## **The Critical Reception Of James Baldwin In France:**

*The Critical Reception of James Baldwin in France* Rosa Bobia, 1997 James Baldwin's reputation has to a large extent been studied as an isolated American phenomenon This book length study is the first that examines the large body of criticism by French language critics The wealth of documents makes possible the comparison of African critics of French expression of African American literature and allows for comparisons of Francophone and American critics as well James Baldwin is the most intensely studied author in France among the postwar group of African American authors since Richard Wright This study shows that the complex and substantive reasons for Baldwin's success go beyond the obvious interest of the French in African American literature and his intermittent stay in France for nearly four decades BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *The Critical Reception of James Baldwin, 1963-2010*

All Those Strangers Douglas Field, 2015 Adored by many appalling to some baffling still to others few authors defy any single critical narrative to the confounding extent that James Baldwin manages Was he a black or queer writer Was he a religious or secular writer Was he a spokesman for the civil rights movement or a champion of the individual His critics as disparate as his readership endlessly wrestle with paradoxes not just in his work but also in the life of a man who described himself as all those strangers called Jimmy Baldwin and who declared that all theories are suspect Viewing Baldwin through a cultural historical lens alongside a more traditional literary critical approach *All Those Strangers* examines how his fiction and nonfiction shaped and responded to key political and cultural developments in the United States from the 1940s to the 1980s Showing how external forces molded Baldwin's personal political and psychological development Douglas Field breaks through the established critical difficulties caused by Baldwin's geographical ideological and artistic multiplicity by analyzing his life and work against the radically transformative politics of his time The book explores under researched areas in Baldwin's life and work including his relationship to the Left his FBI files and the significance of Africa in his writing while also contributing to wider discussions about postwar US culture Field deftly navigates key twentieth century themes the Cold War African American literary history conflicts between spirituality and organized religion and transnationalism to bring a number of isolated subjects into dialogue with each other By exploring the paradoxes in Baldwin's development as a writer rather than trying to fix his life and work into a single framework *All Those Strangers* contradicts the accepted critical paradigm that Baldwin's life and work are too ambiguous to make sense of By studying him as an individual and an artist in flux Field reveals the manifold ways in which Baldwin's work develops and coheres Of Latitudes Unknown Alice Mikal Craven, William E. Dow, Yoko Nakamura, 2019-02-07 *Of Latitudes Unknown* is a multi faceted study of James Baldwin's radical imagination It is a selective and thoughtful survey that re investigates the grounds of Baldwin studies and provides new critical approaches subjects and orientations for Baldwin criticism This volume joins recent critical collections in un fragmenting Baldwin and establishing further conjunctions in his work the essay and the novel the polemical and the aesthetic his use of and participation in visual forms and his American as well as international identities But it goes beyond

other recent studies by focusing on new entities of Baldwin's radical imagination his English and French language selves his late encounters with Africa his appearances on French television and interviews with French journalists and his unrecognized literary journalism *Of Latitudes Unknown* also addresses Baldwin's relations with the Arab world his anticipation of contemporary film and media studies and his paradoxical public intellectualism As it reassesses Baldwin's contributions to and influences on world literary history *Of Latitudes Unknown* equally explores why the critical appreciation of Baldwin's writing continues to flourish and why it remains a vast territory whose parts lie open to much deeper exploration and elaboration

*James Baldwin* Douglas Field, 2011 This study provides an engaging overview and clear analysis of the fiction non-fiction and drama of African American writer James Baldwin 1924-1987 Whilst giving close attention to Baldwin's popular works such as *Go Tell it on the Mountain* and *Another Country* it also explores the important but less well-known themes and texts including the use of the blues masculinity race and sexuality

*Encyclopedia of African American History* Leslie M. Alexander, Walter C. Rucker, 2010-02-09 A fresh compilation of essays and entries based on the latest research this work documents African American culture and political activism from the slavery era through the 20th century *Encyclopedia of African American History* introduces readers to the significant people events sociopolitical movements and ideas that have shaped African American life from earliest contact between African peoples and Europeans through the late 20th century This encyclopedia places the African American experience in the context of the entire African diaspora with entries organized in sections on African European contact and enslavement culture resistance and identity during enslavement political activism from the Revolutionary War to Southern emancipation political activism from Reconstruction to the modern Civil Rights movement black nationalism and urbanization and Pan Africanism and contemporary black America Based on the latest scholarship and engagingly written there is no better go-to reference for exploring the history of African Americans and their distinctive impact on American society politics business literature art food clothing music language and technology

*Not Straight, Not White* Kevin Mumford, 2016-01-12 This compelling book recounts the history of black gay men from the 1950s to the 1990s tracing how the major movements of the times from civil rights to black power to gay liberation to AIDS activism helped shape the cultural stigmas that surrounded race and homosexuality In locating the rise of black gay identities in historical context Kevin Mumford explores how activists performers and writers rebutted negative stereotypes and refused sexual objectification Examining the lives of both famous and little-known black gay activists from James Baldwin and Bayard Rustin to Joseph Beam and Brother Grant Michael Fitzgerald Mumford analyzes the ways in which movements for social change both inspired and marginalized black gay men Drawing on an extensive archive of newspapers pornography and film as well as government documents organizational records and personal papers Mumford sheds new light on four volatile decades in the protracted battle of black gay men for affirmation and empowerment in the face of pervasive racism and homophobia

**Re-viewing James Baldwin** Daniel Quentin Miller, 2000 This new collection of essays presents a critical

reappraisal of James Baldwin's work looking beyond the commercial and critical success of some of Baldwin's early writings such as *Go Tell it on the Mountain* and *Notes of a Native Son*. Focusing on Baldwin's critically undervalued early works and the virtually neglected later ones, the contributors illuminate little known aspects of this daring author's work and highlight his accomplishments as an experimental writer. Attentive to his innovations in style and form, *Things Not Seen* reveals an author who continually challenged cultural norms and tackled matters of social justice, sexuality, and racial identity. As volume editor D. Quentin Miller notes, what has been lost is a complete portrait of Baldwin's tremendously rich intellectual journey that illustrates the direction of African American thought and culture in the late twentieth century. This is an important book for anyone interested in Baldwin's work. It will engage readers interested in literature and African American Studies. Author note: D. Quentin Miller is Assistant Professor of English at Gustavus Adolphus College, Saint Peter, MN.
