Space Time And Incarnation:

Space, Time and Resurrection Thomas F. Torrance, 2018-12-13 In this sequel to *Space Time and Incarnation* Thomas F. Torrance sets out the biblical approach to the Resurrection in terms of the intrinsic significance of the resurrected one Jesus and demonstrates that the Resurrection is entirely consistent with who Jesus was and what he did. The Resurrection is thus taken realistically and treated as of the same nature in the integration of physical and spiritual existence as the death of Christ. All this is elucidated in the context of modern scientific thought in such a way as to show that far from being frightened by modern science into a compromise of the New Testament's message of the Resurrection of Jesus Christ in body it actually allows us to take its full measure. This classic volume from one of the premier English speaking theologians of the 20th century remains an important contribution to the field of systematic theology. For this Cornerstones edition the preface is written by Paul D. Molnar.

Space, Time and Incarnation Thomas F. Torrance, 2005-03-01 When the Nicene Creed affirms that the eternal Son of God for us and for our salvation came down from heaven it asserts that God Himself is actively present within the space and time of our world. The philosophical problems that this involves are bound up with Christian theology and form the subject of this book. Professor Torrance begins with a critique of modern Protestant thinking and proceeds to examine the place of spatial and temporal elements in basic theological concepts. He then offers a positive account of the relation of the incarnation to space and time. While related to the work of the great theologians of the past, this study is also supremely relevant to theological thinking in this age of science.

Space, Time, and Incarnation Thomas Forsyth Torrance, 1997 When the Nicene Creed affirms that the eternal Son of God for us and for our salvation came down from heaven it asserts that God Himself is actively present within the space and time of our world. Theosis in the Theology of Thomas Torrance Myk Habets, 2016-02-17 Torrance's vision of Theosis (deification, divinisation) is explored through his doctrine of creation and anthropology, his characterisation of the incarnation, his accounts of reconciliation and union with Christ, and his theology of church and sacraments. Myk Habets' study distinguishes Torrance's Reformed vision of theosis from other possible accounts of salvation as divinisation as they are found for instance within patristic thought and Eastern Orthodoxy. This book presents the first critique of the theology of T. F. Torrance to focus on theosis and examines a model of theosis within the realm of reformed theology built upon Western theology.

An Evangelical Christology Bernard L. Ramm, 1993-02 In this book Bernard Ramm offers us an introduction to Christology. Focusing on the work of Rudolf Bultmann, his study includes a discussion of the trends in the contemporary

Christological debate as well as a defence of the historic Christology of the Christian church Book jacket Space, Time and Resurrection Thomas F. Torrance, 2005-01 In an earlier work *Space Time and Incarnation* Torrance argued that the Incarnation is meaningless for us unless its relation with the actual structures of space and time can be clarified adequately This he did with special emphasis upon space This book is in part a sequel dealing with the Resurrection in relation to space and in particular time Torrance attempts to set out the biblical approach to the Resurrection in terms of the intrinsic significance of the resurrected one Jesus and demonstrates that the Resurrection is entirely consistent with who Jesus was and what he did The Resurrection is thus taken realistically and treated as of the same nature In the integration of physical and spiritual existence as the death of Christ But all this is elucidated in the context of modern scientific thought and questioning in such a way as to show that far from being frightened by modern science into a compromise of the New Testament message of the Resurrection of Jesus Christ in body it actually allows us to take its full measure *Thomas F. Torrance's Theology of the Ascension* Stavan Narendra John, 2025-05-29 The ascension is a crucial doctrine integrally related to the incarnation When it is underemphasized it results in an impoverishment of our theology of Christ the church human beings and eschatology T F Torrance's theology offers a compelling vision and holistic doctrine of the ascension that notwithstanding its flaws deserves a careful and detailed examination Torrance develops a holistic account of the ascension by considering the ontology spatiality and present ministry of the ascended Jesus What results is a theological construction that affirms the ascended body of Christ and understands the Lord to be currently serving as our human representative in a ministry of priestly intercession prophetic declaration and ascended kingship Torrance is able to do this without succumbing to literalism space travel demythologization metaphorical reading or Pelagianism human effort based sanctification and glorification This book interprets and then develops Torrance's theology of the ascension in critical dialogue with contemporary theological interlocutors **Space, Time and Resurrection** Thomas Forsyth Torrance, 1998 The sequel to *Space Time and Incarnation* Professor Torrance attempts to set out the biblical approach to the Resurrection in terms of the intrinsic significance of the resurrected one Jesus and demonstrates that the Resurrection is entirely consistent with who Jesus was and what he did The Resurrection is thus taken realistically and treated as of the same nature in the integration of physical and spiritual existence as the death of Christ All this is elucidated in the context of modern scientific thought in such a way as to show that far from being frightened by modern science into a compromise of the NT message of the Resurrection of Jesus Christ in body it actually allows us to take its full measure Bloomsbury Publishing **Transcendence and Spatiality of the Triune Creator** Chan Ho Park, 2005 Since Augustine many philosophers and theologians have discussed the relation of God to time whereas the relation between God and space has been rarely discussed This book deals with the relationship of God to space Divine transcendence is one important aspect of the Christian God However God is also immanent in the world of space and time The author investigates the concept of divine spatiality and presents case studies of

three modern theologians Torrance Pannenberg and Moltmann He also analyses divine spatiality by using Dyrness's three categories relationship agency and embodiment

The Nature of Christian Doctrine Alister E. McGrath, 2024-01-02 A groundbreaking account of the origins development and enduring significance of Christian doctrine explaining why it remains essential to the life of Christian communities Noting important parallels between the development of scientific theories and Christian doctrine Alister E McGrath examines the growing view of early Christianity as a theological laboratory We can think of doctrinal formulations as proposals submitted for testing across the Christian world rather than as static accounts of orthodoxy This approach fits the available evidence much better than theories of suppressed early orthodoxies and reinforces the importance of debate within the churches as a vital means of testing doctrinal formulations McGrath offers a robust critique of George Lindbeck's still influential *Nature of Doctrine* 1984 raising significant concerns about its reductionist approach He instead provides a more reliable account of the myriad functions of doctrine utilising Mary Midgley's concept of mapping as a means of coordinating the multiple aspects of complex phenomena McGrath's approach also employs Karl Popper's Three Worlds allowing the theoretical objective and subjective aspects of doctrine to be seen as essential and interconnected We see how Christian doctrine offers ontological disclosure about the nature of reality while at the same time providing a coordinating framework which ensures that its various aspects are seen as parts of a greater whole Doctrine provides a framework or standpoint that allows theological reality to be seen and experienced in a new manner it safeguards and articulates the core vision of reality that is essential for the proper functioning and future flourishing of Christian communities
