The Critical Historian:

The Critical Historian G Kitson Clark,2016-04-14 Originally published in 1967 this book analyses the method by which historical evidence is built up and compares the nature of historical proof with that of other disciplines such as the law and natural sciences It examines an extraordinary series of forgeries and distortions from the False Decretals to the biographies of Lytton Strachey as well as discussing how an historical reputation such as that enjoyed by Judge Jefferies was created

Kitson Clark,1985 *The Critical Historian* George Kitson Clark,2013 **The Critical Historian** George Kitson Clark,1970 *The Critical Historians of Art* Michael Podro,1982-01-01 Reviews the work of nineteenth century German art critics and connects their writings with the basic philosophical problems of aesthetics considered by Kant Schiller and Hegel The Critical History of England, Ecclesiastical and Civil Mr. Oldmixon (John),1726

Critical Approaches to the Study of Higher Education Ana M. Martínez-Alemán,Brian Pusser,Estela Mara Bensimon,2015-06-01 An essential guide to incorporating critical research into higher education scholarship Winner of the Outstanding Publication Award of the Post secondary Education Division of the American Educational Research Association Critical theory has much to teach us about higher education By linking critical models methods and research tools with an advocacy driven vision of the central challenges facing postsecondary researchers and staff Critical Approaches to the Study of Higher Education makes a significant and long overdue contribution to the development of the field The contributors argue that far from being overly abstract critical tools and methods are central to contemporary scholarship and can have practical policy implications when brought to the study of higher education They argue that critical research design and critical theories help scholars see beyond the normative models and frameworks that have long limited our understanding of students faculty institutions the organization and governance of higher education and the policies that shape the postsecondary arena A rigorous and invaluable guide for researchers seeking innovative approaches to higher education and the morass of traditionally functionalist rational and neoliberal thinking that mars the field this book is also essential for instructors who wish to incorporate the lessons of critical scholarship into their course development curriculum and pedagogy Historiographies of Philosophy 1800-1950 Mogens Lærke,Leo Catana,2023-09-12 This volume discusses ways in which the history of philosophy has been written from 1800 to 1950 and how it has been informed and guided by institutional cultural political philosophical and non philosophical factors Since its inception as a discipline histories of philosophy have been written in different ways depending on author place and time they have varied according to institutional frameworks cultural settings and philosophical and non philosophical contexts At each stage of the discipline s development and evolution philosophy has constantly used the history of philosophy for its own purposes by adapting it transforming it rejecting it embracing it and rewriting it at every step of the way The chapters in this book examine the methods deployed by historians of philosophy epistemological foundations laid down for those methods and the philosophical

or non philosophical aims pursued using those methods This book will be a great resource for academics researchers and advanced students of philosophy and related fields including political philosophy and history of philosophy It was originally published as a special issue of the British Journal for the History of Philosophy Critique as Critical History Bregham Dalglish,2017-08-22 This book presents the first sustained articulation of a Foucauldian uvre It situates Foucault s critique within the tradition of Kant s call for a philosophical archaeology of reason in parallel it demonstrates the priority in Foucault s thought of Nietzsche over Heidegger and the framing of reason against an ontology of power Bregham Dalglish hereby claims that at the heart of the Foucauldian uvre is the philosophical method of critical history Its task is to make the will to know that drives thought conscious of itself as a problem especially the regimes of truth that define our governmentalities By revealing the contingency of their constituent parts of knowledge power and ethics Dalglish demonstrates that critical history offers an alternative mode of critique to the hithertofore singular reading of the intellectual heritage of enlightenment while it fosters an agonistic concept of freedom in respect of our putatively necessary limits **Edinburgh Critical History of Nineteenth-Century Philosophy** Alison Stone,2011-06-06 This volume begins with the rise of German Idealism and Romanticism traces the developments of naturalism positivism and materialism and of later century attempts to combine idealist and naturalist modes of thought Written by a team of leading international scholars this crucial period of philosophy is examined from the novel perspective of themes and lines of thought which cut across authors disciplines and national boundaries This fresh approach will open up new ways for specialists and students to conceptualise the history of 19th century thought within philosophy politics religious studies and literature **Doing Educational Research** ,2006-01-01 Doing Educational Research explores a variety of important issues and methods in educational research Contributors include some of the most important voices in educational research In the handbook these scholars provide detailed insights into one dimension of the research process that engages both students as well as experienced researchers with key concepts and recent innovations in the domain The editors and authors believe that there is a need for a handbook on educational research that is both practical as it introduces beginning scholars to the field and innovative as it pushes the boundaries of the conversation about educational research at this historical juncture In this collection the editors and authors explore a variety of topics from methodologies such as ethnography action research hermeneutics historiography psychoanalysis literary criticism to issues such as social theory epistemology and paradigms Readers will be pleased with the way the book addresses complex topics in an accessible and readable manner John Dewey and the Ethics of Historical Belief Curtis Hutt,2013-04-08 John Dewey and the Ethics of Historical Belief addresses the ethics of the representation of the past with a focus on the justification of historical belief within religious and critical historiographical traditions What makes a belief about the past justified What makes one historical belief preferable to another A great deal rides on how these questions are answered History textbook wars take place across the globe from California to India Cultural heritage protection is

politicized and historical research is commonly deployed in support of partisan agendas This book explores not only John Dewey s relatively unknown contribution to this topic but also the leading alternatives to his approach Author Curtis Hutt focuses attention on the debate among those most influenced by Dewey s thought including Richard Rorty Richard Bernstein James Kloppenberg Wayne Proudfoot and Jeffrey Stout He also reviews the seminal work of Van Harvey on the relationship between historians and religious believers Dewey is cast as a vigorous opponent of those who argue that justified historical belief depends upon one s religious tradition Strongly resisted is the idea that historical belief can be justified simply on account of acculturation Instead Dewey s view that beliefs are justified as a result of theorized historical inquiry is emphasized In order to prevent moral blindness the responsible historian and theologian alike are advised to attend to witnesses to the past that arise from outside of their own traditions

Young, Sarah Diem, 2023-07-25 This handbook offers a contemporary and comprehensive review of critical research theory and methodology Showcasing the work of contemporary critical researchers who are harnessing and building on a variety of methodological tools this volume extends beyond qualitative methodology to also include critical quantitative and mixed methods approaches to research The critical scholars contributing to this volume are influenced by a diverse range of education disciplines and represent multiple countries and methodological backgrounds making the handbook an essential resource for anyone doing critical scholarship The book moves from the theoretical to the specific examining various paradigms for engaging in critical scholarship various methodologies for doing critical research and the political ethical and practical issues that arise when working as a critical scholar In addition to mapping the field contributions synthesize literature offer concrete examples and explore relevant contexts histories assumptions and current practices ultimately fostering generative thinking that contributes to future methodological and theoretical breakthroughs New as well as seasoned critical scholars will find within these pages exciting new ideas challenging questions and insights that spur the continuous evolution and grow the influence of critical research methods and theories in the education and human disciplines

Philosophy of History Jouni-Matti Kuukkanen, 2020-11-12 With a recent surge of interest in the field a volume taking stock of important theoretical shifts in the philosophy of history is greatly needed A Philosophy of History fills this gap by weaving together a range of perspectives on the field which finds itself at a crossroads and asks where it is headed in the 21st century The book takes a concerted effort to go beyond the customary three fold distinction between the speculative analytic and narrativist approaches in philosophy of history It considers what comes after the enduring narrativist turn Chapters incorporate cutting edge discussions on the relevance of contemporary political phenomena such as populism the relation between science and history pragmatism and the paradigmatic challenge of the Anthropocene It also re evaluates the continued relevance of major historical thinkers like Leibniz and R G Collingwood and the endlessly fresh insights they can offer to key debates in the field today Philosophy of History is a much needed reappraisal of the philosophy

and theory of history offering an up to date overview of major developments in the field and addressing the pressing questions of where to go next in a post analytical post narrativist world **Imperial Emotions** Javier Krauel,2013 A ground breaking work that considers myths of the Spanish empire from the perspective of cultural responses to its demise

Illusion and Fetishism in Critical Theory Vasilis Grollios,2023-12-01 Through the negative dialectics of Theodore Adorno Illusion and Fetishism in Critical Theory offers an examination of Nietzsche Benjamin Castoriadis and the Situationists who put the concept of illusion at the forefront of their philosophical thought Vasilis Grollios argues that these political philosophers except Castoriadis have up to now been wrongly considered by many scholars to be far from the line of thinking of negative dialectics Critical Theory and the early Frankfurt School Open Marxist tradition He illustrates how these thinkers focused on the illusions of capitalism and attempted to show how capitalism by its innate rationale creates social forms that are presented as unavoidable and universal yet are historically specific and of dubious sustainability Providing a unique overview of concepts including illusion totality fetishization contradiction identity thinking and dialectics Grollios expertly reveals how their understanding of critique can help us open cracks in capitalism and radicalize democratic social practice today Illusion and Fetishism in Critical Theory is a must read for scholars of political theory and political philosophy critical theory the Frankfurt School sociology and democratic theory **The Critical Historians of Art** Michael

Podro,1982 The major transformations in the philosophy of history and in aesthetics in late eighteenth and early nineteenth century Germany played an important part in the development of the subsequent historiography of art This is the first extensive critical account of the work of the figures of that era who made the fundamental contributions to the field Semper Riegel Wolfflin Warburg and Panofsky A perceptive and fascinating introduction for the student of history and aesthetics Publisher s description **The General Biographical Dictionary: Containing an Historical and Critical Account of**
