The Creed Foundations Of Faith Series:

Catholic Faith Foundations David Werning, 2018-02-09 Too often Catholics feel like they don't know or remember enough about their faith to share it with others. Finding answers to basic questions about what Catholics believe and why can seem like a daunting task. Catholic Faith Foundations: Back to the Basics offers a concise, easy-to-follow review of the basic teachings of the Catholic Church. Author David Werning guides readers through the fundamentals of the Catholic Faith, inviting readers to enrich their understanding of the Church's doctrinal and spiritual riches. Whether you're new to the Church or a lifelong Catholic, Catholic Faith Foundations not only equips you with knowledge of the Church's teachings; it invites you to fall in love with the Faith all over again. ABOUT THE AUTHOR David Werning has an S.T.B. in sacred theology from the Catholic University of America. He has been writing about the Church and the Catholic Faith since 1992. **The Foundations of Social Order** R. J. Rushdoony, 2009-11-06 The Foundations of Social Order was and remains the most unique book ever written in the history of Christendom. Nothing like it has been written before, and nothing like it has been written since. Christian and non-Christian historians have generally agreed on at least one thing about creeds and history: they are not connected in any meaningful, comprehensive way. A few non-Christian historians, Harold Berman and his Law and Revolution being a good example, have mentioned that the Christian creeds have been instrumental in shaping the legal views and therefore the legal structure of the West. But a general study of how the creeds formed the West and its unique outlook has always been lacking, the reason being that both Christian and non-Christian authors are eager to constrain the significance of the creeds to the church and the history of theology. Even Philip Schaff in his three-volume work The Creeds of Christendom confines their value and use to the church. The view of the creeds has been dualistic: creeds were separated from history, and history was left to follow its own course independent from the development of Christian theology and the perfection of the faith of the saints. The Unaccommodated Calvin : Studies in the Foundation of a Theological Tradition Richard A. Muller P. J. Zondervan Professor of Historical Theology Calvin Theological Seminary, 2000-01-31 This book attempts to understand Calvin in his 16th century context with attention to continuities and discontinuities between his thought and that of his predecessors, contemporaries, and successors. Muller pays particular attention to the interplay between theological and philosophical
