Territory Function By Friedmann John Weaver Clyde:

The City and the Grassroots Manuel Castells, 1983 New Urbanism and American Planning Emily Talen, 2005-11-16

Surveying four approaches to city making the author here gives an assessment of the development of American urbanism highlighting recurrent themes and how these interact merge and conflict **Dwellers in the Land** Kirkpatrick Sale, 2000

Imagine a world structured around ecological and cultural diversity rather than national and political parameters In response to present and impending ecological and economic crises Kirkpatrick Sale offers a definitive introduction to the unique concept of bioregionalism an alternative way of organizing society to create smaller scale more ecologically sound individually responsive communities with renewable economies and cultures He emphasizes among many other factors the concept of regionalism through natural population division settlement near and stewardship of watershed areas and the importance of communal ownership of and responsibility for the land **Dwellers in the Land** focuses on the realistic development of these bioregionally focused communities and the places where they are established to create a society that is both ecologically sustainable and satisfying to its inhabitants **Perceptions of Marginality** Heikki Jussila, Walter Leimgruber, Roser Majoral, 2019-07-09 First published in 1998 this volume takes an international approach theoretical and regional perceptions and experiences of marginality along with some key case studies in Arctic North America Greenland Aboriginal Australia and the Republic of Ireland Its contributors are geographers from all over the world It is part of a series which aims to publish new scientific work on the dynamism of the marginal and critical regions of the world and concentrates on understanding marginality and its processes the human process and its agents comparative approaches and different policy responses to economic social and environmental problems along with studying the human response to global change and its implications for marginalization **Folk Engineering** Stephen J. Ramos, 2025-10-03 During the interwar years the discourse of regional planning profoundly reformulated the spatiality of race and place in the United States In the South Jim Crow brutality and agricultural crisis fueled unprecedented population outmigration Sociologist and author Howard W Odum founded the Institute for Research in Social Science at the University of North Carolina to develop a Southern regionalism that reasserted organic territorial culture amid that flux Regionalism connected the arts humanities and social sciences across the country in a collective effort to elevate place based narrative and folk sensibility to an all encompassing social theory Stephen J Ramos refocuses the history of US regionalism and regional planning on the South illuminating the modern tensions inherent in regionalism as nostalgic cultural practice paired with future oriented planning ideology By tracing Southern regionalists intellectual history and institutional biography Ramos explores how they developed a regional nationalism through surveying and planning that came to inspire federal New Deal policies for the South In showing how Odum s influence crossed various borders Ramos offers us a nuanced way to reappraise race social science and planning in the US South Marginality in Space - Past, Present and Future Heikki Jussila, Roser Majoral, Chris C.

Mutambirwa,2019-01-15 Published in 1999 this book discusses the role that marginality has had in the past has today and will have in the future The Commission on Dynamics of Marginal and Critical Regions held its annual conference in Harare Zimbabwe in July 1997 This volume represents a carefully selected revised and reviewed selection of the papers presented at this conference The articles reflect the various aspects of marginality currently existing in the world and it is the intention of the Commission to pursue research that would eventually result in a more coherent approach towards the issues of marginality in space The articles in the book are grouped into three main parts The first part discusses the role of theory and also methodological aspects and approaches towards the question of marginality The second part gives a time space perspective by examining the past present and future aspects of marginality The third part is dedicated to empirical evidence about the changes in existing marginality and its possible future implementations The conclusions of the book summarize the various and sometimes conflicting aspects of marginality and its images both in space and in time **Geographies of**

Planning Regional Futures John Harrison,Daniel Galland,Mark Tewdwr-Jones,2021-09-30 Planning Regional Futures is an intellectual call to engage planners to critically explore what planning is and should be in how cities and regions are planned This is in a context where planning is seen to face powerful challenges professionally intellectually and practically in ways arguably not seen before planning is no longer solely the domain of professional planners but opened up to a diverse group of actors the link between the study of cities and regions which traditionally had a disciplinary home in planning schools and the like steadily eroded as research increasingly takes place in interdisciplinary research institutes the advent of real time modelling posing fundamental challenges for the type of long term perspective that planning has traditionally afforded regional planning and its mixed record of achievement and the link between region and planning becoming

decoupled as alternative regional and other spatial approaches to planning have emerged This book takes up the intellectual and practical challenge of planning regional futures moving beyond the narrow confines of existing debate and providing a forum for debating what planning is and should be for in how we plan cities and regions The chapters in this book were originally published as a special issue of *Regional Studies* The Spatial Organization Of New Land Settlement In Latin America Jacob O Maos,2019-07-11 Land settlement in Latin America has become a subject of growing concern as governments renew efforts to develop agrarian potential and to relieve the pressure on overpopulated rural and urban areas In this book land settlement is viewed as the development of resources both human and natural The spatial organization of land settlement is examined in light of social and spatial patterns that may complement economic activities lead to viable communities and facilitate the provision of social and cultural amenities The farm family is seen as the basic socioeconomic unit and the family farmstead as the basic spatial nucleus Revival , **Beyond Beijing** Dali L. Yang,2012-10-12 This book offers a balanced assessment of the dynamics and consequences of the decentralization of power and resources in post Mao China The author argues that decentralization has increased tensions amongst ethnic groups and unleashed much competition and emulation among local governments This book is an authoritative study of an issue that will remain highly visible on China s political agenda for the foreseeable future The Government of Emergency Stephen J. Collier,Andrew Lakoff,2021-11-30 In the middle decades of the twentieth century in the wake of economic depression war and in the midst of the Cold War an array of technical experts and government officials developed a substantial body of expertise to contain and manage the disruptions to American society caused by unprecedented threats Today the tools invented by these mid twentieth century administrative reformers are largely taken for granted assimilated into the everyday workings of government As Stephen Collier and Andrew Lakoff argue in this book the American government s current practices of disaster management can be traced back to this era Collier and Lakoff argue that an understanding of the history of this initial formation of the emergency state is essential to an appreciation of the distinctive ways that the U S government deals with crises and emergencies or fails to deal with them today This book focuses on historical episodes in emergency or disaster planning and management Some of these episodes are well known and have often been studied while others are little remembered today The significance of these planners and managers is not that they were responsible for momentous technical innovations or that all their schemes were realized successfully Their true significance lies in the fact that they formulated a way of understanding and governing emergencies that has come to be taken for granted *Planning Canadian Regions, Second Edition* Gerald Hodge,Heather M. Hall,Ira M. Robinson,2017-01-05 Planning Canadian Regions was the first book to integrate the history contemporary practice and emergent issues of regional planning in Canada This much anticipated second edition brings the discussion up to date applying the same thorough analysis to illuminate the rapid changes now shaping our regional landscapes This new edition draws upon contemporary analyses projects and literature to

address issues of spatial complexity now facing regional planners in Canada Special attention is paid to the regional planning dimensions of climate change adaptation and environmental sustainability across Canada the development inequities faced in peripheral resource regions the role that Aboriginal peoples must play in the planning of their regions and the distinctive planning needs of metropolitan regions across the country This book challenges planners educators and policy makers to engage with the latest thinking and strive for best practices in twenty first century regional planning **International Encyclopedia of Public Policy and Administration Volume 2** Jay M. Shafritz, 2019-03-22 This encyclopedia includes entries on the concepts issues and theories starting with alphabets D to K that define public policymaking evaluation management and implementation It also includes entries on the individuals commissions and organizations that have contributed to these fields *Golden Gulag* Ruth Wilson Gilmore, 2007-01-08 Publisher description **The Role of Small and Intermediate Settlements in National Development** United Nations Centre for Human Settlements, 1985
