Prognosis in Advanced Cancer Paul Glare, Nicholas A Christakis, 2008-03-20 In order to make decisions and offer quality health care it is essential to be able to predict survival and other outcomes This practical evidence based book brings together prognosis information for patients with advanced cancer [Palliative Treatment for Advanced Cancer Patients](#) Cynthia Pereira de Araújo, 2023-05-05 This book presents an important reflection on the concept and limits of the Fundamental Right to Health as opposed to a supposed Right to Hope in the context of the treatment of patients with advanced cancer The central idea of the work is the question of whether and to what extent patients with advanced cancer have the right to legally demand a palliative treatment whose efficacy has not been proven from the point of view of the desired objectives The book demonstrates how hope cannot be subject to legal protection and also that even if theoretical legal reasons were not sufficient for the absence of an abstract right to hope ethical reasons would be The work concludes that the best palliative care rather than palliative treatment guarantees the best right to health for advanced cancer patients especially in terminal cases In addition to this theoretical discussion the book also presents the results of a qualitative research the author conducted with 48 advanced cancer patients in Brazil and Germany to investigate their expectations towards chemotherapy This study has confirmed that many patients decide to undergo often toxic and exhausting treatments unrealistically believing that their cancer is curable or that as long as they continue with a course of chemotherapy cancer may be beaten *Palliative Treatment for Advanced Cancer Patients Can Hope Be a Right* will be of interest to health professionals and social workers working with advanced cancer patients as well as to researchers in the fields of public health bioethics medical ethics and health law especially those interested in the growing interdisciplinary field of end of life decision making *Publication Catalogue and Order Form* National Cancer Institute (U.S.), 1998 *Coping with Advanced Cancer: Support for People with Cancer* National Cancer Institute (U.S.), 2018-07-18 *Coping with Advanced Cancer* is a booklet for people who have been told they have late stage cancer or that their cancer isn't responding to treatment Family and friends may also want to read this booklet The booklet includes information about dealing with transitions in care including end of life issues It stresses that learning about your options and talking about your concerns keeps you in control of your care and of your life Related products *Caring for the Caregiver Support for Cancer Caregivers* ePub format only ISBN 9780160947520 *Children with Cancer A Guide for Parents* ePub format only ISBN 9780160947537 *Eating Hints Before and after Cancer Treatment* ePub format only ISBN 9780160947551 *Life After Cancer Treatment Facing Forward* ePub format only ISBN 9780160947568 *Pain Control Support for People with Cancer* ePub format only ISBN 9780160947575 *Radiation Therapy and You Support for People with Cancer* ePub format only ISBN 9780160947582 *Surgery Choice for Women with DCIS and Breast Cancer* ePub format only ISBN 9780160947599 *Taking Part in Cancer Research Studies* ePub format only ISBN 9780160947605 *Understanding Breast Changes A Health Guide for Women* ePub format only ISBN
