features an unprecedented assortment of ephemera or paper collectibles related to food. It includes images of postcards, match covers, menus, labels, posters, brochures, valentines, packaging, advertisements, and other materials from nineteenth and twentieth century America. Internationally acclaimed food historian William Woys Weaver takes us on a lively tour through this dazzling collection in which each piece tells a new story about food and the past. Packed with fascinating history, the volume is the first serious attempt to organize culinary ephemera into categories, making it useful for food lovers, collectors, designers, and curators alike. Much more than a catalog, *Culinary Ephemera* follows this paper trail to broader themes in American social history, such as diet and health, alcoholic beverages, and Americans abroad. It is a collection that, as Weaver notes, will transport us into the vicarious worlds of dinners past, brushing elbows with the reality of another time, another place, another human condition.

The Routledge History of the Domestic Sphere in Europe Joachim Eibach, Margareth Lanzinger, 2020-12-29 This book addresses the multifaceted history of the domestic sphere in Europe from the Age of Reformation to the emergence of modern society. By focusing on daily practice, interaction, and social relations, it shows continuities and social change in European history from an interior perspective. *The Routledge History of the Domestic Sphere in Europe* contains a variety of approaches from different regions that each pose a challenge to commonplace views, such as the emergence of confessional cultures of private life and of separate spheres of men and women. By analyzing a plethora of manifold sources, including diaries, court records, paintings, and domestic advice literature, this volume provides an overview of the domestic sphere as a location of work and consumption, conflict and cooperation, emotions and intimacy, and devotion and education. The book sheds light on changing relations between spouses, parents and children, masters and servants or apprentices, and humans and animals or plants, thereby exceeding the notion of the modern nuclear family. This volume will be of great use to upper level graduates, postgraduates, and experienced scholars interested in the history of family, household, social space, gender, emotions, material culture, work, and private life in early modern and nineteenth century Europe.

Culinary Landmarks Elizabeth Driver, 2008-01-01 *Culinary Landmarks* is a definitive history and bibliography of Canadian cookbooks from the beginning when *La cuisinière bourgeoise* was published in Quebec City in 1825 to the mid twentieth century. Over the course of more than ten years, Elizabeth Driver researched every cookbook published within the borders of present day Canada, whether a locally authored text or a Canadian edition of a foreign work. Every type of recipe collection is included, from trade publishers' bestsellers and advertising cookbooks to home economics textbooks and fund raisers from church women's groups. The entries for over 2,200 individual titles are arranged chronologically by their province or territory of publication, revealing cooking and dining customs in each part of the country over 125 years. Full bibliographical descriptions of first and subsequent editions are augmented by author biographies and corporate histories of the food producers and kitchen equipment manufacturers who often published the books. Driver's excellent general introduction sets out the evolution of the cookbook genre in Canada, while brief introductions for each province identify

regional differences in developments and trends Four indexes and a Chronology of Canadian Cookbook History provide other points of access to the wealth of material in this impressive reference book
