The Daily Evening and Morning Offering (Agnihotra) According to the Brāhmaṇas Bodewitz, 2024-03-11 **The Daily Evening and Morning Offering** H. W. Bodewitz, 1976 *The Daily Evening and Morning Offering (Agnihotra) According to the Brāhmaṇas* H. W. Bodewitz, 2003 both the history of religions and Buddhist studies by focusing on what is a *Sacred Sacrifice* Rick F. Talbott, 2005-11-01 *Sacred Sacrifice* examines how analogous mythological ideas and the experience of sacred presence during the ritual act created similar ritual paradigms in two non contiguous cultures Vedic fire sacrifice the Horse sacrifice in ancient India and the sacrificial development of the Christian Eucharist serve as examples This book takes to task theories on sacrifice and ritual that emphasize the psycho social and functionalist interpretation to the exclusion of the religious The relationship between myth and ritual and conscious and unconscious human behavior emerges from this analysis of universal religious structures *Textual Sources for the Study of Hinduism* , 1990-10-15 A wider range than usual of Sanskrit texts not only interesting Vedic epic and mythological texts but also a good sampling of ritual and ethical texts There are also extracts from texts usually neglected such as medical treatises works on practical politics and guides to love and marriage Readings from the vernacular Hindi Bengali and Tamil traditions serve to enrich the collection and demonstrate how Hinduism flourished not just in Sanskrit but also in its many mother tongues Francis X Clooney *Journal of Asian Studies* *Beyond Sacred Violence* Kathryn McClymond, 2008-07-02 Winner 2009 Georgia Author of the Year Award for Creative Nonfiction For many Westerners the term sacrifice is associated with ancient often primitive ritual practices It suggests the death frequently violent often bloody of an animal victim usually with the aim of atoning for human guilt Sacrifice is a serious ritual culminating in a dramatic event The reality of religious sacrificial acts across the globe and throughout history is however more expansive and inclusive In *Beyond Sacred Violence* Kathryn McClymond argues that the modern Western world's reductive understanding of sacrifice simplifies an enormously broad and dynamic cluster of religious activities Drawing on a comparative study of Vedic and Jewish sacrificial practices she demonstrates not only that sacrifice has no single essential identifying characteristic but also that the elements most frequently attributed to such acts death and violence are not universal McClymond reveals that the world of religious sacrifice varies greatly including grain based offerings precious liquids and complex interdependent activities Engagingly argued and written *Beyond Sacred Violence* significantly extends our understanding of religious sacrifice and serves as a timely reminder that the field of religious studies is largely framed by Christianity **Homa Variations** Richard K. Payne, Michael Witzel, 2016 Throughout human history and across many religious cultures offerings are made into fire The essays collected in *Homa Variations* provide detailed studies of this practice known in the tantric world as the homa from its inception up to the present **Vedic Voices** David M. Knipe, 2015-04-01 David M Knipe studies four generations of ten families living in the Godavari Delta of coastal Andhra Pradesh examining their lives ancestral lineages choices as pandits relationships to wives and children and ways of

Cumming,2019-12-15 Torah and Nondualism is a commentary on the Torah or Pentateuch meaning five books written in the form of five essays one for each book It reconciles modern biblical scholarship with the Jewish hermeneutical techniques recorded in the Zohar and shows that the meanings these interpretive techniques reveal are so consistent and illuminating throughout the Bible that they must have been intended by its redactors By combining these traditional methods with modern insights the book uncovers hidden themes in the Bible that other commentaries have overlooked Specifically Torah and Nondualism discovers a syncretistic subtext in the Pentateuch aimed at reconciling two religious cultures one rooted in Egyptian esoteric tradition and the other in Canaanite mythology and practice In later times these two religious cultures corresponded roughly to two rival kingdoms Judah and Israel The Torah ingeniously harmonizes this spiritual and political rift When this subtext is fully appreciated it is recognizable in all the Torah s most obscure rituals Even those priestly rites associated with temple worship are understandable The bitter rebellion against Moses and Aaron s leadership is presented in terms of the Torah s effort to harmonize conflict sometimes by demanding great personal sacrifice Illustrated to make the complexities of scribal hermeneutics readily accessible to the nonexpert Torah and Nondualism requires no prior knowledge

of Hebrew and introduces the reader to an esoteric level of Bible interpretation previously known only to a small group of trained Hebrew scribes Its intelligent and well supported analysis promises to change the way you think about the Bible

The 'Grammar' of Sacrifice Naphtali S. Meshel,2014-07-31 The notion that rituals like natural languages are governed by implicit rigorous rules led scholars in the last century harking back to the early Indian grammarian Patajali to speak of a grammar or syntax of ritual particularly sacrificial ritual Despite insightful examples of ritual complexes that follow hierarchical rules akin to syntactic structures in natural languages and ambitious attempts to imagine a Universal Grammar of sacrificial ritual no single comprehensive grammar of any ritual system has yet been composed This book offers the first such grammar Centering on the idealized sacrificial system represented in the Priestly laws in the Pentateuch it demonstrates that a ritual system is describable in terms of a set of concise unconsciously internalized generative rules analogous to the grammar of a natural language Despite far reaching diachronic developments reflected in Second Temple and rabbinic literature the ancient Israelite sacrificial system retained a highly unchangeable grammar which is abstracted and analysed in a formulaic manner The limits of the

analogy to linguistics are stressed rather than categories borrowed from linguistics such as syntax and morphology the operative categories of are abstracted inductively from the ritual texts zoemics the study of the classes of animals used in ritual sacrifice jugation the rules governing the joining of animal and non animal materials hierarchics the tiered structuring of sacrificial sequences and praxemics the analysis of the physical activity comprising sacrificial procedures Finally the problem of meaning in non linguistic ritual systems is addressed

Belief, Bounty, and Beauty Albertina Nugteren,2018-08-14 This study is focused on the interaction of material and symbolic values in the domain of sacred trees in India By presenting samples from 3 000 years of Indian ritual practice it is shown that in many sacred geographies trees continue to connect the present with

the past the material with the symbolic and the contemporary ecological with the traditionally sacred Although in India religion may have become very much a temple cult its embeddedness in the natural world enhances today's green interpretation of religious traditions That in environmental matters such religious inspiration may be both successful and highly ambivalent at the same time is the thought provoking position taken in the final chapters

The Broken World of Sacrifice J. C. Heesterman, 2012-12-10 In this book J C Heesterman attempts to understand the origins and nature of Vedic sacrifice the complex compound of ritual practices that stood at the center of ancient Indian religion Paying close attention to anomalous elements within both the Vedic ritual texts the brahmanas and the ritual manuals the *śrautasūtras* Heesterman reconstructs the ideal sacrifice as consisting of four moments killing destruction feasting and contest He shows that Vedic sacrifice all but exclusively stressed the offering in the fire the element of destruction at the expense of the other elements Notably the contest was radically eliminated At the same

time sacrifice was withdrawn from society to become the sole concern of the individual sacrificer. The ritual turns in on the individual as self sacrificer who realizes through the internalized knowledge of the ritual the immortal Self. At this point the sacrificial cult of the fire recedes behind doctrine of the atman's transcendence and unity with the cosmic principle the brahman. Based on his intensive analysis Heesterman argues that Vedic sacrifice was primarily concerned with the broken world of the warrior and sacrificer. This world already broken in itself by the violence of the sacrificial contest was definitively broken up and replaced with the ritualism of the single unopposed sacrificer. However the basic problem of sacrifice the riddle of life and death keeps breaking too surface in the form of incongruities contradictions tensions and oppositions that have perplexed both the ancient ritual theorists and the modern scholar. Religious Giving and the Invention of Karma in Theravada Buddhism James Egge, 2013-12-16 Demonstrates that Buddhists appropriated the practice vocabulary and ideology of sacrifice from Vedic religion and discusses the relationship of this sacrificial discourse to ideas of karma in the Pali canon and in early Buddhism.
