Spaces Of Hate Geographies Of Discrimination And Tolerance In The Usa:

Right-Wing Movements in North America and Europe Hank Johnston, Rory McVeigh, Ziad Munson, 2025-10-13 From Boogaloo Bois and Rassemblement National to Nordic Resistance Movement and Forza Nuova majoritarian ethnonational movements and extreme right politics are growing in different national contexts and continue to challenge democratic norms around the globe This collection brings together research by prominent senior scholars and up and coming junior researchers to present an up to date examination of the right s resurgence in Europe and North America Its chapters focus on movement party intersections social media identity work extremism anti immigration rhetoric and theoretical approaches and methodologies to studying the right Bringing together several studies originally presented as plenary talks at the annual Mobilization SDSU conferences the editors combine their expertise and draw upon their scholarly networks to offer a collection of research that will be significant for years to come Each chapter is an important contribution that deepens our knowledge of right wing contentious politics They will be widely used by both sociologists and political scientists who are interested in current global trend of a resurgent and authoritarian right

Spaces of Hate Colin Flint, 2013-10-18 While much has been written about hate groups and extreme right political movements this book will be the first that addresses the crucial role that place and context play in generating and shaping them Ranging across geographical scales the essays start with the home and then move from the local to the regional to the national to finally the global In this collection much of the focus is on the U S as the contributors consider a variety of hate activity and hate groups across the country including rural white supremacist and neo Nazi movements anti black sentiment directed towards cities anti gay activity in cities and rural areas and the resurgent Southern nationalist movement Closing with pieces from those who combat hate activity the intention of Spaces of Hate is to recognize specific geographic settings likely to foster hate activity

Encyclopedia of Geography Barney Warf, 2010-09-21 Simply stated geography studies the locations of things and the explanations that underlie spatial distributions Profound forces at work throughout the world have made geographical knowledge increasingly important for understanding numerous human dilemmas and our capacities to address them With more than 1 200 entries the Encyclopedia of Geography reflects how the growth of geography has propelled a demand for intermediaries between the abstract language of academia and the ordinary language of everyday life The six volumes of this encyclopedia encapsulate a diverse array of topics to offer a comprehensive and useful summary of the state of the discipline in the early 21st century

Key Features Gives a concise historical sketch of geography s long rich and fascinating history including human geography physical geography and GIS Provides succinct summaries of trends such as globalization environmental destruction new geospatial technologies and cyberspace Decomposes geography into the six broad subject areas physical geography human geography nature and society methods models and GIS history of geography and geographer biographies geographic organizations and important social movements Provides hundreds of color illustrations and images that lend depth and

realism to the text Includes a special map section Key Themes Physical Geography Human Geography Nature and Society Methods Models and GIS People Organizations and Movements History of Geography This encyclopedia strategically reflects the enormous diversity of the discipline the multiple meanings of space itself and the diverse views of geographers It brings together the diversity of geographical knowledge making it an invaluable resource for any academic library
