Soviet Warships Of The Second World War:

Warships of the Soviet Fleets 1939-1945 Przemyslaw Budzbon, Jan Radziemski, Marek Twardowski, 2022-10-30
Seventy five years after the end of the Second World War the details of Soviet ships their activities and fates remain an enigma to the West In wartime such information was classified and after a brief period of glasnost openness the Russian state has again restricted access to historical archives Therefore the value and originality of this work is difficult to exaggerate It sees the first publication of reliable data on both the seagoing fleets and riverine flotillas of the Soviet Navy listing over 6200 vessels from battleships to river gunboats and mercantile conversions as well as purpose built warships Divided into three volumes this first covers major surface warships down to MTBs and armored gunboats as well as submarines For every class there is a design history analyzing strategic tactical and technical considerations and individual ship detail includes construction yard key building dates commissioning fleet designations relocations and ultimate fate Once a closely guarded secret the wartime loss of every ship and boat over 1000 is described Furthermore the confusion caused by frequent name changes is clarified by indexes that run to 16 000 items By following the ships through both their wartime and earlier history the book reveals many aspects of Russian history that remain highly sensitive clandestine co operation with Weimar Germany and fascist Italy the NKVD enforced closure of Soviet borders the Gulag Fleet the faked Metallist sinking that excused the military occupation of Estonia and the ill conceived pact with Nazi Germany Restrictions recently imposed on historical publications in Russia mean this book could certainly not have been published there as proven by the fact that most of the authors Russian collaborators preferred not to disclose their identities This is undoubtedly one of the most important naval reference works of recent years and will be welcomed by anyone with an interest in warships the Soviet Navy or wider maritime aspects of the Second World War *Soviet warships of the Second World War* Jürg Meister, 1975 [Soviet Warships of the Second World War](#) Jurg Meister, **The Royal Navy and German Naval Disarmament 1942-1947** Chris Madsen, 2020-05-05 After the bitter lessons of German self disarmament in 1919 Britain was far more alert and focused when it came to overseeing the disarmament of Germany s naval forces after World War II This book shows how well prepared the British were second time around [Stalin's Slave Ships](#) Martin J. Bollinger, 2003-09-30 Between 1932 and 1953 a fleet of ordinary cargo ships was pressed into extraordinary service The fleet s task was to relocate approximately one million forced laborers to the Soviet Gulag in Kolyma located along the Arctic Circle in far northeastern Siberia The Kolyma Gulag the most infamous in the Soviet Union was accessible only by sea and the fleet became the lifeblood of the entire operation As one of the largest seaborne movements of people in history this transport took a devastating toll on human lives Bollinger presents the often horrific stories of the Gulag fleet and its passengers and reveals the unwitting role of the United States government in the operation U S shipyards built most of the Gulag fleet and the U S government sold many of the ships used in the transport directly to an agent of the Soviet Union The United States also overhauled and repaired many ships in the Gulag

fleet free of charge at the midpoint of their Gulag careers In some cases free ships provided to the Soviet Union under the Lend Lease military assistance program were diverted into Gulag transport duties How much did Washington know about the deadly duty of these ships How many prisoners made the voyage How many never made it out alive Bollinger details this tragic tale using firsthand testimony from those involved in the operation and materials from both American and Russian archives

Stalin's War with Germany: The road to Berlin John Erickson,1999-01-01 Completing the most comprehensive and authoritative study ever written of the Soviet German war Erickson presents the vivid and compelling story of the Red Army's epic struggle to drive the Germans from Russian soil

Stalin's Ocean-going Fleet: Soviet Jurgen Rohwer,2017-07-05 In this work two senior naval historians analyze the discussions held in leading Soviet political military and naval circles concerning naval strategy and the decisions taken for warship building programmes They describe the reconstitution of the fleet under difficult conditions from the end of the Civil War up to the mid 1920s leading to a change from classical naval strategy to a Jeune ecole model in the first two Five Year Plans including efforts to obtain foreign assistance in the design of warships and submarines Their aim is to explain the reasons for the sudden change in 1935 to begin building a big ocean going fleet After a period of co operation with Germany from 1939-41 the plans came to a halt when Hitler attacked the Soviet Union in 1941 Finally this work covers the reopening of the naval planning processes in 1944 and 1945 and the discussions of the naval leadership with Stalin the party and government officials about the direction of the new building programmes as the Cold War began

The Routledge Handbook of Soviet and Russian Military Studies Alexander Hill,2025-02-24 This handbook brings together historical and contemporary essays about Soviet and Russian military studies to offer a comprehensive volume on the topic Comprising essays written by acknowledged specialists the handbook examines the development of the Russian and Soviet armed forces from the Napoleonic Wars all the way through to the course and conduct of the Special Military Operation in Ukraine Divided into thematic and chronological sections the volume looks at wars fought by the Tsarist regime through to the First World War the Soviet Union's Great Patriotic War from 1941 to 1945 the Cold War including the Soviet war in Afghanistan and Russia's post Soviet wars and military development In addition the volume also includes a section that analyses a number of overarching themes including the development of Russian and Soviet airpower partisan warfare counterinsurgency and the role of women in Russian and Soviet armed forces The volume concludes with an essay looking at whether using the historical material and material on the conduct of the war in Ukraine we can reasonably talk of a Russian way of war This volume will be of considerable interest to students of the Soviet Union and Russia strategic studies and military history

Admiral Gorshkov Norman C Polmar,Thomas A Brooks,2019-03-15 Admiral of the Fleet of the Soviet Union Sergei G Gorshkov was the product of a tradition unlike those of his Western contemporaries He had a unique background of revolution civil war world wars and the forceful implementation of an all controlling communist dictatorship Out of this

background of violence and overwhelming transformation came a man with a vivid appreciation of the role and value of navies but with his own unique ideas about the kind of navy that the Soviet Union required and the role that navy should play in Soviet military and national strategy Western naval observers have persisted in attempting to define Admiral Gorshkov in Western naval terms Many of these observers have been baffled when they found that the man and his actions simply did not fit conventional narratives This book lays out the tradition background experiences and thinking of the man as they relate to the development of the Soviet Navy that Gorshkov commanded for almost three decades and that was able to directly challenge the maritime dominance of the United States a traditional sea power His influence persists to this day as the Russian Navy that is at sea in the twenty first century is to a significant degree based on the fleet that Admiral Gorshkov built
