The Copernican Plan Restructuring The American High School Paperback By:

The Copernican Plan Joseph M. Carroll, 1989 A new perspective on the practical problems of changing secondary schools to enhance learning is called the Copernican Plan because its implementation would change the schools as completely as Copernicus's ideas changed the perception of our solar system The plan proposes major restructuring of virtually all the basic systems within a high school particularly change in schedule Instead of students changing locations subjects and activities seven to nine times each day they would concentrate on one or two subjects at a time each subject taught in an extended macroclass Integral to the Copernican schedule is a seminar program in which students grapple with the complex issues of today's world Other features include a mastery learning system tied to a credit system that substitutes for grades differentiated diplomas a conduct and reliable performance graduation requirement and the dejuvenilization of the high school In addition to a full explanation of the Copernican Plan chapters discuss the problems that the plan addresses provide a brief history of the evolution of the American high school explain why and how the plan works and offer suggestions for implementation Appended is an analysis of the use of school time each day and comparison with a traditional schedule 49 references SI

Understanding by Design Grant P. Wiggins, Jay McTighe, 2005 What is understanding and how does it differ from knowledge How can we determine the big ideas worth understanding Why is understanding an important teaching goal and how do we know when students have attained it How can we create a rigorous and engaging curriculum that focuses on understanding and leads to improved student performance in today's high stakes standards based environment Authors Grant Wiggins and Jay McTighe answer these and many other questions in this second edition of *Understanding by Design* Drawing on feedback from thousands of educators around the world who have used the UbD framework since its introduction in 1998 the authors have greatly revised and expanded their original work to guide educators across the K-16 spectrum in the design of curriculum assessment and instruction With an improved UbD Template at its core the book explains the rationale of backward design and explores in greater depth the meaning of such key ideas as essential questions and transfer tasks Readers will learn why the familiar coverage and activity based approaches to curriculum design fall short and how a focus on the six facets of understanding can enrich student learning With an expanded array of practical strategies tools and examples from all subject areas the book demonstrates how the research based

principles of Understanding by Design apply to district frameworks as well as to individual units of curriculum Combining provocative ideas thoughtful analysis and tested approaches this new edition of Understanding by Design offers teacher designers a clear path to the creation of curriculum that ensures better learning and a more stimulating experience for students and teachers alike

Explorations in Curriculum History Sherry L. Field, 2005-02-01 Mission Statement The book series entitled Research in Curriculum and Instruction will focus on a considerations of curriculum practices at school district state and federal levels b relationship of curriculum practices to curriculum theories and societal issues c concerns derived from curriculum policy analyses and from analyses of various curriculum advocacies and d insights derived from investigations into curriculum history Although the series will emphasize the American curriculum scene aspects of curriculum practice and theory embedded in non US countries will not be overlooked Furthermore this series will not restrict its concern to general curriculum matters but it will draw explicit attention to curriculum issues relating to the several curriculum subjects The series primary concern will be to illuminate practice and issues toward informed and improved curriculum practice This volume will contain selected papers presented at meetings of the Society for the Study of Curriculum History across the past decade plus several specially commissioned papers from senior scholars in the field Professor Field was the Society s President for some time during that period Papers will treat dimensions of the development of the American school curriculum both elementary and secondary

Changing the School Learning Environment Jack Rimmel Frymier, Ronald Joekel, 2004 The No Child Left Behind Legislation by the federal government led to another round of emphasis on public schools resulting in a focus on school renewal or as often termed school reform The National Association of Secondary School Principals in the 1960s initiated a concept for school renewal called The Model Schools Project 1969 1974 The MSP was the culmination of much of the seminal thinking on school renewal of that era The project was directed by Dr J Lloyd Trump NASSP secretary for research and development and Dr William D Georgiades professor of Education at the University of Southern California After the MSP formally ended Georgiades continued to provide leadership for school renewal as president of a follow up consortium of schools and districts the Learning Environments Consortium International In Changing the School Learning Environment Jack Frymier and Ronald Joekel take a look at the key concepts of the Model Schools Project and what has transpired during the past 30 plus years Has it survived as initially conceived evolved into something meaningful for contemporary schools or failed as so many other innovations have done A survey of best educational practices stemming from the Model Schools Project that promote school renewal and how they are being utilized today are also presented and discussed Should appeal to educators and secondary school administrators

Time to Write, Second Edition John Sylvester Lofty, 2015-02-10 To read John s work is to take on the role of a patient listener A book like a piece of music is scored for time and I feel Time to Write is scored adagio I believe that Time to Write can be read as a critique of the time chopping approach to education and an argument for presence for being fully open to experience for

being there To do good work we must enter something like island time or what John calls existential time or what is sometimes called flow when we lose at least temporarily a sense of clock time from the Foreword by Thomas Newkirk Twenty five years ago John Sylvester Lofty studied the influence of cultural time values on students resistance to writing instruction in an isolated Maine fishing community For the new edition of *Time to Write* Lofty returned to the island to consider how social and educational developments in the intervening years may have affected both local culture and attitudes toward education Lofty discovered how the island time values that previously informed students literacy learning have been transformed by outside influences including technology social media and the influx of new residents from urban areas Building on the ethnographic findings of the original study the new edition analyzes the current conflict between the digital age time values of constant connections and instant communication and those of school based literacy Lofty examines the new literacies now essential for students in a technologically connected world both those who aspire to continue the traditional island work of lobster fishing and for the many who now choose to pursue other careers and attend college on the mainland

Principals as Maverick Leaders

Michael Chirichello, Sharron Goldman Walker, 2011-06-16 After her school wins the coveted United States National Secondary Education Award a school principal embarks upon an educational odyssey The principal discovers that the reasons for winning the award are a sham As her school falls apart she begins to reflect on the stagnant school organization and the ineffective prescriptions for improvement She wonders why as a democratic nation American schools do not model the practice of democracy for students The principal begins her quest to unearth the flaws in her own thinking about the way schools work in her quest to create more democratic schools Endeavoring to understand how systems really work the principal puts her new ideas into practice and shares with the reader the lessons learned from past practices This book presents a guide for principals in the form of rules that suggest that educational leaders must ask themselves why they do what they do It also takes readers through a series of vignettes focused on how principals can practice democracy in the schoolhouse while challenging themselves and their school community Educational Research Quarterly ,1999 *The Instrumentalist* ,1996 **Years of Transition, Times for Change** Andy Hargreaves, Lorna Maxine Earl, Ontario. Ministry of Education and Training, 1993 Curriculum for a New Millennium Wilma S. Longstreet, Harold Gray Shane, 1992 Suggests a number of different approaches to curriculum design that would open up possibilities of what is studied and how it is studied
