The Black Problem Papers And Addresses On Various Native Problems:

Africans on African-Americans Yekutieli Gershoni, 2016-07-27 Between the end of the nineteenth century and the outbreak of World War 2 Africans displaced by colonial rule created an African American myth a myth which aggrandized the life and attainments of African Americans despite full knowledge of the discrimination to which they were subjected The myth provided Africans in all parts of the continent with much needed succour and underpinned various religious educational political and social models based on the experience of African Americans whereby Africans sought to better their own lives

Poverty Knowledge in South Africa Grace Davie, 2015-02-05 Poverty is South Africa's greatest challenge But what is poverty How can it be measured And how can it be reduced if not eliminated In South Africa human science knowledge about the cost of living grew out of colonialism industrialization apartheid and civil resistance campaigns which makes this knowledge far from neutral or apolitical South Africans have used the Poverty Datum Line PDL Gini coefficients and other poverty thresholds to petition the state to chip away at the pillars of white supremacy and more recently to criticize the postapartheid government's failures to deliver on some of its promises Rather than promoting one particular policy solution this book argues that poverty knowledge teaches us about the dynamics of historical change the power of racism in white settler societies and the role of grassroots protest movements in shaping state policies and scientific categories Readers will gain new perspectives on today's debates about social welfare redistribution and human rights and will ultimately find reasons to rethink conventional approaches to advocacy

Congo Love Song Ira Dworkin, 2017-04-27 In his 1903 hit Congo Love Song James Weldon Johnson recounts a sweet if seemingly generic romance between two young Africans While the song's title may appear consistent with that narrative it also invokes the site of King Leopold II of Belgium's brutal colonial regime at a time when African Americans were playing a central role in a growing Congo reform movement In an era when popular vaudeville music frequently trafficked in racist language and imagery Congo Love Song emerges as one example of the many ways that African American activists intellectuals and artists called attention to colonialism in Africa In this book Ira Dworkin examines black Americans long cultural and political engagement with the Congo and its people Through studies of George Washington Williams Booker T Washington Pauline Hopkins Langston Hughes Malcolm X and other figures he brings to light a long standing relationship that challenges familiar presumptions about African American commitments to Africa Dworkin offers compelling new ways to understand how African American involvement in the Congo has helped shape anticolonialism black aesthetics and modern black nationalism

Resistance Shane Moran, 2021-04-19 In *Resistance* Sol Plaatje and South Africa Shane Moran studies

Sol Plaatje the founding secretary of what was to become the African National Congress ANC and his work within the context of colonial politics and resistance Arguing for a return to the study of one of the founders of anti racism Moran explores issues of land reform human rights and the legacy of colonialism Through an in depth analysis of Plaatje s resistance to racial domination Moran examines the nature of the struggles that continue within and beyond South Africa today In particular Moran analyzes events from the beginning of the previous century that shaped post 1994 South Africa such as the resolution of the ANC to expropriate land without compensation *100 Years of Struggle - Mandela's ANC* Heidi Holland,2012-09-28 Despite the African National Congress being at the height of its powers its future is today less certain than at any time in its long history In the past the liberation movement went through two huge transformations with remarkable agility the first at the instigation of the hot headed young rebel Nelson Mandela He brought about changes that drove the organisation from gentlemanly petitions to armed resistance The second great shake up in the ANC occurred twenty two years ago as Mandela emerged from prison when the movement transformed itself from deep socialist militancy to centre left political conformity But it was at the time dominated by realistic courageous leaders like Mandela Sisulu and Tambo who are no longer steering the vast juggernaut through the third revolution that is under way now The ANC s struggle for freedom was supposed to have ended with its election to office in 1994 when it defeated apartheid But rampant unemployment income distribution as skewed as anywhere on earth catastrophic corruption inferior education and lingering racial tensions cast shadows that lengthen with each passing year Whether the ANC with its current leadership still has the flexibility to transform itself and survive the anarchistic onslaught of politicians like Julius Malema remains to be seen [A History of Christianity in Africa](#) Elizabeth Isichei,1995 Isichei s thorough study surveys the full breadth of Christianity in Africa from the early story of Egyptian Christianity to the churches of the Middle Years 1500 1800 to the prolific success of missions throughout the 1900s This important book fills a conspicuous void of scholarly works on Africa s Christian history Includes 26 maps **Quarterly Bulletin of the Port Elizabeth Public Library** Port Elizabeth (South Africa). Public Library,1923 **The Journal of the Friends' Historical Society** Friends' historical society, London,1919 *General History of Africa* International Scientific Committee for the drafting of a General History of Africa,1981-12-31 One of UNESCO s most important publishing projects in the last thirty years the General History of Africa marks a major breakthrough in the recognition of Africa s cultural heritage Offering an internal perspective of Africa the eight volume work provides a comprehensive approach to the history of ideas civilizations societies and institutions of African history The volumes also discuss historical relationships among Africans as well as multilateral interactions with other cultures and continents
