Aural Design and Coherence in the Prologue of First

John Jeffrey E. Brickle,2012-02-16 Unlike literature in the modern western world ancient documents were typically crafted for the ear rather than the eye Jeffrey E Brickle analyses the oral patterning and resulting soundscape reflected in the prologue of First John After discussing contemporary techniques of sound analysis and establishing the study s

methodological approach Brickle examines the prologue s aural profile To do this he explores describes and graphically depicts the patterns of sound that emerge Brickle then uses approaches to Greek pronunciation and orality advocated in recent New Testament research to determine the impact on the prologue s soundscape He employs the principles for beautiful and effective composition elucidated by Dionysius of Halicarnassus in his treatise On literary composition The results and implications of this study enable Brickle to suggest further ways to apply research in orality performance and memory to ancient texts From publisher description

The Message of Holiness Derek

Tidball,2010-05-05 Derek Tidball surveys the Scriptures for a comprehensive biblical understanding of the elusive mandate from God to be holy as I am holy The triune God of glory he contends sets us on paths that lead us through encounters with God ourselves our enemies and our companions to our ultimate destination where we discover that we have been reshaped by God into his own image
