## Space Of Encounter:

*The Politics of the Encounter* Andy Merrifield, 2013-04-15 The Politics of the Encounter is a spirited interrogation of the city as a site of both theoretical inquiry and global social struggle The city writes Andy Merrifield remains important virtually and materially for progressive politics And yet he notes more than forty years have passed since Henri Lefebvre advanced the powerful ideas that still undergird much of our thinking about urbanization and urban society Merrifield rethinks the city in light of the vast changes to our planet since 1970 when Lefebvre s seminal Urban Revolution was first published At the same time he expands on Lefebvre s notion of the right to the city which was first conceived in the wake of the 1968 student uprising in Paris We need to think less of cities as entities with borders and clear demarcations between what s inside and what s outside and emphasize instead the effects of planetary urbanization a concept of Lefebvre s that Merrifield makes relevant for the ways we now experience the urban The city from Tahrir Square to Occupy Wall Street seems to be the critical zone in which a new social protest is unfolding yet dissenters aspirations are transcending the scale of the city physically and philosophically Consequently we must shift our perspective from the right to the city to the politics of the encounter says Merrifield We must ask how revolutionary crowds form where they draw their energies from what kind of spaces they occur in and what kind of new spaces they produce
