The present study may be best suited as a textbook companion and reader for college majors of sociology psychology and the criminal justice system It offers an analysis after each summary of the criminal cases presented which addresses the perpetrators mentality motivation and rationalization for committing crimes As the title suggests pride is considered crucial in the criminal mind and can often be found as a catalyst justification and even a right to The Transformation of the Criminal criminal behavior The Unmakin' of the Criminal Mind Bobby Delgado, 2001-07 Mind John W. Hall, 2014-04-24 THE SHIFT FROM EGO CRIMINAL THOUGHTS TO RIGHT MINDED THINKING Have you ever wondered how an Offender can ever reverse his thinking to adopt a mental set to never violate laws again I did too therefore I took a Masters Course in the Masters program titled Correctional Counseling I believed at that time that the rehabilitation of a criminal was nearly impossible I also began attending regular meetings and studied the coursework of the book A Course in Miracles Initially I studied this spiritual work to improve my own personal relationships During the same time period I was an active Deputy Probation Officer in Santa Clara County Ca I had a caseload of 150 Felon Offenders and was charged with both counseling them and writing recommendations of either prison or local probation This book is a combination of all those experiences in my life to come to the conclusion that every Offender needs to change his Mind in order not to recidivate And I needed to tap into what factors life history family background psychological social financial spiritual were the driving forces which drove him to repeat his crimes and in most cases to jail or prison Each prisoner possessed belief systems which were detrimental to their progress in life Yes there were abuses the Offenders suffered in their younger years including neglect by their parent Yes many of them were raised in religious homes Yes many of them dropped out of school too soon and began hanging around with delinquent kids Yes many came from one parent families and yes many homes where one or both parents were addicts However none of those causes of the crimes fully explained the more vicious crimes the heavy substance abuse the ongoing disrespect for both males and females Nor I discovered did knowing all these factors enable the professionals who reached out to them make a significant difference to change their way of thinking This was the great frustration for workers in the D A s office Public Defenders offices Defense attorneys or Judges in rendering their opinion and judgements of how to influence these Offenders in a positive way So how do you change a person to stop the crimes and lead a life free from the justice system It was a struggle for me to begin to see the errors in

Offenders and begin to realize they had the power to change from within but refused to access their power and sense of right and wrong decision making Finally the inspiration of Holy Spirit who speaks in the Course in Miracles led me to some conclusions I had never considered namely that a person needs to go through a purification process and eliminate fear from their thinking before Holy Spirit or Higher Power can inspire them to change Finally a reading of this book can help the offender to awaken to the possibility of changing ones mind and learning to become a loving human being whether one is in prison or on the outside It is my hope this book will provide Offenders with some of the tools of thinking which for many could lead to less time in custody developing a more peaceful state while behind bars and having healthy relationships that they were unable to establish while in fear and in ego thinking as described in the book My prayers go out to all who read this book and may it benefit you beyond your wildest dreams Sincerely John Hall AuthorP S Another book will follow titled Offenders Transformation Workbook a series of questions and answers fill in the blanks and further explanations of how transformation works Designed for prisoners in custody and anyone working with Offenders in the Criminal Justice arena Excellent source book for relatives of offenders and university professors and students JOHN W HALL AUTHOR916 705 6624
