The Wars for Asia, 1911-1949 S. C. M. Paine, 2014-10-09 The Wars for Asia 1911 1949 shows that the Western treatment of World War II the Second Sino Japanese War and the Chinese Civil War as separate events misrepresents their overlapping connections and causes The Chinese Civil War precipitated a long regional war between China and Japan that went global in 1941 when the Chinese found themselves fighting a civil war within a regional war within an overarching global war The global war that consumed Western attentions resulted from Japan s peripheral strategy to cut foreign aid to China by attacking Pearl Harbour and Western interests throughout the Pacific in 1941 S C M Paine emphasizes the fears and ambitions of Japan China and Russia and the pivotal decisions that set them on a collision course in the 1920s and 1930s The resulting wars together yielded a viscerally anti Japanese and unified Communist China the still angry rising power of the early twenty first century

Japan in the World Klaus Schlichtmann,2009-04-16 The twentieth century is as remarkable for its world wars as it is for its efforts to outlaw war in international and constitutional law and politics *Japan in the World* examines some of these efforts through the life and work of Shidehara Kijuro who was active as diplomat and statesman between 1896 until his death in 1951 Shidehara is seen as a guiding thread running through the first five decades of the twentieth century Through the 1920s until the beginning of the 1930s his foreign policy shaped Japan s place within the community of nations The positive role Japan

played in international relations and the high esteem in which it was held at that time goes largely to his credit As Prime Minister and man of the hour after the Second World War he had a hand in shaping the new beginning for post war Japan instituting policies that would start his country on a path to peace and prosperity Accessing previously unpublished archival materials Schlichtmann examines the work of this pacifist statesman situating Shidehara within the context of twentieth century statecraft and international politics While it was an age of devastating total wars that took a vast toll of civilian lives the politics and diplomatic history between 1899 and 1949 also saw the light of new developments in international and constitutional law to curtail state sovereignty and reach a peaceful order of international affairs Japan in the World is an essential resource for understanding that nation s contributions to these world changing developments *Creating Market Socialism* Carolyn L. leader of the Kuomintang KMT began the northern expeditions to bring China's northern territories back under the control of the state. It was during this period that the KMT purged communist activities, fractured the army, and sparked the Chinese Civil War, which would rage for over twenty years. The communists, led by General Mao Tse Tung, were for much of the period forced underground and concentrated in the Chinese countryside. As the author argues, this resulted in China's war featuring unusually high levels of espionage and sabotage and increased the military importance of information gathering. Based on newly declassified material, Panagiotis Dimitrakis charts the double crossings, secret meetings, and bloody assassinations which would come to define China's future. Uniquely, *The Secret War for China* gives equal weighting to the role of foreign actors, the role of British intelligence in unmasking Communist International Comintern agents in China, for example, and the allies' attempts to turn nationalist China against the Japanese. *The Secret War for China* also documents the clandestine confrontation between Mao and Chiang and the secret negotiations between Chiang and the Axis Powers, whose forces he employed against the CCP once the Second World War was over. In his turn, Mao employed nationalist forces who had defected during the last three years of the civil war; about 105 out of 869 KMT generals defected to the CCP. This book is an urgent and necessary guide to the intricacies of the Chinese Civil War, a war which decisively shaped the modern Asian world.

The Making of Japanese Manchuria, 1904-1932 Yoshihisa Tak Matsusaka, 2020-03-23

In this history of Japanese involvement in northeast China, the author argues that Japan's military seizure of Manchuria in September 1931 was founded on three decades of infiltration of the area. This incremental empire building and its effect on Japan are the focuses of this book. The principal agency in the piecemeal growth of Japanese colonization was the South Manchurian Railway Company, and by the mid 1920s Japan had a deeply entrenched presence in Manchuria and exercised a dominant economic and political influence over the area. Japanese colonial expansion in Manchuria also loomed large in Japanese politics, military policy, economic development, and foreign relations, and deeply influenced many aspects of Japan's interwar history.
