist Party authorities and Russian nationalists during the late Soviet era Specifically it examines how and to what extent hitherto orthodox Communists sought political allies in the Russian nationalist movement in order to garner support for halting the reform program and saving the Soviet state from collapse **What Happened to the Soviet**

Union? Christopher I. Xenakis, 2002-09-30 Xenakis examines the responses of Soviet experts in American academia primarily political scientists but also economists and defense scholars who specialized in the USSR to the unfolding evidence of Soviet reform during the 1970s and 1980s and to its ultimate collapse He concludes that American Sovietologists and other political scientists were more responsive to the Cold War consensus to the needs of the State Department Defense and CIA policy makers and to the official Washington line of the moment than to the changing face of the Soviet Union As Xenakis makes clear many of the Cold War ideas and attitudes shared by Sovietologists the notion that the USSR was an evil empire the idea that Soviet society was irredeemably xenophobic and indolent that the Soviet political and economic system could not be fixed or reformed and the view that the best way for Washington to deal with Moscow's influence was to contain the USSR through arms races global and proxy wars were reminiscent of the policies and arguments of the Truman and Eisenhower administrations not to the facts on the ground in the 1970s and 1980s An important work for scholars students and researchers involved with Soviet and Russian studies international political and military affairs intellectual history and the relationship between academia and the government *Best of Times, Worst of Times* Walter Laqueur, 2012-07-03 A memoir by a prominent and highly respected historian and political commentator [Russian-European Relations in the Balkans and Black Sea Region](#) Vsevolod Samokhvalov, 2017-06-19 This book provides a detailed analysis of Russia's great power identity and the role of Europe in forming this identity Great power identity implies an expansionist foreign policy and yet this does not explain all the complexities of the Russian state For instance it cannot explain why Russia decided to take over Crimea but provided only limited support to break away regions in Eastern Ukraine Moreover if Russia is in geo economic competition with Europe why has no serious conflict erupted between Moscow and other post Soviet states which developed closer ties with the EU Finally why does Putin maintain relationships with the European countries that imposed tough economic sanctions on Russia Vsevolod Samokhvalov provides a more nuanced understanding of Russia's great power identity by drawing on his experience in regional diplomacy and research and applying a constructivist methodology The book will appeal to students and scholars of international relations in particular Russian European relations Russian foreign policy and Russian studies
