The Birth Control A Discus:

The Birth Control Review Margaret Sanger, 1917 The Birth Control Movement and American Society James Reed, 2014-07-14 This is the first comprehensive history of the struggle to win public acceptance of contraceptive practice James Reed traces this remarkable story from its beginnings carefully documenting the roles of the diverse interests that supported birth control including feminists eugenicists and physicians and providing a unique account of the struggles of such pioneers as Margaret Sanger Robert Dickinson and Clarence Gamble to win the support of organized medicine to change laws to open birth control clinics and to improve birth control methods Originally published in 1984 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **A History of the Birth Control Movement in America** Peter C. Engelman, 2011-04-19 This narrative history of one of the most far reaching social movements in the 20th century shows how it defied the law and made the use of contraception an acceptable social practice and a necessary component of modern healthcare A History of the Birth Control Movement in America tells the extraordinary story of a group of reformers dedicated to making contraception legal accessible and acceptable The engrossing tale details how Margaret Sanger's campaign beginning in 1914 to challenge anti obscenity laws criminalizing the distribution of contraceptive information grew into one of the most far reaching social reform movements in American history The book opens with a discussion of the history of birth control methods and the criminalization of contraception and abortion in the 19th century Its core however is an exciting narrative of the campaign in the 20th century vividly recalling the arrests and indictments banned publications imprisonments confiscations clinic raids mass meetings and courtroom dramas that publicized the cause across the nation Attention is paid to the movement's thorny alliances with medicine and eugenics and especially to its success in precipitating a profound shift in sexual attitudes that turned the use of contraception into an acceptable social and medical practice Finally the birth control movement is linked to court won privacy protections and the present day movement for reproductive rights *The Birth Control Clinic in a Marketplace World* Rose Holz, 2014-02 An examination of the complex interrelationship between charity birth control clinics and the commercial marketplace in the United States through the 1970s The Birth Control Clinic in a Marketplace World is the first book to chart the origins and evolution of the charity birth control clinic movement in the United States from the 1910s through the 1970s a period that witnessed dramatic transformation in the goods and services such clinics provided Rose Holz uncovers the virtually unexamined relationship between Planned Parenthood and the commercial marketplace sphere Challenging more than thirty years of historiography on birth control Holz sheds new light on battles over

reproductive rights through her analysis of the Planned Parenthood Federation of America within the context of the commercial birth control world. Revealing that it would be Planned Parenthood's engagement to charity the argument the organization once used to discredit the presumed profit driven exploitation of the marketplace that would put precisely those women it hoped to assist in dangerous situations she asks such probing questions as What were the meanings attached to the provision of birth control and its commercial distribution How in turn were these meanings used as sources of power The project draws on rich primary sources to answer these questions and to examine the historical role of the local birth control clinic in modern America Rose Holz earned her PhD in history from the University of Illinois at Urbana Champaign She is associate director of and associate professor of practice in the Women's and Gender Studies Program at the University of Nebraska Lincoln

The American Religious Debate Over Birth Control, 1907-1937 Kathleen A. Tobin, 2017-07-06

The ongoing debates on the morality of artificial birth control sparked a heated public debate in the early twentieth century in an already religiously fragmented United States Many denominations took part in the deliberations both publicly and privately In examining the ideas about contraception and birth control at that time this book considers the cultural environment religion and its connection to the roots of birth control the questioning of religious doctrine the Protestants view of birth control the Lambeth conferences of 1930 the influence of conservatives and the influence of Catholics Also discussed is the historical context of fundamentalists versus modernists neo Malthusianism eugenics immigration the movement for legalization organized by Margaret Sanger and how the Catholic Church came to lead religious resistance to artificial birth control

Birth Control Politics in the United States, 1916-1945 Carole Ruth McCann, 1999 In a disturbing behind the scenes history of the early achievements of Margaret Sanger's American birth control movement Carole R McCann scrutinizes the movement's compromises as well as its successes
