Sleepless In Space:

Sleepless Marie Darrieussecq, 2023-09-05 A restless inquiry into the cultural and psychic sources of insomnia by one of contemporary French literature's most elegant voices Plagued by insomnia for twenty years Marie Darrieussecq turns her attention to the causes implications and consequences of sleeplessness a nocturnal suffering that culminates at 4 a.m. and then defines the next day Insomniac mornings are dead mornings she observes Prevented from falling asleep by her dread of exhaustion the next day Darrieussecq turns to hypnosis psychoanalysis alcohol pills and meditation Her entrapment within this spiraling anguish prompts her inspired ingenious search across literature geopolitical history psychoanalysis and her own experience to better understand where insomnia comes from and what it might mean There are those she writes in Rwanda whose vivid memories of genocide leave them awake and transfixed by complete horror there is the insomnia of the unhoused who have nowhere to put their heads down The hyperconnection of urban professional life transforms her bedroom from a haven to a dormant electrified node Ranging between autobiography clinical observation and criticism *Sleepless* is a graceful inventive meditation by one of the most daring inventive novelists writing today **Flight Attendant Duty Time**

Space Shuttle Challenger Ben Evans, 2007-07-05 Ironically the loss of Challenger in January 1986 fired my interest in space exploration more than any other single event I was nine years old My parents were at the time midway through moving house and luckily the TV was one of the few domestic items still to be packed I watched the entire horror unfold live on all of the network stations Admittedly my fascination with rockets and astronauts stars and planets had begun several years earlier but Challenger s destruction turned it from an occasional hobby to a fascination which has remained with me ever since In September 1988 aged 11 I came home from school to watch STS 26 return the Shuttle fleet to orbital operations Five years later I gave a speech on the STS 51L disaster to my teacher as part of my GCSE English assessment Another decade passed and now a teacher myself I returned to my school one cold Monday morning to explain to my pupils what had happened to Challenger s sister ship Columbia a few days earlier In some ways the loss of Columbia affected me more deeply than Challenger
