50 Fantastic Ideas for Exploring Food Judit Horvath, 2017-01-12 The 50 Fantastic Ideas series is packed full of fun original skills based activities for Early Years practitioners to use with children aged 0-5. Each activity features step by step guidance, a list of resources and a detailed explanation of the skills children will learn. Creative, simple and highly effective, this series is a must have for every Early Years setting. Children have a natural curiosity towards real life procedures and being involved in cooking and all of its preparation activities has proven to stimulate young minds throughout history. By preparing simple meals together from scratch, children will naturally develop the love of good healthy food whilst it can also tackle the issue of fussy eaters who are far more likely to try something they've prepared themselves. Based on Judit's sound practice as a qualified teacher and baker, having taken part in local and national conferences, she has gathered together a varied collection of activity ideas around cooking and baking from different cultures with some added simple recipes too.

He lists scores of ideas that are easy to replicate and accompanies them with successful case studies from across the country. After describing each motivational stunt, the author offers suggestions for related cross-curricular activities, tips for avoiding problems, additional resources worth exploring, references to complementary stunts to mix and match for students' delight, a silliness rating of 1-5 for each stunt to help each educator with their personality and comfort level of performing in public. 101 Stunts for Principals to Inspire Student Achievement.
