The Oxford Handbook of Terrorism Erica Chenoweth, Richard English, Andreas Gofas, Stathis N. Kalyvas, 2019-03-19 The Oxford Handbook of Terrorism systematically integrates the substantial body of scholarship on terrorism and counterterrorism before and after 9 11 In doing so it introduces scholars and practitioners to state of the art approaches methods and issues in studying and teaching these vital phenomena This Handbook goes further than most existing collections by giving structure and direction to the fast growing but somewhat disjointed field of terrorism studies The volume locates terrorism within the wider spectrum of political violence instead of engaging in the widespread tendency towards treating terrorism as an exceptional act Moreover the volume makes a case for studying terrorism within its socio historical context Finally the volume addresses the critique that the study of terrorism suffers from lack of theory by reviewing and extending the theoretical insights contributed by several fields including political science political economy history sociology anthropology criminology law geography and psychology In doing so the volume showcases the analytical advancements and reflects on the challenges that remain since the emergence of the field in the early 1970s

The Making of Terrorism Michel Wieviorka, 2004 Revised and reissued in light of recent events this classic and now increasingly important book is an exception in the literature on terrorism Based on complex observations of actual movement participants Wieviorka's book addresses a broad spectrum of terrorist activity from Italian left wing terrorists to Basque nationalist groups to the international terrorism of Palestine and the Middle East The result is an incisive analysis of what terrorists believe and what they hope to achieve through their actions For this new edition Wieviorka adds new material that remaps the state of terrorism after the events of 2001

Terrorism J. Lutz, 2005-09-02 Terrorism is not a new phenomenon but has been present for over two thousand years It has been used to advance ethnic religious and ideological goals it has been used

by dissidents and states to maintain control it has been used at times as a means for attaining or maintaining power for its own sake Terrorism has often appeared as a response to the intrusion of outside groups in established societies This book places terrorism in a historical and analytical context It is a comparison of terrorist groups over time noting both similarities and differences It will also contribute to discussions of the underlying causes of terrorism by providing a broader context than is usually attempted It is important to put recent terrorist events in an appropriate context and to learn what history has to offer for dealing with this type of political violence

The Terrorists, from Tsarist Russia to the O.A.S. Translated ... by Paula Spurlin. [With Plates.]. Roland Gaucher, Paula SPURLIN, 1968 **The Darkest Sides of Politics, I** Jeffrey M. Bale, 2017-09-04 This book examines a wide array of phenomena that arguably constitute the most noxious extreme terrifying murderous secretive authoritarian and or anti democratic aspects of national and international politics Scholars should not ignore these dark sides of politics however unpleasant they may be since they influence the world in a multitude of harmful ways The first volume in this two volume collection focuses on the history of underground neo fascist networks in the post World War II era neo fascist paramilitary and terrorist groups operating in Europe and Latin America in the 1960s and 1970s and the manipulation of those and other terrorist organizations by the security forces of various states both authoritarian and democratic A range of global case studies are included all of which focus on the lesser known activities of certain secular extremist milieus This collection should prove to be essential reading for students and researchers interested in understanding seemingly arcane but nonetheless important dimensions of recent historical and contemporary politics

A Quarter Century of Value Inquiry Richard T. Hull, 2021-11-01 This volume contains all of the presidential addresses given before the American Society for Value Inquiry since its first meeting in 1970 Contributions are by Richard Brandt Virgil Aldrich John W Davis the late Robert S Hartman James B Wilbur the late William H Werkmeister Robert E Carter the late William T Blackstone Gene James Eva Huel Cadwallader Richard T Hull Norman Bowie Stephen White Burton Leiser Abraham Edel Sidney Axinn Robert Ginsberg Patricia Werhane Lisa M Newton Thomas Magnell Sander Lee John M Abbarno Ruth Miller Lucier and Tom Regan Autobiographical sketches by all of the living contributors and one recently deceased biographical statements of the remainder together with photographic portraits of all the contributors make this volume a unique record of value inquiry during the past quarter century indicates previously unpublished or unpublished in the present form indicates substantial new material has been added The addresses cover diverse topics from broad general ones to value inquiry into literature bioethics and public policy to philosophy of mind to critical studies of other philosophers work defenses of philosophy and of applied ethics individual role and cultural relativism of values The American Society for Value Inquiry is nearing its 25th anniversary Its leadership is elected annually often with a vice president becoming president elect then president then past president a structure that serves to insure a measure of continuity Its members are drawn to the society not by a particularly credo or ideology or philosophical position but by a common interest in questions of value

ranging from abstract meta value inquiry to disciplinary and trans disciplinary value inquiry For those who share this range of passions the volume will preserve collect organize and in a number of cases recover material in danger of being lost to them The Presidential Address is a unique genre resembling in some ways a sermon Indeed preparing a presidential address before a philosophical society is often an exercise in developing an exhortation to members to take up a neglected topic to embrace as important a particular viewpoint it may as well be a cautionary to avoid a particular error It is often a dramatic moment as a last act of the presidency having observed closely the trends and winds blowing through the discipline the speaker is afforded the opportunity to hold forth on a topic at once intensely personal and believed to be of wide interest While some societies publish presidential addresses in newsletters or informal proceedings and occasionally in professional bulletins or journals rarely have a substantial bloc of a society s presidential addresses been collected and published under one cover Too often the presidential address is delivered discussed by those present perhaps summarized in a paragraph in a newsletter to members and filed as a fond memory of a moment of honor in the papers of the author sometimes to be forgotten lost discarded or otherwise removed from availability to scholars of the history of philosophy This volume inaugurates a series aiming at preserving presidential and other major addresses before philosophical societies It seeks to be a historical record not only of the address but also of the reflections and recollections of the author It seeks to preserve as a part of the historical record a photograph of the author And with the personal character of an autobiographical statement it seeks to humanize and render lively and real the professi
