Spacetime Transients And Unusual Events:

Space-time Transients and Unusual Events Michael A. Persinger, Gyslaine F. Lafrenière, 1977 **Space-time Transients and Unusual Events** Michael A. Persinger, Gyslaine F. Lafrenière, 1977 **The New Circlemakers** Andrew Collins, 2009-03 What is the mystery of the crop circles Are they manmade or supernatural Today the majestic crop formations grace the very same pastures of southern England that in the past were the haunts of fairies hobgoblins and mysterious lights Here too are some of Britain's most spectacular prehistoric landscapes Stonehenge Avebury and Silbury Hill all act as ominous backdrops to the crop circle phenomenon Did our ancestors know something about this beguiling enchanting landscape that we are only now waking up to for the first time Is there a higher intelligence responsible for such creations and if so who are they and what are they trying to tell us Bizarrely the answer might lie not here on earth but 37 000 light years away in the constellation of Cygnus the Northern Cross where lurks a star perhaps responsible not only for the foundation of the world's earliest stone monuments but for the emergence of humanity itself **Lost Secrets of the Gods** Michael Pye, Kirsten Dalley, 2025-09-12 Are there 10 000 year old secret societies that still exist today Was there a race of giants that once inhabited the Americas Did ancient Egypt and ancient China have heretofore undiscovered ties Lost Secrets of the Gods delves into these ancient mysteries and many more in articles by some of the world's most intrepid and knowledgeable researchers The old paradigms of history are being radically transformed as we discover more evidence of little known cultures and what they achieved Many ancient cultures spoke and wrote of visitors that gave them knowledge and helped shape their societies Who were they and where did they come from We now know that many ancient cultures had advanced knowledge of science agriculture and astronomy only some of which has been rediscovered in the last 100 years Were The Iliad and The Odyssey really about an epic struggle in pre Celtic Europe What happened to the Persian army that completely disappeared from Egypt 2 500 years ago Did the ancients know how to create psychic guard dogs to protect sacred sites There is much more to history than what has officially been recorded Lost Secrets of the Gods reveals startling truths and asks fascinating questions traditional historians have long ignored **The Geoengineered Transhuman** Elana Freeland, 2025-02-25 Explores how chemicals and nanotechnology are being continuously delivered via chemtrail aerosols by jets drones and rockets in the guise of climate change Examines the public private partnerships behind transhumanism including Big Pharma GMO agribusiness DARPA IARPA corporations and foundations Reveals the reality of the secret space program SSP and the planetary smart grid of 5G 6G the Internet of Things IoT and artificial intelligence AI What if the degradation of the planet is not just a byproduct of human greed but the explicit intention of government agencies bought off by corporations What if their intent is to create a post human global government run by AI populated by a genetically and electromagnetically altered Homo sapiens loaded with nanotechnology and run by 5G 6G 7G transceivers from space Building on decades of research Elana Freeland offers a comprehensive exposé of the transhumanist agenda the

transformation of humanity into a slave class by means of biotechnology genetic engineering molecular nanotechnology and artificial intelligence She reveals that weather control is already a global reality thanks to the aerosol chemtrails that maintain the ionized atmosphere needed for a myriad of military and civilian wireless operations The air we breathe the soil we grow our food in and the water we drink have all been altered away from Nature and toward a synthetic metaverse Meanwhile Big Pharma injects nano sized hardware and software in vivo that activate a transhumanist brain computer interface with AI The author also examines the public private partnerships behind transhumanism and reveals the reality of the secret space program and the planetary smart grid of 5G 6G The eons old dream of global power seems to be coming of age in this overwhelmingly technological era of domination by the wealthy And yet by exposing the transhumanist agenda and studying the technology being employed to subjugate the human race we have the opportunity to find ways not just to resist becoming machines ourselves but to utilize our technologies for restoring a high civilization in service to the Good the Beautiful and the True

Neurosphere Donald P. Dulchinos, 2025-09-12 According to Donald Dulchinos the real action on the Internet isn't in the realm of commerce It is plain and simple in the realm of religion But not exactly that old time religion This book is about the spiritual impact of our increasing ability to communicate quickly and with enhanced evolution It's about our search for meaning our hunger for a glimpse at humanity's future development in which frighteningly or excitingly the trend is clearly toward increasing integration of telecommunications and information technology with the body itself Electronic prosthetics direct neural implants and the brain's control of electronic and mechanical limbs move the boundary that used to exist between human and machine to some undefined frontier inside our bodies our brains and perhaps our minds And if the electronics inside my brain connect directly with the electronics inside your brain how is it meaningful to speak as though we are not part of one larger entity Dulchinos writes Another way of saying this might be that everything that rises must converge Or we are all part of God Or we are all moving toward living in the field sharing Group Mind Dulchinos traces ideas of evolution anthropology biology and theology all of which point toward a betterment a unity and argues cogently that these

ideas find their embodiment in the technology of the World Wide Web Neurosphere or God or Group Mind call it what you will is about technology and the mechanics of unity Although other books on new technology and new consciousness touch on many of the ideas in Neurosphere none do so in quite such a straightforward logical way Dulchinos has a way of telling personal stories that make the technical accessible to the dreamer the spiritual comprehensible to the skeptic and the future of body technology less fear inducing to everyone *Anomalistic Psychology* Leonard Zusne, Warren H. Jones, 2014-01-14 Updating and expanding the materials from the first edition *Anomalistic Psychology* Second Edition integrates and systematically treats phenomena of human consciousness and behaviors that appear to violate the laws of nature The authors present and detail a new explanatory concept they developed that provides a naturalistic interpretation for these phenomena Magical Thinking For undergraduate and graduate students and professionals in cognitive psychology research methods thinking and parapsychology **The Lure of the Edge** Brenda Denzler, 2001 Publisher Fact Sheet A guided tour through the complex world of the UFO abduction movement
