Amos Yong, Peter G. Heltzel

The Cosmology Of Freedom New Edition:

Ernst Troeltsch and Comparative Theology Echol Lee Nix, 2010 Ernst Troeltsch and Comparative Theology examines the methodological attempts of Ernst Troeltsch and Robert Neville for discerning Christian normativity The investigation of Troeltsch focuses on his treatment of the absoluteness of Christianity and highlights the crisis brought upon absolute religious claims by the study of the history of religions By rejecting both the supernatural exclusive apologetic of orthodox Protestantism and the evolutionary apologetic of liberal Protestantism Troeltsch insists that theology's method should be the history of religions method die religionsgeschichtliche Methode Like Troeltsch Neville agrees with historical inquiries but contrary to Troeltsch Neville advances an axiological hypothesis to thinking which is founded in valuation Neville explains the role of valuation at the imaginative level of thinking and relates it to his theory of normative truth in religious symbols This study shows that Neville begins with Troeltsch's methodological presuppositions but achieves more normative theology than Troeltsch especially on ways in which God is engaged in symbolically shaped thinking and practice Both thinkers offer creative insights for theology that make possible a critical comparison of truth claims regarding the validity of Christianity in and for a historically conscious age

Bounds of Freedom Mahasweta Chaudhury, 2004-01-01 Dr Chaudhury is concerned to defend what is responsible and hopeful in contemporary ecological thinking but to avoid the trap of denying that any positive contribution can be made by western science and technology Critical rationalists do not need to agree with her suggestions and recommendations in order to welcome her positioning of environmental issues alongside the traditional human and political debates about freedom The Indian perspective that informs this book is particularly impressive and interesting David Miller University of Warwick Professor Mahasweta Chaudhury is Professor for Philosophy at Calcutta University in India In the late sixties she studied at the London School of Economics under Karl Popper John Watkins Alan Musgrave and Imre Lakatos

The Cosmology of Freedom Robert Cummings Neville, 1995-10-19 Neville's *The Cosmology of Freedom* corrects the tendency to believe that freedom consists in one thing alone for instance not being constrained or being able to choose between live options or participating in a democratic political process He lays out in systematic fashion the connections between personal dimensions of freedom such as external liberty Hobbes the ability to act on the basis of one's intentions Spinoza choice between live options James and creativity Whitehead and social dimensions of freedom such as opportunity Du Bois social pluralism Dewey integral life style Tillich and participatory politics Dahl Discerning the nuances of these dimensions of freedom it becomes a matter of experience and empirical investigation to determine in specific circumstance whether in what senses and to what degree a person or society is free To distinguish and to relate these senses of freedom a broad philosophical perspective is required Neville provides a functional philosophical cosmology that shows how all the senses of freedom are functions of the natural cosmos In conjunction with his theory of divine creation in God the Creator this book is an important argument for reconciling human freedom and divine creativity

John Dewey,

Confucius, and Global Philosophy Joseph Grange, 2012-02-01 Joseph Grange's beautifully written book provides a unique synthesis of two major figures of world philosophy John Dewey and Confucius and points the way to a global philosophy based on American and Confucian values Grange concentrates on the major themes of experience felt intelligence and culture to make the connections between these two giants of Western and Eastern thought He explains why the Chinese called Dewey A Second Confucius and deepens our understanding of Confucius's concepts of the way dao of human excellence ren The important dimensions of American and Chinese cultural philosophy are welded into an argument that calls for the liberation of what is finest in both traditions The work gives a new appreciation of fundamental issues facing Chinese and American relations and brings the opportunities and dangers of globalization into focus **Governance for**

Harmony in Asia and Beyond Julia Tao, Anthony B. L. Cheung, Martin Painter, Chenyang Li, 2009-12-18 Harmony has become a major challenge for modern governance in the twenty first century because of the multi religious multi racial and multi ethnic character of our increasingly globalized societies Governments all over the world are facing growing pressure to integrate the many diverse elements and subcultures which make up modern pluralistic societies This book examines the idea of harmony and its place in politics and governance both in theory and practice in Asia the West and elsewhere It explores and analyses the meanings mechanisms dimensions and methodologies of harmony as a normative political ideal in both Western and Asian philosophical traditions The book argues that in Western political thought which sees politics as primarily concerned with resolving social conflicts and protecting individual rights the concept of harmony has often been neglected In contrast since earliest times harmony or he has been a profound theme in Confucian thought and current leaders of many East Asian governments and the Chinese government have explicitly declared that the realisation of a harmonious society is their aim The book also assesses how harmony is pursued jeopardized or deformed in the real world of politics based upon empirical analysis of a variety of different cultural social and political contexts including China Hong Kong Singapore Malaysia Singapore Vietnam Denmark Latin America and the Scandinavian countries It shows how harmony as an organizing concept can help to promote new thinking in governance and overcome problems of modern day governance like distrust adversarial conflicts hyper individualism coercive state intervention and free market alienation It also discusses the potential problems posed by the pursuit of harmony in particular in the grave threat of totalitarianism and considers how these risks could best be mitigated **Eternity and Time's Flow** Robert C. Neville, 1993-01-01 Neville returns eternity to the center of consideration by analyzing the obsessive culture that attempts to get along denying it and he analyzes the nature of time's flow itself the nature of divine eternity and the subtle problems of personal immortality He argues that time and eternity constitute one topic and that therefore time itself is beyond understanding beyond personal grasp and beyond civilized orientation without a proper comprehension of eternity **Behind the Masks of God** Robert Cummings

Neville, 1991-02-12 Behind the Masks of God develops an abstract concept of creation ex nihilo to compare and contextualize

many of the symbols and more concrete ideas of divinity in world religions The first focus is Christianity and the book is put forward as an essay in Christian theology In addition the essay asks how creation ex nihilo serves to relate Christianity to other religions particularly those of China Neville addresses both Buddhism and Christianity and to a lesser extent Taoism as test cases for the applicability of creation ex nihilo as a fundamental comparative category for connecting theistic religions with non theistic ones

American Philosophy Barbara MacKinnon, 1985-06-30 This anthology demonstrates the richness and diversity of the American intellectual heritage In it we see how Jonathan Edwards grapples with the problem of how to reconcile freedom and responsibility with Calvinist religious beliefs how Franklin and Jefferson exemplified American enlightenment thought and how the Transcendentalists Ralph Waldo Emerson and Henry David Thoreau formulated their particular romantic idealist beliefs A second and significant portion of the anthology is devoted to Pragmatism Substantive excerpts from Peirce James and Dewey as well as Royce are collected here A third part is devoted to other Twentieth Century American philosophies No other collection of writings in this field includes the breadth of coverage that this one does Among the chapters in this third part of the book are those on early Process Philosophy Phenomenology Positivism and Language Philosophies Selections from such philosophers as Whitehead Weiss Buchler Gurwitsch Sellars Quine Davidson and Rawls along with many others are included in this part A final chapter is devoted to twentieth century American Moral Philosophy The book is specifically designed to be used as a text for courses in American philosophy A substantive introduction that emphasizes the historical setting as well as major interests and ideas of the philosophers accompanies each chapter Extensive bibliographies and study guide questions follow each chapter The selections include more than any one course will cover but in their completeness also allow individual

teachers and readers to select what they want **The Magic Mirror** Elizabeth M. Baeten, 1996-01-01 Analyzes the theories of myth of Cassirer Barthes Eliade and Hillman and offers an alternative original account of myth making as an essential strand of cultural production Creativity and Common Sense Thomas Krettek, SJ, 1987-07-01 Paul Weiss is one of the two or three most original and creative philosophers and metaphysicians in America today Creativity and Common Sense reveals why It contains fourteen recent articles on the thought of Paul Weiss by authors who are most familiar with his writings including an essay by Charles Hartshorne that provides a unique perspective on Weiss by one who has known him for his entire career Weiss is shown to be one of the very few contemporary philosophers who examines every area of concern to philosophy and does so on the basis of ontological insights regarding the ultimate elements of reality He begins his philosophical consideration with the evidences offered by the world of common sense and seeks to provide an adequate and comprehensive account of what he finds there The contributors to this collection present and examine many of Weiss strategic insights They help clarify key elements in his thought and thereby contribute to an appreciation and understanding of his work They also make evident the importance of Weiss insights for resolving vexing questions in such diverse areas as the philosophy of science philosophical methodology ethics aesthetics the philosophy of the human person and the philosophy of language This collection makes a significant contribution to the development of Weissian scholarship and to the growing appreciation of the significance of his thought for the discussions of contemporary philosophy **The Philosopher's Index** , 2008 Vols for 1969 include a section of abstracts *Theology in Global Context* Amos Yong, Peter G. Heltzel, 2016-10-06 Robert Cummings Neville has been a consistent advocate for the necessity of global theology Early in his career he realized that the philosophical framework of the West alone was inadequate for a truly global theology Since then he has sought to develop theology creatively and responsibly within the world context The original essays in this volume written in his honour by fellow theologians participate in and model the kind of dialogical global theology embodied in Neville s work **The Impossibility of Religious Freedom** Winnifred Fallers Sullivan, 2018-04-24 The Constitution may guarantee it But religious freedom in America is in fact impossible So argues this timely and iconoclastic work by law and religion scholar Winnifred Sullivan Sullivan uses as the backdrop for the book the trial of Warner vs Boca Raton a recent case concerning the laws that protect the free exercise of religion in America The trial for which the author served as an expert witness concerned regulations banning certain memorials from a multiconfessional nondenominational cemetery in Boca Raton Florida The book portrays the unsuccessful struggle of Catholic Protestant and Jewish families in Boca Raton to preserve the practice of placing such religious artifacts as crosses and stars of David on the graves of the city owned burial ground Sullivan demonstrates how during the course of the proceeding citizens from all walks of life and religious backgrounds were harassed to define just what their religion is She argues that their plight points up a shocking truth religion cannot be coherently defined for the purposes of American law because everyone has different definitions of what religion is Indeed

while religious freedom as a political idea was arguably once a force for tolerance it has now become a force for intolerance she maintains A clear eyed look at the laws created to protect religious freedom this vigorously argued book offers a new take on a right deemed by many to be necessary for a free democratic society It will have broad appeal not only for religion scholars but also for anyone interested in law and the Constitution Featuring a new preface by the author *The Impossibility of Religious Freedom* offers a new take on a right deemed by many to be necessary for a free democratic society

Process

Philosophy and Political Ideology Randall C. Morris,1991-01-01 This book fills a significant gap in current process scholarship by providing a detailed exposition of Whitehead s and Hartshorne s social and political writings reconstructing their ideological commitments in depth and placing them in their historical context It focuses on four areas of inquiry the individual and society the ideals of freedom equality and democracy the use of coercive force within and between societies and the theory of social progress As each feature of their political thought is examined Morris shows how Whitehead s and Hartshorne s political commitments are reflected in their metaphysical principles

A Korean Theology of Human Nature Jung Sun Oh,2005-01-31 This remarkable study articulates a Korean Confucian Christian theory of human nature theory of justification sanctification and salvation by means of a reformed concept of filial piety The book investigates in depth the theological anthropology of Robert C Neville and the inclusive humanism of Tu Wei ming Neville and Tu represent contemporary Christian and Confucian approaches to religious anthropology Furthermore they have engaged in an extended and productive dialogical encounter on the themes of comparative thought and religious renewal in Asia and North America This book argues that Neville s and Tu s insights into human nature have great relevance for a comparative contemporary Korean theology by focusing on the role of a reformed version of filial piety as a new component of Korean theology The articulation of filial piety as a potential key of contemporary Korean theology is an example of creative appropriation of a Confucian theme of the Christian praxis of sanctification and ultimately the soteriology of divine grace and transformation This study construes human nature to be such that any living theology will reflect the creative engagement of Christian theologians as public intellectuals in search of the articulation of the gospel

The Highroad Around Modernism Robert C. Neville,1992-01-01 Discussions of modernism and postmodernism in philosophy and the arts are usually based on a narrow reading of the Western tradition and are not conscious of the narrowness The modern period beginning with the European Renaissance spawned many developments not just the modernist one in terms of which the tradition has been read From the standpoint of the highroad around modernism both modernism and post modernism look like nothing more than two late modern movements perhaps too preoccupied with themselves and their historical place to engage a swiftly changing world containing more than the Western tradition *The Highroad Around Modernism* develops and defends an explicitly non modernist and non postmodernist extension of modernity applicable to the problems of world wide cultural interactions

Interpreting Neville J. Harley Chapman,Nancy Frankenberry,Nancy K. Frankenberry,1999-05-13 Distinguished

scholars provide the first book length consideration of the work of philosopher and theologian Robert Cummings Neville including a response from Neville himself **Metaphysics of Goodness** Robert Cummings Neville,2019-09-27 In *Metaphysics of Goodness* Robert Cummings Neville extends Alfred North Whitehead s project of cultural studies which was based on a new metaphysics that Whitehead developed in *Adventures of Ideas* Neville s focus is value or goodness in many modes The metaphysics treated in this book derive from the Platonic and Confucian traditions with significant modifications of Whitehead Peirce Dewey Confucius Xunzi and Zhou Dunyi Part one develops a theory of form based on a metaphysics of harmony Part two elaborates a theory of art based on a metaphysics of beauty Part three sketches a theory of personhood based on a metaphysics of obligation Part four discusses civilization in a systematic way based on a metaphysics of flourishing Throughout the book Neville elaborates a theory of interpretation that is inspired by Peirce Dewey and Xunzi but is not limited to their ideas While the reasoning of the book is concise it employs methodologies from many kinds of philosophy art criticism ethics and cultural studies and sees philosophy as needing to learn from all these disciplines **The Bloomsbury Encyclopedia of Philosophers in America** John R. Shook,2016-02-11 For scholars working on almost any aspect of American thought *The Bloomsbury Encyclopedia to Philosophers in America* presents an indispensable reference work Selecting over 700 figures from the *Dictionary of Early American Philosophers* and the *Dictionary of Modern American Philosophers* this condensed edition includes key contributors to philosophical thought From 1600 to the present day entries cover psychology pedagogy sociology anthropology education theology and political science before these disciplines came to be considered distinct from philosophy Clear and accessible each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading Featuring a new preface by the editor and a comprehensive introduction *The Bloomsbury Encyclopedia to Philosophers in America* includes 30 new entries on twenty first century thinkers including Martha Nussbaum and Patricia Churchland With in depth overviews of Waldo Emerson Margaret Fuller Noah Porter Frederick Rauch Benjamin Franklin Thomas Paine and Thomas Jefferson this is an invaluable one stop research volume to understanding leading figures in American thought and the development of American intellectual history
