The Creative Mind An Introduction To Metaphysics:

The Creative Mind Henri Bergson, 2012-04-12 The Nobel Laureate discusses not only how and why he became a philosopher but also his conception of philosophy as a field distinct from science and literature [The Creative Mind](#) Henri Bergson, 2019 [An Introduction to Metaphysics](#) Henri Bergson, 1970 **An Introduction to Metaphysics** Henri Bergson, 1989 **The Creative Mind** Henri Bergson, 1971 This collection comprises first of all two introductory essays written especially for it and consequently heretofore unpublished They make up a third of the volume The rest are articles or lectures mostly out of print which appeared in France or in other countries Taken as a whole they date from the period between 1903 and 1923 They bear mainly upon the method I believe should be recommended to the philosopher To go back to the origin of this method to trace the direction it impresses upon research is the particular object of the two essays which make up the introduction [The Creative Mind](#) Henri Bergson, 2014 **The Creative Mind** Henri Bergson, 1946 *The Creative Mind* Henri Bergson, 2013-10 This is a new release of the original 1946 edition **An Introduction to Metaphysics** Henri Bergson, 1965 **The Cinema of Richard Linklater** Rob Stone, 2018-04-10 From Slacker 1991 a foundational work of independent American cinema to the Before trilogy Richard Linklater's critically acclaimed films and aesthetic ambition have earned him a place as one of the most important contemporary directors In this second edition of *The Cinema of Richard Linklater* Rob Stone shows how Linklater's latest films have redefined our understanding of his work He offers critical discussions and analysis of all of Linklater's films including *Before Midnight* 2013 and *Everybody Wants Some* 2016 as well as new interviews with Linklater and a chapter on *Boyhood* 2014 hailed as one of the best films of the twenty first century Stone explores the theoretical practical contextual and metaphysical elements in Linklater's filmography especially his experimentation with cinematic representations of time and growth He demonstrates that fanciful lives and lucid dreams are as central as alternative notions of America and time to Linklater's films Stone also considers Linklater's collaborative working practices his deployment of such techniques as rotoscoping and his innovative distribution strategies Thoroughly revised updated and extended the book includes analysis of all of Linklater's films including *Dazed and Confused* 1993 *Waking Life* 2011 and *A Scanner Darkly* 2006 as well as his documentaries short films and side projects *The Care of Life* Miguel de Beistegui, Giuseppe Bianco, Marjorie Gracieuse, 2014-12-22 This interdisciplinary collection of essays demonstrates how the ethical and political problems we are confronted with today have come to focus largely on life The contributors to this volume define and assess the specific meaning of life itself It is only by doing so that we can understand why life has become an all encompassing problem why all questions especially ethical and political have become vital questions We have reached a moment in history where every distinction and opposition is no longer in relation to life but within it and where life is at once a theoretical and practical problem This book throws light on this nexus of problems at the heart of contemporary debates in bioethics and biopolitics It helps us understand why and how life is understood valued

cared for and framed today Taking a genuinely transdisciplinary approach these essays demonstrate how life is a multifaceted problem and how diverse the origins foundations and also consequences of bioethics and biopolitics therefore are

Bergson and Phenomenology M. Kelly, 2010-09-29 Examining the revival of Bergsonism for phenomenology leading scholars of both areas inaugurate a dialogue long overdue By assessing phenomenology's readings of Bergson and Bergsonian challenges to phenomenological methods the essays in this volume explore anew the issues of central concern in contemporary continental philosophy

Morphing Intelligence Catherine Malabou, 2019-02-12 What is intelligence The concept crosses and blurs the boundaries between natural and artificial bridging the human brain and the cybernetic world of AI In this book the acclaimed philosopher Catherine Malabou ventures a new approach that emphasizes the intertwined networked relationships among the biological the technological and the symbolic Malabou traces the modern metamorphoses of intelligence seeking to understand how neurobiological and neurotechnological advances have transformed our view She considers three crucial developments the notion of intelligence as an empirical genetically based quality measurable by standardized tests the shift to the epigenetic paradigm with its emphasis on neural plasticity and the dawn of artificial intelligence with its potential to simulate replicate and ultimately surpass the workings of the brain Malabou concludes that a dialogue between human and cybernetic intelligence offers the best if not the only means to build a democratic future A strikingly original exploration of our changing notions of intelligence and the human and their far reaching philosophical and political implications *Morphing Intelligence* is an essential analysis of the porous border between symbolic and biological life at a time when once clear distinctions between mind and machine have become uncertain

Henri Bergson: Key Writings Henri Bergson, 2002-04-22 This volume brings together generous selections from his major texts *Time and Free Will* *Matter and Memory* *Creative Evolution* *Mind Energy* *The Creative Mind* *The Two Sources of Morality and Religion* and *Laughter* In addition it features material from the *Melanges* never before translated in English such as the correspondence between Bergson and William James The volume will be an excellent textbook for pedagogic purposes and a helpful source book for philosophers working across the analytic continental divide

Creative Evolution Henri Bergson, 2022-12-01 First published in French in 1907 Henri Bergson's *Evolution créatrice* is a scintillating and radical work by one of the great French philosophers of the nineteenth and twentieth centuries This outstanding new translation the first for over a hundred years brings one of Bergson's most important and ambitious works to a new generation of readers A sympathetic though critical reader of Darwin Bergson argues in *Creative Evolution* against a mechanistic reductionist view of evolution For Bergson all life emerges from a creative shared impulse which he famously terms *lan vital* and which passes like a current through different organisms and generations over time Whilst this impulse remains as forms of life diverge and multiply human life is characterized by a distinctive form of consciousness or intellect Yet as Bergson brilliantly shows the intellect's fragmentary and action oriented nature which he likens to the cinematograph means it alone cannot grasp nature's creativity and

invention over time A major task of Creative Evolution is to reconcile these two elements For Bergson the answer famously lies in intuition which brings instinct and intellect together and takes us into the very interior of life A work of great rigour and imaginative richness that contributed to Bergson winning the Nobel Prize for Literature in 1927 Creative Evolution played an important and controversial role in the trajectory of twentieth century philosophy and continues to create significant discussion and debate The philosopher and psychologist William James who admired Bergson s work was writing an introduction to the first English translation of the book before his death in 1910 This new translation includes a foreword by Elizabeth Grosz and a helpful translator s introduction by Donald Landes Also translated for the first time are additional notes articles reviews and letters on the reception of Creative Evolution in biology mathematics and theology This edition includes fascinating commentaries by philosophers Maurice Merleau Ponty Georges Canguilhem and Gilles Deleuze

The New Century Keith Ansell-Pearson, Alan D. After Debussy Julian Johnson, 2020-01-10 Classical music shows a close relationship to language and both musicology and philosophy have tended to approach music from that angle exploring it in terms of expression representation and discourse This book turns that idea on its head Focusing on the music of Debussy and its legacy in the century since his death After Debussy offers a groundbreaking new perspective on twentieth century music that foregrounds a sensory logic of sound over quasi linguistic ideas of structure or meaning Author Julian Johnson argues that Debussy s music exemplifies this idea influencing the music of successive composers who took up the mantle of emphasizing sound over syntax sense over signification In doing so this music not only anticipates a central problem of contemporary thought the gap between language and our embodied relation to the world but also offers a solution With a readable narrative structure grounded in an impressive body of literature After Debussy ranges widely across French music demonstrating the impact of Debussy s music on composers from Fauré and Ravel to Dutilleul Boulez Grisey Murail and Saariaho It ranges similarly through a set of French writers and philosophers from Mallarmé and Proust to Merleau Ponty Jankl vitch Derrida Lyotard and Nancy and even draws from the visual arts to help embody key ideas In accessibly tackling substantial ideas of both musicology and philosophy this book not only presents bold new ways of understanding each

discipline but also lays the groundwork for exciting new discourse between them

Bergson and History Leon ter Schure, 2019-10-01 Explores the philosophy of history of Henri Bergson and shows its relevance to contemporary historical thought Henri Bergson is famous for his explorations of time as duration yet he rarely referred to history in his writings Simultaneously historians and philosophers of history have generally disregarded Bergson's ideas about the nature of time Modernity has brought change at an ever accelerating rate and one of the results of this has been a tendency toward presentism Only the here and now matters as past and future have been absorbed by the omnipresent present of the digital age In highlighting the role of history in the work of Bergson *Bergson and History* shows how his philosophy of life allows us to revise the modern conception of history Bergson's philosophy situates history within a broader framework of life as a creative becoming allowing us to rethink important topics in the study of history such as historical time the survival of the past and historical progress *Bergson and History* is groundbreaking and merits a wide readership in the humanities and social sciences It is full of fresh and original insights Ter Schure has read widely and deeply and there is a productive engagement throughout the book with contemporary resources Keith Ansell Pearson author of *Bergson Thinking Beyond the Human Condition*

Morality in Evolution Idella J. Gallagher, 2012-12-06 *Les Deux Sources de la Morale et de la Religion* is not a book to leave one indifferent Those who are persuaded by its argument or inspired by its message are prone to manifest the same enthusiasm as Georges Cattaui who praised it as one of the greatest and wisest books conceived by philosophers Even those who take exception to the doctrine it expounds are impelled to acknowledge its significance It was in his critique of *Les Deux Sources* that Jacques Maritain was moved to call the philosophy of Henri Bergson one of the most daring and profound of our time When many years ago I opened *Les Deux Sources* for the first time I turned out of curiosity to the last page and beheld these words *l'univers est une machine à faire des dieux* Bergson was an evolutionist but surely this was no ordinary evolutionist speaking I thought What must be the moral philosophy of a man who would write these words When much later I undertook the present study it was this same question which concerned me
