Test Tube Conception A Blend Of Love And Science:

Test-tube Conception Erminio Peter Volpe,1987 A look at modern developments in medical technology covers in vitro fertilization frozen embryos surrogate mothers sex selection clones genetic engineering and moral issues **A Sexual Odyssey** Kenneth E. Maxwell,2013-11-11 The Brave New World of Sex We've seen in less than a generation a swift revolution in human sexual behavior attitude and consequences so dramatic that some people are left in a state of stunned dismay and the public at large in aimless confusion Much of the trend if you can call a revolution a trend is fueled by or at least made possible by technological innovations dating back to the middle of the twentieth century The birth control pill opened the gate to promiscuity with little fear of pregnancy marriage became an annoyance divorce became an opportunity two working parents became a necessity and teenage sex became nearly as socially acceptable as holding hands or going to the movies The copulation explosion resulted in a spiraling epidemic of children giving birth to children many of them on welfare Girls seeking relief through abortions were sometimes forced to have their unwanted offspring despite the inevitability of some of them living in poverty and a desperate dead end environment of squalor and crime Some misguidedly wanted babies and ended up the same way To top it all discipline 2 A Sexual Odyssey became a lost art leaving schools and neighborhoods infested with gun toting knife wielding teenage delinquents even in middle class areas who engaged in contests to see who could get the most girls knocked up The chaotic state of fornication mating and birthing may be a throwback to the past Technologies of the Gendered Body Anne Marie Balsamo,1996 This book looks at the representation of the body in culture from a feminist perspective Subjects covered include bodybuilding cosmetic surgery and cyberculture **Revisioning Women, Health and Healing** Adele E. Clarke, Virginia Olesen,2013-11-12 This engaging collection examines the implications and representations of race class and gender in health care offering new approaches to women's health care Subjects covered range from reproductive issues to AIDS *Gender Studies* Anne Cranny-Francis,Wendy Waring,Pam Stavropoulos,Joan Kirkby,2017-03-11 This book provides an accessible and interdisciplinary introduction to current debates on gender exploring the major theorists whose work has produced and inspired feminist analysis in women's gender studies cultural studies and sociology By clarifying and explaining the concepts of gender analysis and by demonstrating ways of working with these concepts the authors involve the readers directly in the reading process and leave them feeling empowered Accessible introductions to the work of major theorists help to give difficult concepts a context and the theory is related back to practice and to related fields such as class and race analysis throughout **Feminist Erasures** K. Silva,K. Mendes,2015-01-20 Feminist Erasures presents a collection of essays that examines the state of feminism in North America and Western Europe by focusing on multiple sites such as media politics and activism Through individual examples the essays reveal the extent to which feminism has been made invisible and irrelevant in contemporary Western culture The Reporter on Human Reproduction and the Law ,1971 *New Books on*

Women and Feminism ,1989 Gender in Science Fiction Films, 1964-1979 Bonnie Noonan,2015-06-15 The 1950s era of science fiction film effectively ended when space flight became a reality with the first manned orbit of Earth in 1962 As the genre s wildly speculative depictions of science and technology gave way to more reality based representations relations between male and female characters reflected the changing political and social climates of the era Drawing on critical analyses film reviews and cultural commentaries this book examines the development of science fiction film and its representations of gender from the groundbreaking films of 1968 including 2001 A Space Odyssey Barbarella and Planet of the Apes through its often overlooked Middle Period which includes such films as Colossus The Forbin Project 1970 The Stepford Wives 1975 and A Boy and His Dog 1975 The author examines intersections of gender and race in The Omega Man 1971 and Frogs 1972 gender and dystopia in Soylent Green 1973 and Logan s Run 1976 and gender and computers in Demon Seed 1977 The big budget films of the late 1970s Close Encounters of the Third Kind Alien and Star Wars are also discussed

Tissue Culture in Science and Society D. Wilson,2011-07-28 This book charts the social and cultural history of the scientific technique known as tissue culture It shows how tissue culture was a regular public presence in twentieth century Britain and argues that history can contribute to current debates surrounding research on human and animal tissue
