The Cricketers Whos Who 1989:

The cricketers' who's who 1990 Iain Sproat,1990 **The International Who's Who, 1989-90** ,1989 **British Sport: Biographical studies of British sportsmen, sportswomen, and animals** Richard William Cox,2003 Volume three of a bibliography documenting all that has been written in the English language on the history of sport and physical education in Britain It lists all secondary source material including reference works in a classified order to meet the needs of the sports historian **The Bedders** Alan Hill,2012-01-06 Sporting twins Alec and Eric Bedder are a remarkable duo From humble origins at Woking to their reign as key members of the Surrey team during the magnificent succession of seven championships in the 1950s they share a rare and precious relationship The Bedders is Alan Hill s engrossing study which explores the puzzles of their identical twinship Alec Bedder was England s bowling standard bearer in the years following the Second World War His exceptional strength and prowess yielding almost 1 924 wickets including 236 in 51 Tests He was at the peak of his powers in the 1953 series against Australia when his aggregate of 39 wickets beat the previous record held by Maurice Tate It included match figures of 14 wickets for 99 runs at Nottingham a feat only surpassed against Australia by Wilfred Rhodes Hedley Verity and Jim Laker High among his other distinctions was his record against Don Bradman whom he dismissed on eight occasions After retirement Alex maintained his connection with cricket in fulfilling administrative duties which included a record term as Chairman of the Test selectors Knighted in 1997 for his services to cricket he is the only English bowler to receive the honour *British Sport - a Bibliography to 2000* Richard Cox,2013-12-16 Volume three of a bibliography documenting all that has been written in the English language on the history of sport and physical education in Britain It lists all secondary source material including reference works in a classified order to meet the needs of the sports historian **Who's who of Australian Writers** ,1995 **The International Who's who** H. L. Motter,1911 *Who's who in Australia* ,2007 *Cricket Country* Prashant Kidambi,2019 The extraordinary story of the first All India national cricket tour of Great Britain and Ireland and how the idea of India as a nation took shape on the cricket pitch Rockley Wilson: Remarkable Cricketer, Singular Man Martin Howe,2008-05-01 Though he was an outstanding schoolboy cricketer at Rugby Rockley Wilson 1879 1957 was required to leave the school shortly before his final season for examination irregularities He moved on to Cambridge where brought in to make up a visiting side he scored a century in his first innings in first class cricket Three years later in 1902 he was Cambridge captain Later as a schoolmaster and cricket coach at Winchester College he brought on 39 boys to play first class cricket After he had been out of the side for ten years playing only club and country house cricket Yorkshire decided to give him on merit a regular place in his school vacation as a spin bowler of exceptional accuracy in its mighty elevens on either side of the Great War One August he took over the captaincy and steered the county home to the Championship Selected for the 1920 21 tour of Australia he upset the Australian crowd by writing for the Daily Express about a Test match he was playing in He was widely recognised as a leading authority on cricket and its heritage and

helped to re write the Laws of the game in 1947 He left much of his collection of cricketana to the Lord s museum His wit laced with litotes and literary allusions has been anthologised Few players of any era have matched the diversity of his contribution to the game Martin Howe gives us a comprehensive account of a singular man of plural talents The imperial game Brian Stoddart, Keith A P Sandiford, 2017-03-01 Sports history offers many profound insights into the character and complexities of modern imperial rule This book examines the fortunes of cricket in various colonies as the sport spread across the British Empire It helps to explain why cricket was so successful even in places like India Pakistan and the West Indies where the Anglo Saxon element remained in a small minority The story of imperial cricket is really about the colonial quest for identity in the face of the colonisers search for authority The cricket phenomenon was established in nineteenth century England when the Victorians began glorifying the game as a perfect system of manners ethics and morals Cricket has exemplified the colonial relationship between England and Australia and expressed imperialist notions to the greatest extent In the study of the transfer of imperial cultural forms South Africa provides one of the most fascinating case studies From its beginnings in semi organised form through its unfolding into a contemporary internationalised structure Caribbean cricket has both marked and been marked by a tight affiliation with complex social processing in the islands and states which make up the West Indies New Zealand rugby demonstrates many of the themes central to cricket in other countries While cricket was played in India from 1721 and the Calcutta Cricket Club is probably the second oldest cricket club in the world the indigenous population was not encouraged to play cricket Cricket Nurseries of Colonial Barbados Keith A. P. Sandiford, 1998 This work offers an intriguing and important analysis of the role played by three prestigious grammar schools Combermere School Harrison College and the Loge School in establishing the cricket cult in Barbados and ultimately throughout the Caribbean It goes far towards explaining why Barbadians have traditionally played such excellent cricket This book is the first to make such extensive use of Barbadian school magazines as primary sources for the study of social history The author stresses the statistical first class records of about 200 alumni of the three schools and in so doing furnishes sport sociologists with a considerable new body of empirical data for future use Although it focuses on a Barbadian situation the book should interest cricket enthusiasts everywhere with its many photographs and its lucid and candid treatment of some of the most important personalities in regional and world cricket a few of whom are still actively involved in the sport today

The Road To Excellence K. Anders Ericsson, 2014-03-05 Excellence and the highest levels of performance in the arts and sciences sports and games have always been an object of fascination to both scientists and lay people Only during the last 20 years have scientists studied these levels of performance in the laboratory in order to identify their mediating mechanisms Contrary to the common belief that innate talents are the critical factors for exceptional performance investigators have found that acquired skills knowledge and physiological adaptations in response to intense practice are the primary mechanisms mediating the highest levels of performance This is the first and only book to examine how elite performers

effect their exceptional accomplishments The world's leading researchers on expert performance and creative achievement review theories and recent findings from many different domains of expertise on how experts optimize improvement in their performance and eventually attain excellence Elite performers are shown to have engaged in deliberate practice activities specifically designed to improve their performance from an early age By age 20 they have often accumulated over 10 000 hours of practice The essential elements of deliberate practice such as specific goals to improve performance successive refinement through repetition feedback and instruction are explicated for different domains Although the content of practice tasks will necessarily differ from domain to domain investigators have found invariant characteristics for the optimal duration of practice sessions maximal amounts of daily practice the length of intense preparation around 10 years and ages of peak performance Some of the book's chapters extend the review to the acquisition of everyday life skills such as reading to the performance of teams of experts and to the development of creative achievement geniuses and artistic child prodigies The book concludes with commentaries by several outstanding scientists in psychology education and history of science who discuss the generalizability of presented ideas and raise issues for future issues EXTRA COPY It could be said that striving for excellence is what characterizes humanity or perhaps what characterizes humanity at its best Why do so few individuals ever reach the highest levels when so many start out on the Road to Excellence In this book the world's foremost researchers of expert performance in domains as diverse as sports medicine chess and the arts explore the similarities and differences in the extended and strenuous Road to Excellence taken by the successful individuals in each domain Their findings will intrigue and inspire readers who are themselves driven to achieve or who simply want to better understand the processes involved Who's Who in the World, 1912, 1911 *Jack Robertson and Syd Brown: More Than Just The Warm-Up Act*

Chris Overson, 2013-05-01 North London cricket followers turned to their morning newspapers for eleven summers in 1939 and from 1946 to 1955 to see how Robertson J D and Brown S M had fared as the Middlesex opening batsmen They were not often disappointed The pair opened the batting 366 times and their partnerships put on 14 116 runs reaching 100 runs or more on 35 occasions As memories of their endeavours fade cricket enthusiasts nowadays have perhaps typecast them as the warm up act to the prodigious talents of Bill Edrich and Denis Compton But they were more than that Even that curmudgeonly old critic E M Wellings thought Jack a beautifully fluent stroke maker and Syd a splendid county batsman He thought selectors looked too hard for flaws in Jack's top class batting technique thus restricting him to 11 test matches and he reckoned Syd to be among the finest fielders in the deep Using material from a wide range of sources Chris Overson here writes on their early influences their almost simultaneous start at Lord's in 1934 their inevitable cricketing ups and downs often in those days before crowds of 10 000 or more and their lives after they had left the field of play **Handedness and Brain Asymmetry** Marian Annett, 2002 Are symmetries for hand and brain associated with intelligence spatial reasoning or skill at sports Marian Annett draws on a working lifetime of research to help provide answers to this crucial question The

Book of Fred Andrew Flintoff, 2021-10-28 THE HILARIOUS NEW BOOK FROM ONE OF BRITAIN'S BEST LOVED NATIONAL TREASURES This is not a book of life lessons But Freddie Flintoff has had a moment to reflect and he's noticed that throughout his four decades although there's been little method in the madness there has been the occasional common thread The Book of Fred is filled with anecdotes observations and the odd opinion all told with Fred's trademark humour and no nonsense style Fred's approach to life draws on the sublime his series winning performance in the 2005 Ashes and the ridiculous singing Elvis Presley's Suspicious Minds in front of a live audience from highs making the transition to top TV presenter to occasional lows accidentally upsetting the lovely Bruce Forsyth from the profane discussing Shane Warne's barnet with Hollywood royalty to the profound why having a go leads to self respect Throughout Fred shares his code for success happiness and a life fully lived and gives his readers a laugh some joy and the occasional pause for thought along the way
