The Cure Gerald Locklin, 1979 *Ultimate Speed-Reading Book* Tina Konstant, 2003-09 **International Who's Who in Poetry 2005** Europa Publications, 2004-08-02 The 13th edition of the International Who's Who in Poetry is a unique and comprehensive guide to the leading lights and freshest talent in poetry today Containing biographies of more than 4 000 contemporary poets world wide this essential reference work provides truly international coverage In addition to the well known poets talented up and coming writers are also profiled Contents Each entry provides full career history and publication details An international appendices section lists prizes and past prize winners organizations magazines and publishers A summary of poetic forms and rhyme schemes The career profile section is supplemented by lists of Poets Laureate Oxford University professors of poetry poet winners of the Nobel Prize for Literature winners of the Pulitzer Prize for American Poetry and of the King's Queen's Gold medal and other poetry prizes *The Physiology of the Novel* Nicholas Dames, 2007-09-27 How did the Victorians read novels Nicholas Dames answers that deceptively simple question by revealing a now forgotten range of nineteenth century theories of the novel a range based in a study of human physiology during the act of reading He demonstrates the ways in which the Victorians thought they read and uncovers surprising responses to the question of what might have transpired in the minds and bodies of readers of Victorian fiction His detailed studies of novelcritics who were also interested in neurological science combined with readings of novels by Thackeray Eliot Meredith and Gissing propose a vision of the Victorian novel reader as far from the quietly immersed being we now imagine as instead a reader whose nervous system was addressed attacked andsoothed by authors newly aware of the neural operations of their public Rich in unexpected intersections from the British response to Wagnerian opera to the birth of speed reading in the late nineteenth century *The Physiology of the Novel* challenges our assumptions about what novel reading once did and still does to the individual reader and provides new answers to the question of how novels influenced a culture's way of reading responding and feeling **The Anthology and the Rise of the Novel** Leah Price, 2003-07-17 *The Anthology and the Rise of the Novel* first published in 2000 brings together two traditionally antagonistic fields book history and narrative theory to challenge established theories of the rise of the novel Leah Price shows that far from leveling class or gender distinctions as has long been claimed the novel has consistently located them within its own audience Shedding new light on Richardson and Radcliffe Scott and George Eliot this book asks why the epistolary novel disappeared how the book review emerged why eighteenth century abridgers designed their books for women while Victorian publishers marketed them to men and how editors reproduction of old texts has shaped authors production of new ones This innovative study will change the way we think not just about the history of reading but about the genealogy of the canon wars the future of intellectual property and the role that anthologies play in our own classrooms *Books for Schools and the Treatment of Minorities* United States.
