The Crystallization Of The Iraqi State Geopolitical Function And Form:

The Crystallization of the Iraqi State Zoë Preston, 2003 *The Crystallization of the Iraqi State* Zoe Elizabeth Preston, University of London, 2001 **Reforging a Forgotten History: Iraq and the Assyrians in the Twentieth Century** Sargon Donabed, 2015-02-01 Who are the Assyrians and what role did they play in shaping modern Iraq Were they simply bystanders victims of collateral damage who played a passive role in the history of Iraq And how have they negotiated their position throughout various periods of Iraq's state building processes This book details the narrative and history of Iraq in the 20th century and reinserts the Assyrian experience as an integral part of Iraq's broader contemporary historiography It is the first comprehensive account to contextualize this native people's experience alongside the developmental processes of the modern Iraqi state Using primary and secondary data this book offers a nuanced exploration of the dynamics that have affected and determined the trajectory of the Assyrians experience in 20th century Iraq **Unsettling Colonial Modernity in Islamicate Contexts** Kara Adbolmaleki, Roxana Akhbari, Siavash Saffari, 2017-05-11 By focusing on colonial histories and legacies this edited volume breaks new ground in studying modernity in Islamicate contexts From a range of disciplinary perspectives the authors probe colonial modernity as a condition whose introduction into Islamicate contexts was facilitated historically by European encroachment into South Asia the Middle East and Northern Africa They also analyze the various modes through which in Europe itself and in North America by extension people from Islamicate contexts have been and continue to be otherized in the constitution and advancement of the project of modernity The book further brings to light a multiplicity of social political cultural and aesthetic modes of resistance aimed at subverting and unsettling colonial modernity in both Muslim majority and diasporic contexts *Transnational Identity and Memory Making in the Lives of Iraqi Women in Diaspora* Nadia` Jones-Gailani, 2020-08-26 This book draws on an extensive archive of over one hundred oral narratives collected and recorded with Iraqi women in three sites Amman Detroit and Toronto Nadia Jones Gailani demonstrates how the relationships between ethno religious migrants nation and citizenship are shaped by the traumatic experiences of forced displacement and integration into new communities and national imaginaries This book also examines the broader historical trends that have precipitated migration from Iraq While informed by research into the archival documentary record on Iraqis in North America this book is first and foremost a study of gender and memory that focuses on women's oral histories By historicizing the process through which ethno religious and ethno national communities become fractured and remade Jones Gailani explores the expectations and realities of women as the supposed biological and cultural reproducers of the nation The Iraqi women featured in this book assert their claims to belonging across three different generations thereby opening up spaces to discuss how sites of migration shape the ability of migrants to lobby for the homeland even as they engage in daily struggles to advance their education and economic stability abroad **Territory, State and Nationalism** Adel Soheil, 2018-10-18 The Sykes Picot Agreement map signed in May 1918 by the Imperial powers of

Great Britain and France constituted the blueprint for redrawing the map of the Middle East after the dismemberment of the Ottoman Empire in 1918 by the victorious Allies thus dividing the Arab territories as well as Kurdistan into its current form In this book the author makes an ambitious attempt to provide a comprehensive new insight into the Kurdish national movement and its struggle against the mandatory power the British and the Iraqi government for achievement of national self determination from 1918 to 1932 The book explores both Kurdish and Arab nationalism within the context of power relations in international politics at the time on the one hand and in relation to domestic political development in Iraq on the other Thereby salient issues are explored inter alia the reasons for the British failure to create a modern national state in Iraq the reluctance of the Anglo Iraqi authorities to accommodate Kurdish rights and their policy to incorporate Kurdistan into the nascent Iraqi state the U S interests and implication in the region and the impact of the principle of self determination advocated by President Wilson on Kurdish and Arab nationalism Revised with a new chapter

Saudi Arabia and Iraq as Friends and Enemies Joshua Yaphe, 2021-12-21 Saudi Arabia and Iraq have a shared history as both friends and enemies at one and the same time and their growth as modern nation states must be understood in that joint context This book establishes a new narrative and timeline for bilateral relations between the two countries while examining the work of other Arab and Western scholars in order to excavate the biases underlying so much previous work on this topic In doing so it proposes a new way of looking at state formation and boundaries in the Middle East by showing how the interactions of regional neighbors left an indelible imprint on the domestic politics of one another The two different visions for managing the border that Saudi Arabia and Iraq developed in the 1920s generated mistrust on both sides leading to a gradual process of estrangement that lasted through the 1950s and beyond Ibn Saud made strenuous efforts to preserve the socio economic ties that united the communities of southern Iraq with the Najd and in turn those efforts helped encourage a wave of Sunni Arab migrants from Iraq who helped build the Saudi state Iraqi politicians and clerics attempted to use the issue of Ikhwan raids as a rallying cry for promoting their political agendas thereby contributing to a growing sectarian discourse and undermining the nationalist rhetoric of the 1920 Revolution The two countries had a remarkable and long lasting impact on one another even as they drifted farther and farther apart through mutual fear and suspicion

Sectarianism in Iraq Khalil Osman, 2014-10-10 This book links sectarianism in Iraq to the failure of the modern nation state to resolve tensions between sectarian identities and concepts of unified statehood and uniform citizenry After a theoretical excursus that recasts the notion of primordial identity as a socially constructed reality the author sets out to explain the persistence of sectarian affiliations in Iraq since its creation following the dismemberment of the Ottoman Empire Despite the adoption of homogenizing state policies the uneven sectarian composition of the ruling elites nurtured feelings of political exclusion among marginalized sectarian groups the Shicites before 2003 and the Sunnis in the post 2003 period The book then examines how communal discourses in the educational curriculum provoked masked forms of resistance that sharpened

sectarian consciousness Tracing how the anti Persian streak in the nation state s Pan Arab ideology which camouflaged anti Shicism undermined Iraq s national integration project Sectarianism in Iraq delves into the country s slide from a totalizing Pan Arab ideology in the pre 2003 period toward the atomistic impulse of the federalist debate in the post 2003 period Employing extensive fieldwork this book sheds light on the dynamics of political life in post Saddam Iraq and is essential reading for Iraqi and Middle East specialists as well as those interested in understanding the current heightening of sectarian Sunni Shicite tensions in the Middle East *Iraq* Heather Bleaney,Roper,Peter Sluglett,2004-06-01 Well considered answers to the many questions raised by the situation in Iraq past and present are rare This first comprehensive thematically organised bibliography devoted to Iraq is based on the full Index Islamicus database and is drawn from a wide variety of European language journals and books Featuring an extensive introduction to the subject and its literature by Peter Sluglett this bibliography will help readers to find their way through the massive secondary literature now available Following the pattern established by the Index Islamicus both journal articles and book publications are included as well as important internet resources The editors have taken care to add much new material to bring its coverage up to date and supplement the previously published volumes while the most important and or influential publications are conveniently highlighted in the introduction An indispensable gateway for all those with a more than superficial interest in what is and what has been happening in this nation so much the focus of attention today **Book Review Index Cumulation** Dana Ferguson,2005-09 Book Review Index provides quick access to reviews of books periodicals books on tape and electronic media representing a wide range of popular academic and professional interests The up to date coverage wide scope and inclusion of citations for both newly published and older materials make Book Review Index an exceptionally useful reference tool More than 600 publications are indexed including journals and national general interest publications and newspapers Book Review Index is available in a three issue subscription covering the current year or as an annual cumulation covering the past year **Middle East Patterns** Colbert C.
