The Criminal Color:

Chicana Lives and Criminal Justice Juanita Díaz-Cotto, 2014-10-14 This first comprehensive study of Chicanas encountering the U S criminal justice system is set within the context of the international war on drugs as witnessed at street level in Chicana o barrios Chicana Lives and Criminal Justice uses oral history to chronicle the lives of twenty four Chicana pintas prisoners former prisoners repeatedly arrested and incarcerated for non violent low level economic and drug related crimes It also provides the first documentation of the thirty four year history of Sybil Brand Institute Los Angeles former women s jail In a time and place where drug war policies target people of color and their communities drug addicted Chicanas are caught up in an endless cycle of police abuse arrest and incarceration They feel the impact of mandatory sentencing laws failing social services and endemic poverty violence racism and gender discrimination The women in this book frankly discuss not only their jail experiences but also their family histories involvement with gangs addiction to drugs encounters with the juvenile and adult criminal justice systems and their successful and unsuccessful attempts to recover from addiction and reconstitute fractured families The Chicanas stories underscore the amazing resilience and determination that have allowed many of the women to break the cycle of abuse D az Cotto also makes policy recommendations for those who come in contact with Chicanas Latinas caught in the criminal justice system

Photography on the Color Line

Shawn Michelle Smith, 2004-06-07 An exploration of the visual meaning of the color line and racial politics through the analysis of archival photographs collected by W E B Du Bois and exhibited at the Paris Exposition of 1900 *The System in Black and White* Michael W. Markowitz, Delores D. Jones-Brown, 2000-04-30 In a collection of compelling contributions to the study of the nexus between race crime and justice noted scholars in the field critique many long held assumptions and myths about race challenging criminal justice policymakers to develop new and effective strategies for dealing with the social problems such misunderstandings create In sections devoted to criminological theory law enforcement courts and the law juvenile delinquency and gender contributors endeavor to dispel myths about African American involvement in the criminal justice system In so doing a number of important facts are established about the race crime nexus For example in an analysis of criminological theory it is concluded that race as a singular social factor has not been adequately represented in existing paradigms The subject of police profiling of African Americans reveals an evolution of court decisions that have marginalized rather than liberated African Americans since slavery Each contributor challenges both the reader and the criminal justice system to develop meaningful strategies for addressing the racism that still pervades our system of justice A chapter on women of color in prison makes a compelling argument that such institutions often represent safer environments than the life on the streets women leave behind This persuasive volume will be of interest to undergraduate and graduate students as well as faculty in Sociology Criminal Justice policy development African American and Women s Studies

Commerce in Color James C. Davis, 2010-02-11 Commerce in Color explores the juncture of consumer culture and race by examining advertising

literary texts mass culture and public events in the United States from 1893 to 1933 James C Davis takes up a remarkable range of subjects including the crucial role publishers Boni and Liveright played in the marketing of Harlem Renaissance literature Henry James's critique of materialism in *The American Scene* and the commodification of racialized popular culture in James Weldon Johnson's *The Autobiography of an Ex-Colored Man* as he argues that racial thinking was central to the emergence of U.S. consumerism and conversely that an emerging consumer culture was a key element in the development of racial thinking and the consolidation of racial identity in America By urging a reassessment of the familiar rubrics of the culture of consumption and the culture of segregation Dawson poses new and provocative questions about American culture and social history Both an influential literary study and an absorbing historical read *Commerce in Color* proves that in America advertising publicity and the development of the modern economy cannot be understood apart from the question of race A welcome addition to existing scholarship Davis's study of the intersection of racial thinking and the emergence of consumer culture makes connections very few scholars have considered James Smethurst University of Massachusetts James C Davis is Assistant Professor of English at Brooklyn College *The Many Colors of Crime* Ruth D. Peterson, Lauren J. Krivo, John Hagan, 2006-08 Considering race and ethnicity as organising principles in why how where and by whom crimes are committed and enforced this volume argues that dimensions of race and ethnicity condition the very laws that make certain behaviours criminal and the determination of who becomes a victim of crime under which circumstances *The Color Line in Ohio* Frank Uriah Quillin, 1913 Records and Briefs of the United States Supreme Court, 1832

Intersectionality and Criminology Hillary Potter, 2015-05-15 The use of intersectionality theory in the social sciences has proliferated in the past several years putting forward the argument that the interconnected identities of individuals and the way these identities are perceived and responded to by others must be a necessary part of any analysis Fundamentally intersectionality claims that not only are people's lived experiences affected by their racial identity and by their gender identity but that these identities and others continually operate together and affect each other With official statistical data that indicate people of Color have higher offending and victimization rates than White people and with the overrepresentation of men and people of Color in the criminal legal system new theories are required that address these phenomena and that are devoid of stereotypical or debasing underpinnings Intersectionality and Criminology provides a comprehensive review of the need for and use of intersectionality in the study of crime criminality and the criminal legal system This is essential reading for academics and students researching and studying in the fields of crime criminal justice theoretical criminology and gender race and socioeconomic class Educational Films, 1979 Beyond Prison Walls: Seeking Justice Pasquale De Marco, 2025-08-12 Beyond Prison Walls Seeking Justice is a comprehensive guide to the problems facing the criminal justice system in the United States and offers solutions for reform In this book you will learn about The high cost of mass incarceration The impact of prison on public health The economics of incarceration Race and

Why Are People Different Colors? Pasquale De Marco, The color of our skin is one of the most visible and striking human characteristics It is a source of both beauty and discrimination and it has been used to justify everything from slavery to genocide But what exactly is skin color and how does it work In this book we will explore the science history and social impact of skin color We will learn how skin color is determined by genetics and the environment and how it has been used to create and maintain social hierarchies We will also discuss the challenges faced by people of color and the ways in which we can work to create a more just and equitable society One of the most important things to understand about skin color is that it is a natural variation There is no one normal skin color and all skin colors are beautiful However the history of skin color is not so simple In many societies people with darker skin have been discriminated against and treated as inferior This discrimination has had a devastating impact on the lives of people of color and it continues to be a major problem in many parts of the world Today we are finally beginning to understand the true nature of skin color We are learning that it is a complex trait that is influenced by a variety of factors We are also learning that skin color is not a measure of worth or intelligence All people regardless of their skin color deserve to be treated with respect and dignity This book is a celebration of the diversity of human skin color We hope that it will help to educate people about the science and history of skin color and that it will inspire people to work towards a more just and equitable society If you like this book write a review

Robbins,2008-07-15 Winer of the 2008 Critics Choice Award presented by the American Educational Studies Association Expelling Hope raises critical questions about the effects of punitive policies particularly zero tolerance and repressive social relationships on youth of color and public schooling It argues convincingly that zero tolerance is a catchword or linchpin for an array of discourses and social practices that support the criminalization of youth the militarization of public schooling and culture and the marketization of public life Politically impassioned and intellectually rigorous the book provides the framework for an alternative vision of youth and schooling one rooted in hope that calls for youth to be treated as agents of a democratic future **The Southern Reporter** ,1917 Critical and Intersectional Gang Studies Jennifer M.

Ortiz,2023-04-13 This book offers a critical and empirical examination of gang life using an intersectional framework considering race class gender and other characteristics The book reexamines mainstream definitions of gangs identifies myths and misconceptions and presents the complex subcultural or countercultural realities of gang members and their associates Special attention is given to the importance of structural violence experienced by gang members and their communities This book also interrogates how mainstream gang research is complicit in the oppression of marginalized individuals who join gangs Assembling contributions from leading experts involved in gang research and the investigation of street gang culture this book provides a perspective often missing in the conversation around gangs Direct input from current and former gang members provides a window into the lived experiences of gang life a picture more accurate and useful than that afforded by the privileged lens often used in gang research Reliance on an intersectional approach fosters a non pathological and critical look at gangs and their members Critical and Intersectional Gang Studies is intended for students and scholars involved in the study of gangs delinquency and subcultural theory and will serve as a reference for researchers who wish to utilize a progressive critical and intersectional approach to study the impacts of gangs **The**
